Standard Form 5

**STIPULATED ELEMENTS
OF A WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine the facts, date, expert opinions and law supporting the issuance of a partial decree for the water right.

The parties agree that the Snake River Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that GERALD WILLIAMS

CLAIM TO A WATER RIGHT

Under the provisions of Section 4-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that GERALD WILLIAMS
c/o James C. Herndon (Name of Claimant)
P. O. Box 789, Salmon, Idaho 83467 Telephone No. 208-756-2412
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) April 1, 1919

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Spletts Creek tributary to Castle Creek

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Quantity		(cfs, gpd, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Mo., Day)	(Both dates inclusive)	(Mo., Day)
Quantity	1.00 cfs	Use	Irrigation	Period of Use From	4/1	To 6/1/1

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that GERALD WILLIAMS

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) April 1, 1919

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Spletts Creek

tributary to Castle Creek

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

				(Both dates inclusive)

Re: Application for Permit--
Gerald Williams

Dear Mr. Sisco:

The Idaho Code provides for an inch to the acre unless additional need can be established. If you will check the adjudicated rights in Lemhi County, you will find that due to the nature of the soil, more than an inch to the acre is necessary. For example, the Lemhi River adjudication all allowed an inch and a half to the acre. Some creek bottoms are rockier than others and allow more. The need on Castle Creek is two inches to the acre due to the gravels and soils.

Very truly yours,

JAMES C. HERNDON

Dear Jan:

I just received the notarized copies of the change of priority date on the water claims by Mr. McAfee. It took two States in order to catch up with him. If there is anything missing or you need to talk to me by telephone, I should be, for all practical purposes, here at Spring Valley Ranch until about April 15. (Telephone is: 520-826-3318) The area code will have changed (March 19) from 602 to 520. Phoenix area will still be 602, but all the rest of Arizona will have the 520 code.

Jan, I want to be certain that I am at Castle Creek when you or some one from your Department come to make the verification next year. I am trying to make everything as good and efficient as one can in rocky, sandy, mountain terrain as to the irrigation techniques. I plan on stopping by your office some time this year in order to discuss some minor problems which I am running into in making the system work properly. I will value your counsel.

I generally am at the Castle Creek Ranch at least from July 15 until September 1 of each year. I spend much more time there, but other business often calls me in and out. If you write to our address here in Arizona in plenty of advance I can schedule to be there. If I am at Castle Creek, you can call in Salmon (756-4713) and they will get in touch with us by radio.

The directions for getting to Castle Creek are: Challis north about 8-10 miles on US 93 and then left on Morgan Creek Road to Meyers Cove. The road goes up over the Pass and then down Panther Creek toward Cobalt, but takes a sharp turn left to Meyers Cove (18 miles). At Meyers Cove you are 5.6 miles from us. Go up Camas (four wheel drive road) fording the Creek two times (total of 2.8 miles) and after the last ford take left up Castle Creek (2.8 miles) and you are at our place. The road runs straight onto our airstrip and ours is the first place and McAfees live higher on up on the Old Homestead.

Gerald Williams

Dear Jan:

It was a privilege for me to talk to you by telephone today. As I had Dave Couch, a Civil Engineer, do up our Water Claims, I was not familiar with the organization of the Department of Water Resources. I had Ernie Carlson's name in my file from Salmon, but now I realize it was because he worked with the folk there in the Lemhi River Basin. It was only after I talked with him by telephone just before Christmas that I learned that our area in the mountains is covered by your Western Region Office. Anyway he outlined the things that I should do and gave to me your name and address. He was very nice and helpful and thought that the information which I am sending to you would suffice. I will send a couple of affidavits which he suggested that I do even though they do not constitute the kind of proof normally accepted. All of the documents which I will enclose do add up to a reasonable credence that 1919 should be the date of priority. There are no irrigators that would complain in any case about our water as all of the land between us and the western border of Idaho is strictly Forest Service land and I doubt there are hardly anyone using water in that 175 mile expanse. Castle Creek flows into Camas and Camas into the Middle Fork of the Salmon and then into the Salmon River to the west of Salmon, Idaho (out of the area) where people do irrigate in the Lemhi Valley. I, along with your Department want the record to be clear.

Our neighbor, Dick McAfee and us use the same irrigation ditch which diverts water from Castle Creek to what was the Ernest Spletstosser homestead. He filed for the land in 1914 and proved up on it during the next five years when he was granted the patent in 1919. It is common knowledge that the condition for receiving patents on those kinds of homesteads was to prepare the land for tilling and to irrigate, without which there could be no crop. The patent deed from Woodrow Wilson makes it fairly clear that irrigation ditches were a part of the patent and indeed the requirement in order to receive the deed.

