To Whom It May Concern:

In 1954, my husband Robert W. Fitzgerald and I, Donna G. Fitzgerald, together purchased 80 acres (parcel #-3600). At the time of purchase there was no water well, therefore, my husband dug a well by hand for the dual purpose of household water as well as watering livestock which included cattle, horses, swine and chickens. This well has been used continuously since November of 1954 and is currently the only source of residential water for my home at 10090 S. Fern Creek Road, Cataldo, Idaho.

A natural spring on the property located on the hill above the house is also used to water livestock. In the summer of 19~~6~~4, my husband Robert W. Fitzgerald dug three ponds, which are used for watering livestock. These ponds are located at various points on the above described 80 acre parcel.

A handwritten signature in cursive script that reads "Donna G. Fitzgerald". The signature is written in dark ink and is positioned below the paragraph describing the property and ponds.

Donna G. Fitzgerald
