Affidavit for Proof of Use

Idaho Department of Lands

Affidavit for Proof of Use

I reviewed Department Lands Records to determine time of use of water sources for dust abatement, fire control, and grazing.

Dust abatement is commonly applied to provide for safe access and to reduce road damage during timber sale activities and wildfires. Past sales and wildfires are shown on the map included in the application.

I also found in speaking with Fire Wardens and found that that the pond locations are inspected and maintained every two to three years to ensure access by fire engines, helicopters, water trucks, and portable pumps. They are used for fire training during these inspections and at other planned times.

This information is intended as supplemental proof of use following the earliest date found in our research as to when the pond was constructed for these and other uses.

Pond number(s) 42-47, 42-48 and 42-51 were constructed no later than the date of the attached photograph showing the ponds location and was used as early as 9-8-1968, during the timber sales shown in the attached evidence.

The undersigned claimant further certifies that all information contained in the affidavit is true and correct, as of the date shown, and the signature below is his true and legal signature.
