Re: Notice of Claim To A Water Right

FROM: Bruce & Linda Thompson
Adjacent Lot Owner To
Ken & Connie Couchner

Our family purchased the shoreline lake front lot in 1954. The prior owners of the Couchner lake front lot which was also purchased in 1954 by Ken and Vay Kirkpatrick used lake water from a pump in Lake Coueur d'Alene for their domestic water supply. The lake water supply was used by the successor lot owners until 2005 when a ground well was installed which is shared by the Thompson's, Couchners, and Hess. The jointly shared ground water well is located on the Hess property. A pressure tank and distribution lines serve the three lake front lots and residences.
