RE: Snake River Basin Adjudication
Claims #A43-04107, A43-00158, A43-00159, A43-00160 - Cassia

Dear Mr. Wight:

We are forwarding to you data entered copies of the claims you filed for your property in Cassia County. During review of the claims it was noted that item #8 was blank on all four claims. For your legal description the Department recommends 3 acre feet per annum. You are claiming 60 acres of irrigated land on each of your claims, therefore your consumptive use would be 180 acre feet per annum. If this agrees with your actual usage please keep these copies of your claims in your files. However if this does not agree with your actual usage, please correct the amount and explain at Item #14, "Remarks". Then sign each claim you change, have your signature notarized and return the claim(s) as "Amended" to this office.

Do not hesitate to contact this office if you have any questions or concerns.

Regards,

Anna Baumhoff
Agent, Adjudication Section

SYSTEM DESCRIPTION: DESCRIBED BELOW (), SEE LICENSE FILE (), OR SEE ATTACHMENT ()

The ditch carries both users water across Sec 12 and into the SW corner of the SW SE of Sec 1. As it enters the Wight property there is a cement dividing structure with each Right holder having his own parallel flume. The Wight property is flood irrigated through a series of contour ditches. The same P/D is irrigated from a ground water source (43-04107) but this system is not connected to the previous described system. 43-04107 uses hand lines for sprinkler irr.

NOTES:

Rectified & in Arc view

According to John Wight these rights are irrigated from a P/D in the SW corner of Sec 12 NW1E and that P/D is shared with Cedric Taylor (43-00285, 00284, 00283). John applies the water to the P/U thru flood irrigation. The same 60 acres are irrigated under a sprinkler handline system under 43-04107. There is a P/U overlap for those rights.

I called him to confirm the irrigation systems for the surface and groundwater rights. He indicated that the surface water rights were applied to the ground under a flood system and that the groundwater was applied through a sprinkler system.

He indicated that the well was approximately 200 yds west of the farmstead and against the road.

The Cassia creek diversion for this property is just east of Gene Ward's home. That same P/D is shared by Cedric Taylor for his rights (43-00285, 00284, & 00283.) John stated that Harry D Schaak is farming the Taylor property. (((In reviewing the Taylor claims I see that he claimed his P/D southwest of the location described by John.)))

John stated that there is another P/D about 100 yds east that delivers water to the 30 acres in the same qq. Sec 12, nwne.

Well location

This photo set was taken from the southwest corner of the place of use. You are looking north on the left to east on the right. The ditch on the left along with the headgate carries Taylor's water. The headgate on the right carries Wight's water. The place of use is irrigated via flood irrigation and contour ditches with the Cassia Creek water and sprinkler irrigation for the groundwater right.
