Re: 94-9015

We are returning your Notice of Claim. You list groundwater use for domestic and stock with a date of priority of June 5, 2005. You state that there is one household on the well. This process records the water rights that were in place on November 12, 2008. When you start developing the other household, then you develop the water right at that time. You mention pumping from the stream for stock water. The date of priority is the date the water was first used by you or the former owners. When a new diversion of surface water (Dago Peak Gulch) is started after May 20, 1971, an appropriation permit was required. A separate claim can be filed for the stock water use or an application can be filed.

Sincerely,

A handwritten signature in black ink, appearing to read 'Knoblock', written over a horizontal line.

Kenneth Knoblock
