To Whom It May Concern:,

The Fisher Family has been in ownership of property on Tamarack Ridge on Cataldo, Idaho since the early 1920's. Portions of the land have been sold, however, the original water source serving the original farm buildings and one domestic residence (PIN 49N01W256375) remain in the Fisher family and is currently owned by Marvin and Janel Fisher with a minor child Riley Fisher. In the 1930's the hand dug well was improved upon by the drilling of a 90 foot well.

A variety and number of livestock and farming endeavors including commercial vegetable and forage production, cattle, goats and chickens have been raised for profit requiring sufficient availability of fresh water. Charley Fisher beginning in the 1920's, Carl Fisher beginning in the 1950's and Marvin Fisher in 1982 have all farmed on the land. Our intention for the estate is that the land and its' historic water rights will be passed onto Riley Fisher.
