MEMORANDUM

TO: FILE NO. 63-02794

FROM: PAM SKAGGS/^{PS}STATE OFFICE

SUBJECT: TRANSFER NO. 4864

DATE: September 25, 1996

=====

Transfer No. 4864 was filed to add a second point of diversion under Right No. 63-02794. The original well has lost well production and the new owners of the property want to add a second well to the system.

Season of use and diversion volume were adjusted to current standards. Review of the records reflect development of this right as the sole source of the irrigated acres. Even though there is a general inclusion of the section under BOR surface Right No. 63-02388, this groundwater right does not appear to be for supplemental use.

Recommended conditions include drilling permit requirements, irrigation overlap, multiple points of diversion/measuring devices and standard transfer conditions.

Re: Original Notice of Claim to a Water Right No. 63-02794

Renumbered to Notice of Claim to a Water Right No. 63-31244

Dear Claimants:

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office. Also enclosed is a copy of the original claim for your reference.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Denise Buffington".
