RE: 77-4218

Dear Mr. Harris:

On July 2, 1984, you submitted a Statutory Claim to a Water Right, which listed power production as a use. On July 20, 1988, you submitted a Notice of Claim in the Snake River Adjudication and power production was not listed. We are just checking to see if there is no longer any power production at the Burdorft Hat Spring.

Sincerely,

Kenneth Knoblock
Water Resources Agent

JUL 2 1984

Claim No. 77-4217

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Department of Water Resources
Western Regional Office

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Scott S. and Connie Harris, 2104 S. Michigan St., Caldwell, ID 83605
(Name of Claimant)
and Gretchen L. Harris, 1815 North 15th, Boise, ID 83702 Telephone No. (208) 454-3814
(Mailing Address) (Zip Code) (208) 343-1054

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) June 1, 1875

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Jeanette Creek (aka Quarter Mile Creek) tributary to Lake Creek

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

				(Both dates inclusive)	
(cfs. aff)		IDomestic, Irrigation, Stock, Etc.]		(Mo., Day)	(Mo., Day)
Quantity	3.06 cfs	Use	Domestic power genera	Period of Use From	To 12/31
Quantity		Use	tion, commercial and	Period of Use From	To
Quantity		Use	stock watering	Period of Use From	To
Quantity	3.06 cfs	Use	Irrigation	Period of Use From	To 4/1
Quantity		Use		Period of Use From	To 11/1

(4) 3.06 cfs TOTAL QUANTITY USED.
(cfs. at)

(5) A) Point of diversion: (Location of point where water is diverted from its source)
SW % SE % Sec. 36 Twp. 22N Rge. 4E B.M. County of Idaho
Additional points of diversion: A spring tributary to Jeanette Creek located at a point in the
NWNE of Sec. 1, T22N, R4E, B.M., approximately 1/4 mile along the ditch from the above
point of diversion (for third point of diversion, see attached sheet)

8) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities; be as specific as possible. Describe any changes in the system and give the date of the change. The water is diverted at each point by a diversion dam and a wooden headgate. The ditch is approximately 3140 feet long, 1.5 feet wide at the bottom and 2 feet wide at the top. (See attached letters dated August 8, 1969, September 22, 1905 and

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres 40

B) If water is used for other than irrigation, fully describe that use, being as specific as possible: Water from Jeanette Creek is used for a variety of domestic and commercial purposes at the Burgdorf Hot Springs Resort, including drinking, cooking, sanitation, stockwatering, and gardening. In addition, water has been used for power generation purposes.

NOTE: Include here the type and number of stock watered: A maximum of 10 horses, 50 cows and 5 goats*

(7) If you are claiming water as a member of an organization, list name of organization:

*have used water from this source during the months of June, July, August, September, and October. An average of 5 goats have used the water during the remaining months

77-4217

Field Exam Notes

Date of Exam: August 27, 2005

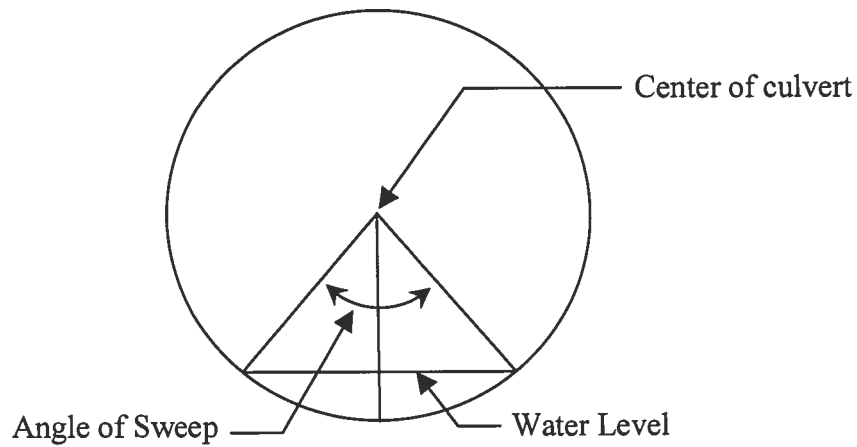

There are three points of diversion (POD) listed on this claim. The first POD is on Jeanette Creek, tributary to Lake Creek, and has a GPS location of **N45° 16' 57.5"** by **W115° 54' 36.5**. This location is very close to the line between SWSWSE, Sec. 36, Rge. 04E, Twp. 23N, BM.(the location listed on the claim) and SESESW of the same section, range and township. However, there is no real reason to believe that the POD is in any other location than what is indicated on the claim.

