RE: Snake River Basin Adjudication (SRBA)
Notice of Change of Water Right Ownership Fee
Notices of Claim to a Water Right #77-4174, 77-4175, 77-10104

Dear Claimant:

The Notices of Claim referenced above are still pending before the SRBA District Court; therefore, no fees were due. The refund process has been initiated with the State Auditor's Office for the \$75.00 fee you paid on receipt #W034287. You should receive a check soon.

Please don't hesitate to contact me if you have questions or need additional information.

Sincerely,

Donald V. Shaff, MPA
Adjudication Bureau Chief

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

A. The appropriate **FILING FEE**. See instructions for fee amounts. **WAIVED**

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Hello Kenneth,

In response to your letter of November 7 regarding my claim # 77-4174:

My mother and her husband originally filed the claim and I followed their lead as to the amounts of water needed.

The irrigation system is a ditch with head gates and four-inch sprinkler pipes all run by gravity. The ranch terrain is steep and the soil is sandy, requiring much more water than a level clay soil.

The ranch is 240 plus acres and at least 102 acres are of fields and pastures that need irrigation in this hot dry climate. Almost all of the rest of the ranch is in trees, which is also good pastureland. Much of this land is irrigated by natural seepage from the ditch before it gets to the fields. There is also natural seepage from the fields that irrigate pasture/trees below the fields.

Though labor intensive, the original homesteaders designed this system that works quite well for this particular property.

The mining equipment is a large sluice box system placed down hill from the end of the ditch and receives water through a four-inch pipe.

I hope I've answered your questions to your satisfaction.

Thank you for your time and efforts.

RE: 77-4174

Dear Ms. Lukehart:

On November 21, 1988, a Notice of Claim in the Snake River Adjudication was filed that you are now listed as the owner. It lists mining and irrigation use in Section 20 Township 20N Range 7E. We have some questions on the use of water.

What type of irrigation system are you using for 102 acres and why is so much water needed?

What type of mining equipment do you have that uses almost 1800 gallons per minute?

Sincerely,

Kenneth Knoblock

RE: Water Right No. 77-4174 & 77-4175

Dear Ms. Lukecart:

This office has completed the review of the claimed Points of Diversion on the above referenced water right numbers, per your request. As you had stated, it was discovered that the Point of Diversion, being the intersection of Sheep Creek and Wiley Creek, is in fact in the NWSE of Section 29, Township 20N, Range 7E. If the enclosed claims appear to be correct, please sign, notarize and return in the envelope provided. Also enclosed is a map of the area for your records.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any further questions, feel free to contact this office at (208) 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Denise Hatfield".

Enclosures

CONVERSATION MEMO

TO: AJ Agent for review
FROM: Denise Hatfield
DATE: May 28, 2003
SUBJECT: 77-4174, 77-4175 Point of Diversion

This is a response to the memo dated 5/27/03 concerning the POD for the above referenced numbers. According to the map attached, the POD being the intersection of Sheep Creek and Wiley Creek, is in fact in the NWSE of Section 29, T20N, R7E.

The amended claims have been sent for signature.

CONVERSATION MEMO

TO: AJ Agent for review
FROM: Denise Hatfield *DH*
DATE: May 27, 2003
SUBJECT: 77-4174, 77-4175 Point of Diversion

Joyce Lukecart called on approximately May 9, 2003 to ask that someone look at these files with her. Her concern is the Point of Diversion. She stated that the "current" maps show a different location for the points of diversion claimed on the above numbers. The points of diversion are now different than when the claims were originally filed. She also stated that it's not the claims that have changed, but the maps are what have changed.

The claims show SENW of section 29, 20N 7E. She thinks it should be NWSE according to the "current" maps.

Joyce called again today to check the status of the review and I informed her that we are working on claims in a very large area right now, and I would have an agent look into this as soon as possible. She can be reached at 634-5345.

