Enclosure No. 1

I did not file a Notice of claim to the use of the water in the SRBA because:

The Dworshak Dam and Reservoir Project ("Project") was authorized by the Flood Control Act of 1962 (Pub. L. No. 87-874, 76 Stat. 1193) pursuant to an assertion by Congress of the Commerce Clause power, Article 1, Section 8, Clause 3, of the U.S. Constitution. The United States has not asserted water rights in connection with the operation of the Project; nor is the use, storage, or control of water in this project for its authorized purposes, amenable to administration by the State of Idaho. Federal use and control of water utilized for the project involves the exercise of said Commerce Clause power.

This information is being sent to assist the State of Idaho in administering the water resources, but does not waive the assertion by Congress of the Commerce Clause power in providing for the operation of the Project. The State should acknowledge the quantities of water referenced in the notice and supporting documentation without purporting to alter, deny, or restrict such use and control of water, and should acknowledge that the information has been provided by the United States as a matter of comity for information use only.