Water is diverted at this POD by a ditch cut into the creek bank. A rock and earthen dam was placed in the ditch (*Photo 1*) just below the POD to block water because of plans to redo the system and replace the ditch with a pipe. Because no water was in the ditch on the day of the exam, no flow measurements were taken. However, the profile of the ditch was taken. It is relatively square with a depth of eight inches (8") and a width of twenty-four inches (24"). The ditch (*Photo 2*) appeared to be quite uniform and well maintained. The ditch then meanders down to the place of use (POU) at the cabins near the hot springs. It supplies water for twenty (20) cabins including the caretaker's cabin.

The second POD is located at a spring, tributary to Jeanette Creek. A GPS reading was not taken at this point because of poor satellite reception. However, there is no reason to believe that it is not in the SWSWNE, Sec.1, Rge. 04E, Twp. 22N, BM. as listed on the claim. A buried line conveys water from a spring box (*Photo 5*) to three water hydrants in the vicinity of the cabins and hot spring. Mr. Harris stated that the spring flows into Jeanette Creek until about June. No flow measurement was taken for the spring. The location of the POU for the spring is the same as the location of the POU for the first POD out of Jeanette Creek.

The third POD is actually four POD's that are all located on Jeanette Creek in the pasture the creek runs through which is across the road from the resort (*Photos 6 & 7*). Water is channeled from Jeanette Creek at multiple places at various times by an old ditch system, a canvas dam and a shovel. All of these diversions occur within SWNW, Sec.1, Rge. 04E, Twp. 22N, BM.

Since the remainder of Jeanette Creek is used for pasture irrigation and watering stock, flow measurements were taken in the thirty-six inch (36") culvert that conveys Jeanette Creek under the road to the pasture. The 'orange peel method' was used. One (1) timed measurement was made over a distance of sixty-six feet (66') for a total time of **150 seconds**. The water depth in the center of the culvert was **7½ inches**. Flow calculations were made as follows (Sketch is not to scale):

Angle (θ) in radians:

$$2 \times \cos^{-1}(10.5/18) = \theta \approx 1.8959$$

Area of circle within angle sweep:

$$\frac{\theta}{2} r^2 = \frac{1.8959}{2} \times 18^2 \approx 307.1422 \text{ in}^2$$

Half distance of water surface across culvert cross section:

$$a = \sqrt{c^2 - b^2} = \sqrt{18^2 - 10.5^2} \approx 14.6202 \text{ in}$$

Area of water face in culvert:

$$307.1422 \text{ in}^2 - (14.6202 \times 10.5) \text{ in}^2 \approx 153.6302 \text{ in}^2$$

Flow:

$$\frac{(153.6302 \text{ in}^2) \left(\frac{\text{ft}^2}{144 \text{ in}^2} \right) 66 \text{ ft}}{150 \text{ sec}} \approx 0.4694 \text{ cfs} \approx \mathbf{0.47 \text{ cfs}}$$

Mr. Harris stated that the stock consists of not more than 15 horses when present. The actual POU for irrigation and stock are both located in the pasture and in **SWNW, SENW, NWSW, NESW**, Sec.1, Rge. 04E, Twp. 22N, BM. The claim lists the stock POU as NENW and SWNW of the same section, range and township and the irrigation POU as SWNW of the same section, range and township.

The addresses and phone numbers listed on the claim are incorrect. The correct address and phone number are:

Scott and Connie Harris
P.O. Box 331
McCall, ID 83638

(208) 634-3299

Mr. Harris stated that Gretchen L. Harris (listed on the claim as co-claimant) is no longer involved with the property.

In a conversation with Mr. Harris and a search of the Idaho Department of Water Resources (IDWR) public web site, it was found that there are no other water rights with the same POD or POU as this claim.

Field Examiner:

A handwritten signature in cursive script, appearing to read "Jim Zimmerman".

Western Regional Office

Valley

County(s) where Place of Use is located

11-23-88

Date Claim Originally Due

Domestic, Stockwater

Identify water right(s) for which extension is requested

State reason(s) why an extension of time is requested:

We weren't notified of necessity of filing until a neighbor told us. We have been in the process of moving twice to assume a medical residency position in Spokane and possibly missed notification. We will move back to McCall to begin medical practice.

Claimant requests an extension to 12-7, 1988.

Scott Harris