Thank you

Re: Notice of Claim to a Water Right No. 77-4174 & 77-10104

Dear Claimant(s):

Per our recent conversation, enclosed is a copy of the above referenced claims, which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notices of Claim to a Water Right are not a determination of your water right. These claims were filed during claims taking in the Snake River Basin Adjudication (SRBA) and have not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. These claims will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

In reviewing claim number 77-10104, it was discovered that the Place of Use might have been claimed incorrectly. In looking at the attached map, the Place of Use appears to be located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, Township 20 North, Range 7 East; however it was claimed in the SW $\frac{1}{4}$ NW $\frac{1}{4}$. The changes have been made on the enclosed claim. If you agree with these corrections, after reviewing the claim and the map enclosed, please sign, notarize, and return to this office at your earliest convenience.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

Denise Hatfield
Office Specialist 1
Adjudication Section
Western Region Office

Enclosure

MEMORANDUM

TO: File 77-4174, 77-10136 & 77-10137
FROM: Denise Hatfield
DATE: April 23, 2003
SUBJECT: Ownership change information

Received a call from Genevieve (Joyce) Lukehart today asking why these claims still have Bonnie Davis listed on them, as she is no longer the current owner. Bonnie is Joyce's mother. In looking at the files, we had previously received notification of a name change, however, submitted on an address change form with no proof of ownership attached. Therefore, the data entry was completed by leaving Bonnie Davis on as the claimant, and adding "c/o Genevieve Lukehart" with the new address.

Upon receiving the phone call today from Joyce Lukehart, I advised her that in order to change the name solely to Lukehart, we would need sufficient proof of ownership. She is going to send documentation as soon as possible, to clear up this matter.

In addition, I asked her about the ownership change information in the files, regarding a change of ownership from Bonnie Davis to Daddy Del's LLC; in which was returned in 2002 for additional information. She informed me that this particular ownership change was submitted for the Mining portions of these claims only, as they were to be deeded to Del's children. Bonnie and Del were husband and wife.

4-28-03

- spoke to Joyce again today. Buzz Davis has no way of getting the correct papers to change ownership to Daddy Del's, as he doesn't actually own the property on these claims.

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Department of Water Resources

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
	A77-10136			not appropriate Domestic + mining "A" claims only	
	A77-10137				
	A77-04174 Y				

2. The following **REQUIRED** information must be submitted with this form:

- N/A A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

DURABLE POWER OF ATTORNEY
PUBLIC ROOM

KNOW ALL MEN BY THESE PRESENTS, that I, Bonnie B. Davis, residing at McCall, Idaho, do hereby appoint Harold L. Lukacart, my true and lawful attorney in fact, for me and in my name, place and stead, and for my use and benefit:

To ask, demand, sue for, recover, collect and receive all such sums of money, debts, dues, accounts, legacies, bequests, interest, dividends, annuities and demands whatsoever as are now or shall hereafter become due, owing, payable or belonging to me, and have, use and take all lawful ways and means in my name or otherwise for the recovery thereof, by attachments, arrests, distress or otherwise, and to compromise and agree for the same and acquittance or other sufficient discharges for the same;

For me and in my name, to make, seal and deliver, to bargain, contract, agree for, purchase, receive and take lands, tenements, hereditaments, and accept the possession of all lands and all deeds and other assurances, in the law therefor, and to lease, let, demise, bargain, sell, reimburse, release, convey, mortgage and hypothecate lands, tenements and hereditaments upon such terms and conditions and under such covenants as he shall think fit;

Also to bargain and agree for, buy, sell, mortgage, hypothecate, and in any and every way and manner deal in and with goods, wares, merchandise, choses in action, and other property in possession or in act, and to make, do and transact all and every kind of business of whatsoever nature and kind;

And also for me and in my name, and as my act and deed, to sign, seal, execute, deliver and acknowledge such deeds, leases, mortgages, hypothecations, bottomries, charter parties, bills of lading, bills, bonds, notes, receipts, evidence of debt, releases and satisfactions of mortgage, judgments and other debts, stock powers and such other instruments in writing of whatsoever kind and nature as may be necessary or proper in the premises

And also for me and in my name, and as my act and deed and with regard to medical treatment, surgical treatment and any health procedures which my said attorney believes I need for my health and welfare and to give any medical or surgical consent on my behalf, or to withhold that consent;

And also for me and in my name, and as my act and deed to consent on my behalf for my admission to residential and convalescent care facilities necessary for my health and welfare; and to hire and employ for me professional advisors, including physicians, dentists, accountants, attorneys, bookkeepers, realtors, property managers, and investment counselors;

And also for me and in my name, and as my act and deed to have access to any safe deposit box on which my name appears of record, and to the contents of each such deposit box, and to remove the contents of the same.

In the event I become terminally ill, that is, suffer from an incurable physical condition caused by disease or illness, my attorney appointed hereunder is specifically instructed to take such steps as are necessary to prevent the use of any artificial life-sustaining procedure, that is, any medical procedure or intervention which utilizes any mechanical means to sustain or supplant a vital function which would only serve to prolong the moment of my death. In this regard, my attorney appointed hereunder is further instructed and authorized to execute and all instruments, documents or papers requested by hospitals or attending physicians, and is authorized to execute any such documents as may be necessary to release physicians, hospitals, or health facilities from any civil liability which might otherwise arise from the failure to employ artificial life-sustaining procedures.

