

09-19-10

To Whom it May Concern,

Peter Jenson, Ann Jenson Jonas
father, had livestock on his property
since the time he purchased the land
in 1966. Thompson, the previous owner,
also ran livestock.

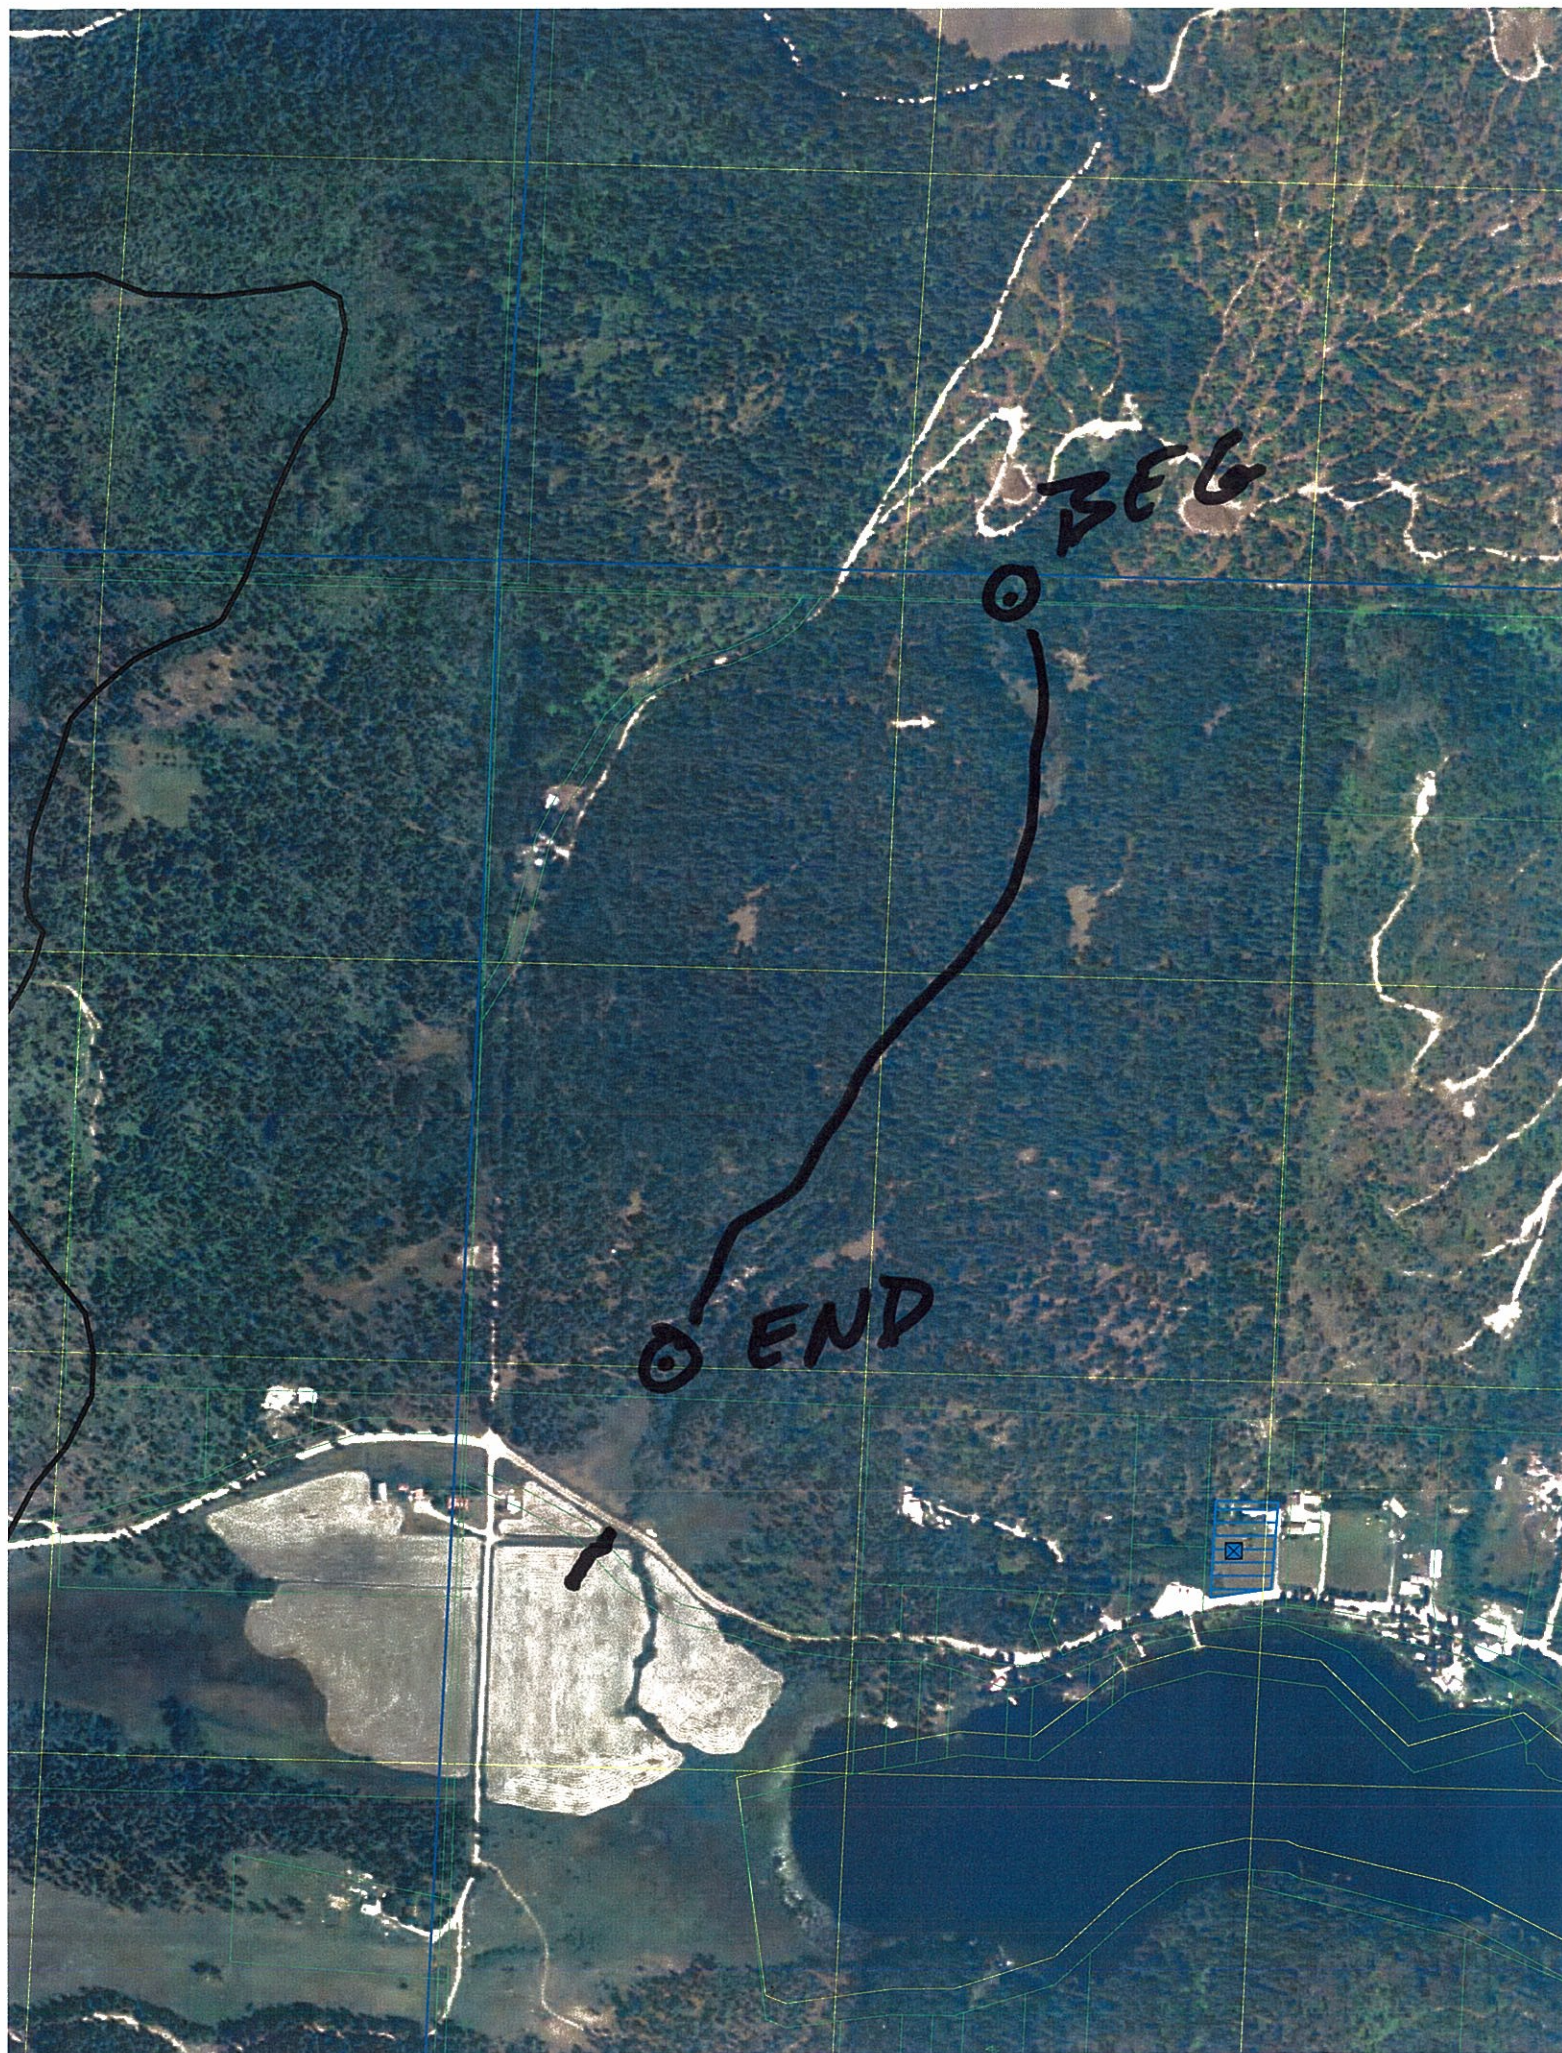

I was born and raised in
the Athol area and have personal
knowledge of these facts.

Att: Bonner Co.
Commissioners,

my grand father A. J. Clark homesteaded the property just South of the Jensen property in 1897. He ran beef cattle many years. and my grandfather Grant E. Bolkcom purchased the Cattle Ranch including Section 21 with Beaver Creek and Section 22^{1/2} with springs in 1927. It was a stock ranch at the time and he ran many beef cattle and it has been a stock ranch continually all through the years using the water from Beaver Creek and the Springs.

my husband's family ~~the~~ Elmer Smith and Sons Warren and Ben bought in 1946 and also ran beef cattle. (the Grant Bolkcom property) and this property Sections 21 with Beaver Creek and 22 with the Springs ^{currently} ~~has been~~ owned for many years by the Peter and Sig Jensen and Ann Jones family, ^{and} ~~also~~

~~at~~ Beaver Lake Stock Ranch ~~has~~ ^{also} ~~many~~ cattle
running beef cattle and using the water
from Beaver Creek and the Springs.
This creek and Springs have watered
all these Stock Ranches for over a
hundred years. The water from these
sources is vital to the whole valley.
There is not enough water for this
huge project proposed by the Stinson
Co. and Kelso Lake will turn into
a stinkhole.

We hope you Commissioners
will consider all the people in
the valley and their needs.

Thank you.

Shirley Bolckcom
Smith
