RE: Installation of Ground Water
Well on Donald Hess Lakefront Lot
In 2005

Dear Sirs:

In 2004 The Hess Family secured
permits from the Bonanza-Kootenai District,
Kootenai County, and other state agencies
to drill and operate a well on their
lot. Their neighbors, the Thompson's
and Couchner's mutually agreed to share
the costs of the well installation and
the water for these residences. The
single ground water well has provided
domestic water to the three families
since 2005.