GIVING AND GRANTING unto my said attorney in fact full power and authority to do and perform every act necessary requisite, or properly to be done in and about premises as fully as I might or could do if personally present, with full power of substitution and revocation, hereby ratifying and confirming all that my said attorney shall lawfully do or cause to be done by virtue hereof.

If any provision of the Power is deemed invalid, then all other provisions shall remain valid.

Hello Denise,

As per our phone conversation today:

Please change ownership on
water rights application #77-4174
from Bonnie B. Davis (my mother)
to Genevieve Joyce Lutercart (myself)

Somehow this one was missed.

thanks

G. Joyce Lutercart

Denise - we expect an offer on
the ranch soon. Can you please
expidite this change?

Thanks!

This ownership
change info also
Applies to #

Irrigation on the Willey Ranch, South Fork Salmon River, Valley County.

water rights claim # 77-4174

This is long, so I highlighted pertinent portions:

My name is Genevieve Joyce Lawman Lukecart, born in 1949, and my grandparents, Clarence and Reva Rebillet, bought the Willey Ranch in 1942. The Willey's homesteaded the Ranch in the early 1900's. Earnest Willey took the southern 80 acres in 1921 and his father Simon Willey took the remaining 160.72 acres in 1923.

As a child and young teenager I spent most of my time before school age and most of my summer days after that with my grandparents at the ranch.

I remember my grandparents telling about how the Willey's provided produce to the miners in the early days. There were and are various apple, cherry, pear and plum trees there and they were old trees when I was a girl. They talked about the wheat and hay crops the Willey's grew and called the pasture uphill from the old house the "wheat field." This is not the type of land that one can grow seasonal crops or start fruit trees on without irrigation. It is hot, dry, and sandy.

Our neighbor three miles downriver, George Fritzer, and my Grandpa were good friends and usually talked on the phone every evening, (there was a phone line up and down the South Fork at that time.) Most of my Grandparent's historical information about the Ranch and the Willey's came from George. The Fritzer's and the Willey's were both homesteaders and neighbors for many years and each raised a passel of children.

water right claim # 77-10104 Other people like Red Potter, a packer from Big Creek who spent a few winters at our hot spring for his arthritis, Irene McDowell, a rancher down river, Carl Amacer, a miner at Elk Creek, and Herb Smith a miner upriver provided history. My step dad, Don Caward, was good friends with an old miner upriver who told stories of the Ranch to Dad and Mom. I cannot recall his name but I definitely remember sitting on the patchwork quilt on the bed in his cabin gazing at the fascinating wall paper made of hundreds of magazine pages, some of them slightly risqué. Dad and his brother had tried to buy the Ranch before my grandparents did and he knew all the old timers in the area and was quite a story swapper. And still later Pat Reed, eldest son of William and Bessie Reed, who homesteaded a ranch upriver in 1914, provided stories to my mother.

There is a pleasant forested flat at the source of the ditch where the water is taken from Willey Creek and Sheep Creek. My grandmother and I would occasionally accompany Grandpa to this flat on horseback. It is the far southeastern corner of the Ranch and is reached by a trail cresting a ridge and then switch backing steeply into the hole where the flat lies. This place was intriguing to me because of its remoteness, lushness, and that it is one of the few flat places on the entire Ranch. There was an old campsite there that my family and others had used throughout the years and **Grandma would tell me about how some of the Willey's camped there while building the flume and digging the conversions to form the "head of the ditch."**

SCANNED

SEP 15 2005

Department of Water Resources
Adjudication Bureau

There is a flume carrying the ditch water around a cliff not far from the "head of the ditch." Over the years my grandfather and uncle, Louis Rebillet, spent many hours replacing the old timbers the Willey's used to build it. **I remember them talking about the engineering the original flume took and the resin the Willey's used for leaks and how some of the workmanship lasted well beyond expected.** My uncle used to come back to the house, frustrated and tired after working hard on the flume all day, grumbling about particular spans that were forever springing leaks and were so difficult to repair. Then he and Grandpa would marvel over others that held up year after year without ever having to be replaced.

