Oct.1, 2010

To the recipients at the
Idaho Department of Water Resources;

I, Emil Ronald Nordstrom, testify to the fact of remains an early 1900s homestead being located on the property of parcel #49NO1W-23-5600 in 1955 when my wife and I bought the property. The existing road was constructed over the location of the homestead and its spring well that was used to supply water for the occupants of the homestead.