The reason that this issue came up during this past year was that my neighbor and I were comparing our Water Rights in conjunction with obtaining our permanent easement for the irrigation ditch across Forest Service land. Mr. McAfee noticed the discrepancy in our dates of priority. Obviously if both of us are using the same

irrigation ditch from Castle Creek, then the priority date would naturally be one and the same. He was concerned, but as we have always been very good neighbors for twenty plus years, I told him not to worry about it for I would work with your Department and have it changed. As I told you by telephone, he had put down June 20, 1967 as the time that he and his partners took possession of the land and he did not understand the purpose of the "date of priority."

I am enclosing several documents.

Two of them are the signed (and notarized) Claims to Water by Richard McAfee changing the priority date from 1967 to 1919. The claim numbers are A77-04209 and A77-04222. Claim A77-04222 for Spletts Creek is probably really not a Creek, but rather a 6-8 week run off, but it was included in the original 1919 maps, etc. so we have always made a claim for it even though it is not much good. It is a "feast or famine" type of water source.

A copy of the original deed to Ernest Splettstosser by Woodrow Wilson.

Field notes which indicate the progress of preparing tillable land on the homestead from 1918-1919.

Copy of Claim To A Water Right prepared by Attorney James Herndon (now an Idaho District Judge) for us in the early eighties when we first needed to file claims. Herndon is the one who came up with the exact date of April 1, 1919. Even though all of the cumulative evidence points to that time being correct, I am not certain where he discovered the exact date of April 1. It was, however, accepted by the State Of Idaho Department Of Water Resources. Herndon's law practice has now been dissolved and I have no way of checking his records.

Copy of certification by me, Gerald Williams, as to conversations with a Mr. W. M. Wilson who was a contemporary rancher with Splettstosser. In the seventies I could have received a certification directly from him, but he is now deceased.

Copy of certification by a Mr. Frank Pfeiffer.

Once the priority date has been changed for Mr. McAfee, please return the documents to me so that I can give them to him. He is concerned about this issue (even though I have told him that we would get it changed) and I want to place his mind at ease.

The same documentation which I am enclosing will serve as proof of priority date for the claims of Gerald and Evelyn Williams. These claims are: A77-10126; A77-04178; and A77-10127.

If there is anything further that we need in order to effect this change, please let me know. We are looking forward to seeing you in Castle Creek. It is a beautiful area. You will be "hooked" so

you had better sell out before you go as you probably won't want to leave.

Sincerely,

Gerald Williams

TO WHOM IT MAY CONCERN:

I, Gerald Williams do make the following certification. My family has owned what is known as Castle Creek Ranch since 1971. The ranch is located in Lemhi County, Idaho and consists of the major portion of H.E.S. 325 which was the homestead of Ernest R. Splettstosser who filed claim for the land in 1914 and proved up on his claim during the following five years and was granted permanent title and patent to the land in 1919 by President Woodrow Wilson. Our ranch is more specifically identified on the present tax records as RP 17N17E110002 A.

During the late 1970s I had the opportunity to meet a Mr. W. M. Wilson (known as Bill Wilson) who was one of the early pioneers in the area and owned the ranch at Meyers Cove. His ranch was located about three miles from our present ranch (as the crow fly) and about 5.6 miles by the primitive road following Castle and Camas Creeks. Mr. Wilson was the only neighbor to Mr. Splettstosser and related a great deal of the early history of the area to me. He told me that Mr. Splettstosser had built by means of a team of horses, using primitive frontier equipment, the present irrigation ditch which transverses Forest Service property to join his homestead land in order to irrigate his crops which consisted of potatoes and wheat. According to Mr. Wilson the irrigation ditch was somewhat of an engineering marvel considering the primitive tools he had to work with as far as elevations and fall were concerned. It was my distinct impression that the irrigation ditch existed from the beginning time of Mr. Splettstosser's homestead and was a requirement by the U.S. Government for proving up on his land. Mr. Wilson is now deceased. I have met a daughter of his, but she does not remember anything that would pertain to Mr. Splettstosser as she was only a child. Several pieces of haying equipment are still laying around (rotting) on the ranch and I can recall their vintage of being at least in the early thirties.

I, Frank Pfeiffer, now being retired do certify that during the summers of 1937, 1938, and 1939 that I worked two of those summers for Ernest R. Splettstosser on his homestead on Castle Creek in Lemhi County, Idaho. I was a boy at the time and recall vividly some of the scenes on his farm in the mountains in those early days. Mr. Splettstosser raised goats and made cheese from the milk. He had an irrigation system whereby he raised hay and potatoes. The irrigation water came onto his property through some source from Castle Creek up high on his homestead. I recall his haying equipment which consisted of an old dump rake and a horse drawn mowing machine.

Dear Sirs:

As our Castle Creek Ranch (Lemhi County) is located so far back in the mountains, communication by mail is often very irregular. We can't always drive into our place and flying to our place is also not too definite because of snow and weather.

Therefore, I am asking Dave Couch to serve as our representative in working out the details our Water Rights. I will handle basically everything, but as Dave is an Idaho licensed surveyor and knows our ranch well, he can help resolve some details that might arise and be a little difficult for me to handle in a timely fashion. We will also use his address for Department correspondence.