Grandpa and Uncle Louie worked the ditch all year long and talked about what a feat it had been for the Willey's to get the irrigation ditch flow so consistent. And about how much work and time it must have taken for them to bring the ditch around the "saddle" at the crest of the ridge north of the hot spring and through the "big draw" between the "center field" and the "big field" toward the north end. Both of these areas required the removal of tons of granite.

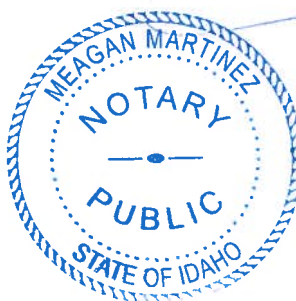

Grandpa let the ditch peter out beyond the "big field" and just used pipe to get water to the "far field. When Grandma and I helped with the haying she would talk to me about and point out where the Willey's used to run the ditch out farther to farm that field.

There is a very old Willey graveyard on the ranch and my grandparents told a story of one of the people who is buried there. It involved a father's boots, which were bitten by a rattlesnake while he was walking the irrigation ditch bank.

Pelton Wheel on the Willey Ranch

water rights claim # 77-4125

My mother, Bonnie, and her new husband, Del Davis, began living on the ranch in the late 1960's. They lived in the "new" house well up the hill from the "old" house I lived in with my grandparents. I think it was George Huddleston of Wilder who designed and built a pelton wheel for them for electrical power. It stood about 50 feet north of the house. They used a holding tank to gather water from the ditch and piped it down hill to the wheel. It was very noisy, ran day and night, and required constant maintenance. When I visited I usually slept at the north end of the house and would lay awake in the night fondly remembering. As a child in the old house I used to watch the lantern mantel slowly turn colors as it went out at bedtime. And in the quiet of the night I could hear the steady sound of the river. But then I was a child and didn't miss refrigeration and electric lights.

RE: 77-4174

Dear Ms. Lukecart:

On November 21, 1988, a Notice of Claim in the Snake River Adjudication was filed that you are now listed as the owner. It lists mining and irrigation use in Section 20 Township 20N Range 7E. We have some questions on the use of water.

