Sent: Thursday, November 02, 2006 3:50 PM
To: 'lwatson@ottoconstruction.com'
Subject: Revised Recomm

Hello Lee,

I hope we can speed our communication by this means to help you resolve the issues you raised in the Notice of Error. I discovered an aerial photograph filed with the claim for 73-152A that helps prove the point you made about the 1987 photography and irrigation. You should find attached a revised map that reflects the 414 acres shown in the recommendations. I have attached the recommendation for 73-33 as an example of the results. I trust you can apply the same approach to the other water rights. I do not see, at this point, modifying the quantities (cfs or inches) or the priority dates.

Feel free to call me later today or next week, if you want to talk about the map. I have a copy, and I think we can communicate effectively, if you want to direct me to particularly areas on the map. I am out of the office tomorrow (11/03) and Monday (11/06) afternoon.

73-33 Revised
Prelim.RTF

73-watson.jpg

Thanks for your involvement to get your water rights described properly.

To: 'roxanne.brown@idwr.idaho.gov'
Subject: Watson water rights in basin #73 2nd request

Roxanne

I have review you letter dated Oct. 8th 06 and I offer the following response. One the both aerial photo do not show the state of irrigation. The 1988 photo was done during one of the longest droughts, approximately 7 years and should not be used for reference. Idaho law allows for fields to not be irrigated so long as not being more than 5 years continuously. I am in the process on gathering more information and photo to provide to you. Please let me know if there is a dead line date for the information to be provided. Also could you provide me any and all information on the claims to my water rights #73-152A and #73-153A, I have never been notified nor has Mr. Hamilton of any claims being filed.

Thank you,

Lee Watson

Re: Snake River Basin Adjudication (SRBA)
Notice of Error Reply – Subcase No. 73-10100

Dear Lee and Catherine,

Thank you for your response to our preliminary recommendation of the water right claim(s) captioned above. This letter is an attempt to answer your questions and address your concerns about the recommendation(s).

It's important to understand that the paperwork you attached to each Reply was not a determination of your water rights; it was a copy of information taken from the original claim in the SRBA. IDWR is required to verify and make its recommendation of your claims to the SRBA Court. We are now going through that process.

73-33, 73-152A, 73-153A

Many of the elements of a water right that has been previously decreed, such as these three, are recommended as they were decreed. This is true of the priority dates and sources for these rights. The season of use, if it is not listed in the decree, is limited to the standard season for all other rights in your area.

Two of the claims (73-152A and 73-153A) were for portions of previously decreed rights. Your neighbors claimed other portions of these rights. IDWR made a determination of which quantity of water belonged to individual claimants, based on the original decrees. Disagreements caused by this type of determination are best settled during the objection phase of the SRBA, when all of the involved parties can work together for a solution. The objection phase will be described in the upcoming Director's Report, which you should receive in the mail shortly.

A water right recommendation in the SRBA must include a list of actual irrigated acres. We use aerial photography to establish the acres irrigated at the commencement of this adjudication: November 19, 1987. In your case, we used 1988 photography to establish your place of use. We found 230 acres irrigated in 1988; this is the basis of our recommended in the SRBA.

A copy of the photography is attached, with your property boundary outlined in black. It does not appear that all of the acres you own were irrigated at that time. With this evidence, we are unable to change our recommendation as requested.

We have also attached a copy of 2006 NAIP photography. The irrigation practice has obviously changed with the installation of pivots; you may now be irrigating more than can be recommended. This may cause a problem for you in the future; I would recommend that you contact IDWR as soon as possible to resolve this issue.

73-10098, 73-10099

IDWR could find no record of the water rights claimed by Mr. Hamilton as 73-10098 and 73-10099. We are unable to recommend these claims.

73-10100

In this case, Dwayne Hamilton had made the original claim with a priority date May 1, 1886. In addition, the claim was made for "high water" (see Remarks on the Adjudication Claim Profile Report). Such a claim is for the beneficial use of water in addition to any decreed or licensed water rights.

We are unable to recommend this claim without additional information. Please complete and submit the enclosed questionnaire. The information you supply describing your water delivery system and irrigation methods is essential in order for our staff to evaluate this beneficial use claim. Much of the information required is technical; you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

Please call me at (208) 287-4914 if you have additional questions or concerns. You may also reach me using email: roxanne.brown@idwr.idaho.gov.

Sincerely,

Roxanne Brown
