

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576

Ident. Number 43-113
Date Received: 4/4/89
Receipt No:
Received By:

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name of Claimant(s)

Name: TODD CARPENTER Phone: (208) 645-2418
Address: HC 61 BOX 1210
MALTA ID USA 83342

Name: ROBIN K CARPENTER Phone: (208) 645-2418
Address: HC 61 BOX 1210
MALTA ID USA 83342

2. Date of Priority: 04/01/1882

3. Source: CASSIA CREEK Trib. to: Raft River

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4 Lot			County
13S	26E	21	NE	NE	SE	CASSIA
13S	26E	21	NE	SE	NE	CASSIA

5. Description of diverting works:

TWO HEADGATES TO EARTHEN DITCHES & BOOSTER PUMP TO SPRINKLERS.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or) A.F.A
IRRIGATION	3/15	11/15	0.3	

7. Total Quantity Appropriated is:
0.3 C.F.S.

8. Total consumptive use:

9. Non-irrigation uses:

10. Place of use:

Township	Range	Section	1/4 of 1/4 Lot		Use	Acres
13S	26E	22	SE	NW	IRRIGATION	39
			NE	NW	IRRIGATION	25
			NW	NW	IRRIGATION	28
			SW	NW	IRRIGATION	38
Section Acres						130
Total Acres						130

11. Place of use in counties: CASSIA

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

CASSIA CREEK SPLITS WITHIN THE NENWSE S.21 T.13S, R26E. THIS RIGHT IS DIVERTED OUT OF BOTH THE NORTHERN & MIDDLE STREAMS OF CASSIA CREEK

The ownership was changed based upon a change of ownership and warranty deed. For 43-00112, the warranty deed identified 11 acres remaining with Tracy and the balance going to Carpenter. The change of ownership specified that 11 miners inches remained with the Tracy property. kkc 8-11-2000

15. Basis of Claim: Decreed

RE: CHANGE OF OWNERSHIP FOR 43-00113, 43-00114, AND 43-00115 AND CHANGE OF OWNERSHIP AND SPLIT OF 43-00112 INTO 43-11239 AND 43-11240.

Dear Todd

Enclosed is your copy of 43-11240 and the change of ownership form. This right represents your portion of 43-00112 that was split according to the information supplied on the change of ownership form. Also enclosed are the remaining rights showing the change of ownership.

Please review the enclosed claims to ensure that they represent your intentions.

If you have any questions, please contact this office.

Sincerely

Kelly K Christensen

File: xTwP 13S Rng 26E Sec 21 NENESE p-d

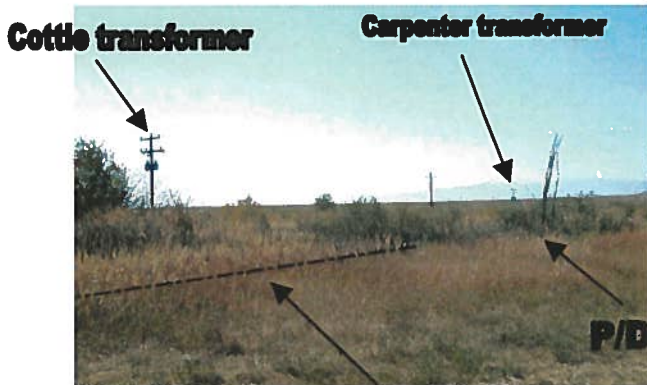

This photo is looking down into Cassia Creek at the remnants of the diverting works. I observed cement chunks, plastic, and boards in the channel.

The existing water level was approximately 2 to 3 ft below the ditch bottom. Old growth willows covered the far bank (the majority dead) which indicated to me that this diversion had not been used for a long period of time. You are looking south in this photo.

This photo is looking northeast and was taken from the same spot as the previous photo. The ditch channel is in the center of the photo and extends toward the power pole in the distance. The channel was completely overgrown with weeds, grass and some willows. I could not find a measurement device on the ditch. There was a large clump of overgrown willows further down the ditch that may have hidden the measurement device but I did not try to break into the clump to find out for sure.

This photo is looking south and captures the point of diversion and the power line in the background. For reference purposes the left power pole with attached transformers is for a pump used by Cottle. The third power pole also has transformers and is for Alvin Carpenter's well.

The Cassia Creek channel follows the dead willow trail right to left through the center of this photo.

Prepared by Kelly K Christensen

SYSTEM ANALYSIS FOR 43-113, 43-114, 43-115, AND 43-11240.

All four rights are from the same system from Cassia Creek and irrigate the same place of use of 106.4 acres. They vary on priority date and diversion rate. 43-11240 was originally part of 43-00112, which was split through a change of ownership. The other portion of 43-112 is being recommended as 43-11239 with Tracy as the current owner. 43-112 was decreed at 0.90 cfs. The change of ownership identified 0.22 cfs remaining with Tracy and the balance of 0.68 going to Todd.

The system and a portion of the P/U have been changed after 1987. A transfer is pending at this time. This recommendation reflects the system as it existed in 1987.

Cassia Creek splits into 3 separate channels in TWP 13S, RNG 26E, SEC 21 NWSE. The northern channel runs diagonally toward the southeast corner of Malta. The Middle fork runs easterly for approximately 2 miles and then turns northeasterly and crosses highway 81 at the Hudspeth Cutoff Historical marker which is located near the NW corner of the NENW of sec 24, TWP 13S, RNG 26E. The third channel identified as the South Fork of Cassia Creek also runs easterly for about 2½ miles to sec 24 where it eventually disappears.

There were 2 points of diversion from Cassia Creek, one from the northern most channel and the second from the middle channel. Both diverted into earth ditches and were delivered to the place of use for flood irrigation. The Middle channel diversion has not been used for a number of years based upon the condition and vegetation growth in and around the ditch and diverting works. I am, however recommending the point of diversion at this time.

Virtually all of the place of use from the northern ditch south to the southern border of the place of use appears to have always been irrigated and my recommendation reflects this. There may be or have been areas of riparian ground around either fork of Cassia Creek that was not directly irrigated, but I considered them to be insignificant and have ignored any of those areas. Currently there is a center pivot delivering water to a majority of the place of use. This pivot is tied into the irrigation system of Alvin Carpenter (his father) and utilizes points of diversion from Cassia Creek on Alvin's property as well as ground water from Alvin's groundwater rights. This use, again, occurred after 1987 and is being addressed by allocations.

I found 106.4 irrigated acres under Todd's ownership that I am recommending. At one inch per acre I am recommending a combined right limitation of 2.13 cfs (106.4 * 0.02). Each right individually does not exceed an inch to the acre for the found place of use. No other rights have been perfected for this property.

field notes are in file 43-140 for 7-12-00 exam

Photo set 1

This pan shot was taken from the northwest corner of the property and pans from the south on the right to east on the left. The field on the right is currently irrigated with a center pivot. The ditch from Cassia Creek runs on grade from the right to the left below the foreground but before the irrigated field shown.