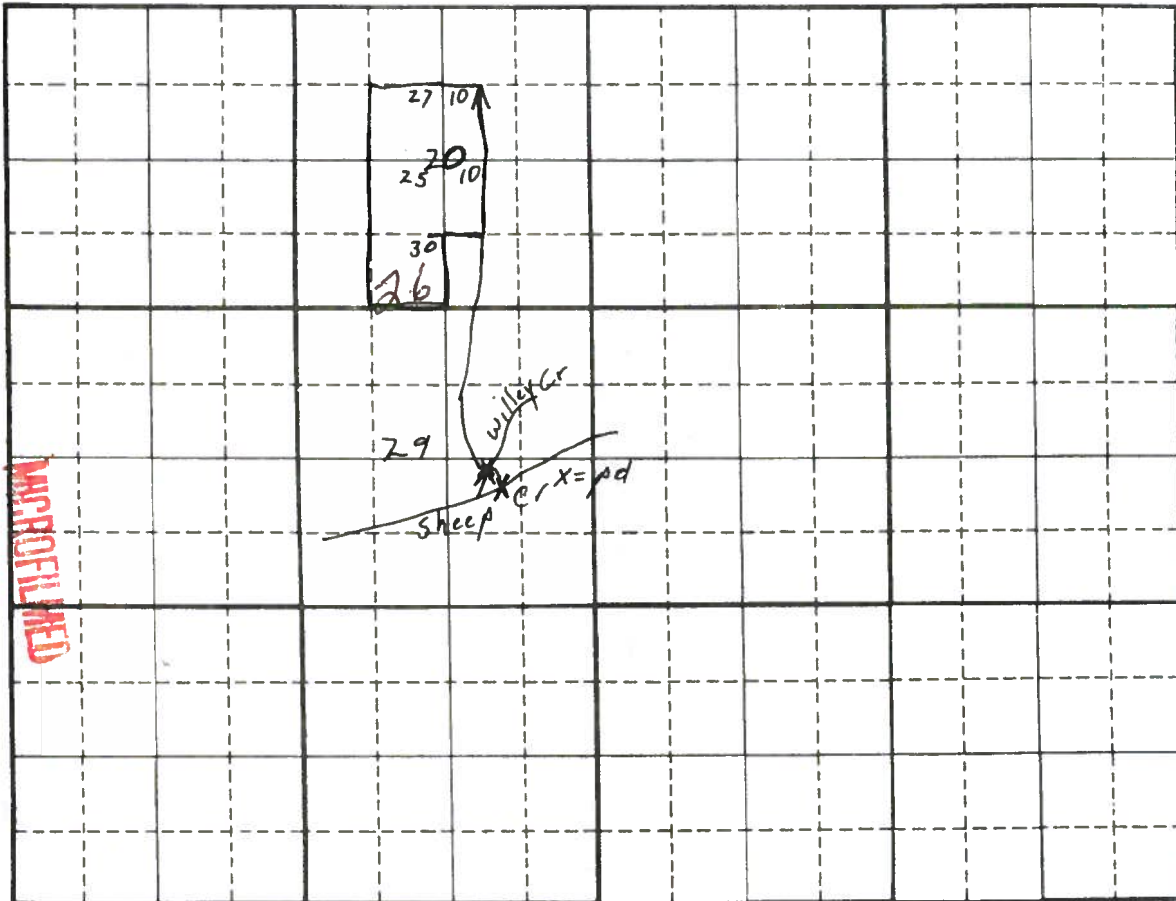

What type of irrigation system are you using for 102 acres and why is so much water needed?

What type of mining equipment do you have that uses almost 1800 gallons per minute?

Sincerely,

Kenneth Knoblock
Water Resources Agent

ENGINE - 4hp Honda w/H.P. 200 pump \$ T-80 Air \$1825.00

[View Cart](#)**Proline 3 inch Flair Dredge**

The 3" Proline flair dredge is a 3" version of the 4" flair dredge. This unit was developed for the person who wanted power enough to go deep and move a lot of material but still stay on his budget. Like the 4", this models frame is elevated, allowing each side to be grabbed like a handle or pass a rope through to anchor the dredge down. The frame is also collapsible to make transporting easier.

Powered by a 5.5hp Honda and Proline's H.P. 300 pump makes this one of the most powerful 3" dredges on the market. The jetting system is in a class by itself. Just like the larger Proline dredges, the 3" uses a one piece flair and jet design and are larger internally than a 3" hose. This is where Proline introduces there exclusive "Sure Flow Coupler" which holds the hose securely to the jet without distorting it, making it practically impossible to get a surface plug. The 3" also has a "Wave" classifier which causes a jiggling action in front of the sluice allowing the heavy values to concentrate under the classifier, while lighter material works it's way out of the box. Hungarian rifles are used for efficiency, and miner's moss is used throughout the sluice [\[1\]](#).

**Proline 5 inch Flair Dredge**

It has been proven time and time again that the more material you process, the better your chance of recovering a substantial amount of gold. This stands true for the 5" Proline flair dredge since it was designed for processing large amounts of material. The 5" Proline frame is elevated, allowing each side to be grabbed like a handle or pass a rope through to anchor the dredge down. The frame is also collapsible to make transporting easier. Powered with either twin 5.5hp Hondas and the Proline H.P. 350 pumps or a single 8hp or 9hp Honda with H.P. 500 makes this one of the most powerful 5" dredges on the market. The jetting system is in a class by itself. The flair and jet are a one piece design and are larger internally than a 5" hose. This is where Proline introduces there exclusive "Sure Flow Coupler" which holds the hose securely to the jet without distorting it, making it practically impossible to get a surface plug. The 5" also sports a "Wave" classifier which causes a jiggling action in front of the sluice allowing the heavy values to concentrate under the classifier, while lighter material works it's way out of the box. Hungarian rifles are used for efficiency, and miner's moss is used throughout the sluice [\[1\]](#).

**Proline 6 inch Flair Dredge**

The 6" Proline flair dredge has the power where you need it. This dredge is for the serious dredger. This dredges frame is elevated, allowing each side to be grabbed like a handle or pass a rope through to anchor it down. Powered with twin 9hp Hondas and Proline's H.P. 500 pump, makes this one of the most powerful 6" dredges on the market. The jet and flair are a one piece design and are larger internally than a 6" hose. This is where Proline introduces there exclusive "Sure Flow Coupler" which holds the hose securely to the jet without distorting it, making it practically impossible to get a surface plug. The 6" also sports a "Wave" classifier which causes a jiggling action in front of the sluice allowing the heavy values to concentrate under the classifier, while lighter material works it's way out of the box. Hungarian rifles are used for efficiency, and miner's moss is used throughout the sluice. The 6" also comes with 25' of suction hose for greater depth, and a 263 air compressor that is capable of supporting 2 persons with the ease of breathing at greater depths [\[1\]](#).
