RE: 77-4089 & 77-4219

Dear Mr. Walters:

I have just received your amended claims for withdrawing water from West Fork Lake Creek and Shorts Creek drainages. Enclosed is a map of the area. Would you please outline the area where you were irrigating in 1987 and return it to our office?

The amount of water that you now claim is 2.62 cfs. An examination done by our field personnel on July 7, 2005, indicated that apply 1 cfs using a sprinkler system. Before I can make a recommendation, I need the number of sprinklers in the system, the size of each nozzle and the system operating pressure.

Sincerely.

Kenneth Knoblock
Water Resources Agent

RE: 77-4089 & 77-4219

Dear Mr. Knoblock:

This is how we came up with the amount of 2.60 cfs. for irrigation.

Water pressure range 45 – 100 psi. used 60 psi for average.

Use mostly 3/16" nozzle when water is available.

3/16 @ 60 psi = 7.75 gpm. Used 6.5 gpm. Average

120 total sprinklers x 6.5 = 780 gpm. x 50% conveyance loss = 390 gpm. = 1170 gpm.

1170 gpm. = 2.6 cfs.

Sincerely,

Kenneth Walters

Less Conveyance loss 780 gpm at Headgate = 1.73 cfs

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

77-4219

Field Exam Notes

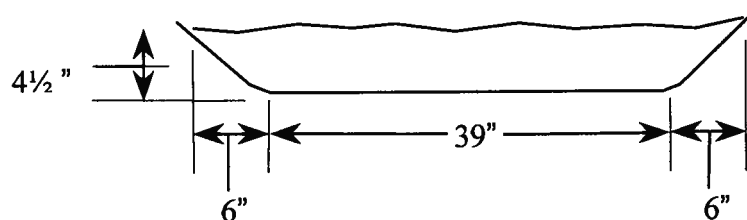

Date of Exam: July 7, 2005

This claim and the other claim I examined on this property, **77-4089**, are connected from the Point of Diversion (POD) of that claim (located on Shorts Creek, GPS location **N45° 23' 47.4"** by **W116° 05' 41.9"**) to their common Place of Use (POU).

The GPS location that was taken for the POD of this claim was **N45° 22' 53.7"** by **W116° 15' 35.5"**. This location is incorrect as it is located over 1½ miles north northeast of the actual POD (see topo map). I believe this error is due to poor satellite coverage and low batteries in the GPS unit. Mr. Walters, co-claimant, indicated on the map the actual POD. He also stated that the reservoir, as seen in the neighboring Sec. 12 on the USGS 7½ minute topo map, was above the POD but had washed out in a recent spring thaw and no longer exists. From being on site and comparing the information I had to the map, I have no reason to believe that the indicated POD is not accurate. There are no other known rights using this POD.

The POD (*Photo 1*) is on an unnamed stream that is tributary to the West Fork of Lake Creek. The diversion consists of a rock dam and a screened eight inch (8") PVC pipe (*Photo 2*) in the creek that empties into a ditch about 200 feet from the POD. On the date of the exam, the total flow of the creek was being diverted into the pipe. Mr. Walters stated that during high water, excess water flows over the dam and down the creek. The ditch appears to run level until it goes into a short culvert that crosses a saddle and empties into a draw at GPS location **N45° 22' 32.3"** by **W116° 15' 45.5"** (*Photo 3*). From there, it flows into Shorts Creek.

Flow measurements were taken about 200 yards below the beginning of the ditch using the "Orange Peel Method". The ditch at this location had a basic profile as illustrated below (sketch not to scale).

Three (3) timed measurements were taken over a length of twenty feet (20') averaging 16 seconds each. The calculated flow is below.

Ditch Profile:

$$(4\frac{1}{2} \times 39) + (4\frac{1}{2} \times 6) \approx 202.5 \text{ in}^2$$

Flow:

$$(202.5 \cancel{\text{in}^2}) \left(\frac{\cancel{\text{ft}^2}}{144 \cancel{\text{in}^2}} \right) \left(\frac{20 \text{ ft}}{16 \text{ sec.}} \right) \approx 1.788 \text{ cfs}$$

Water is rediverted out of Shorts Creek at GPS location N45° 24' 41.4" by W116° 17' 31.3". This rediversion point and diversion system is in common with the POD and diversion system for claim 77-4089. Therefore, the details of that diversion and the POU including the measurements that were taken at the sprinklers are given in the write-up found in file 77-4089.

T24N R01E S14	SWSE	3.00	T24N R01E S14	SESE	0.50

51 ACRES TOTAL

Right Numbers 77-4089 and 77-4219 are limited to the irrigation of a combined total of 51 acres in a single irrigation season.

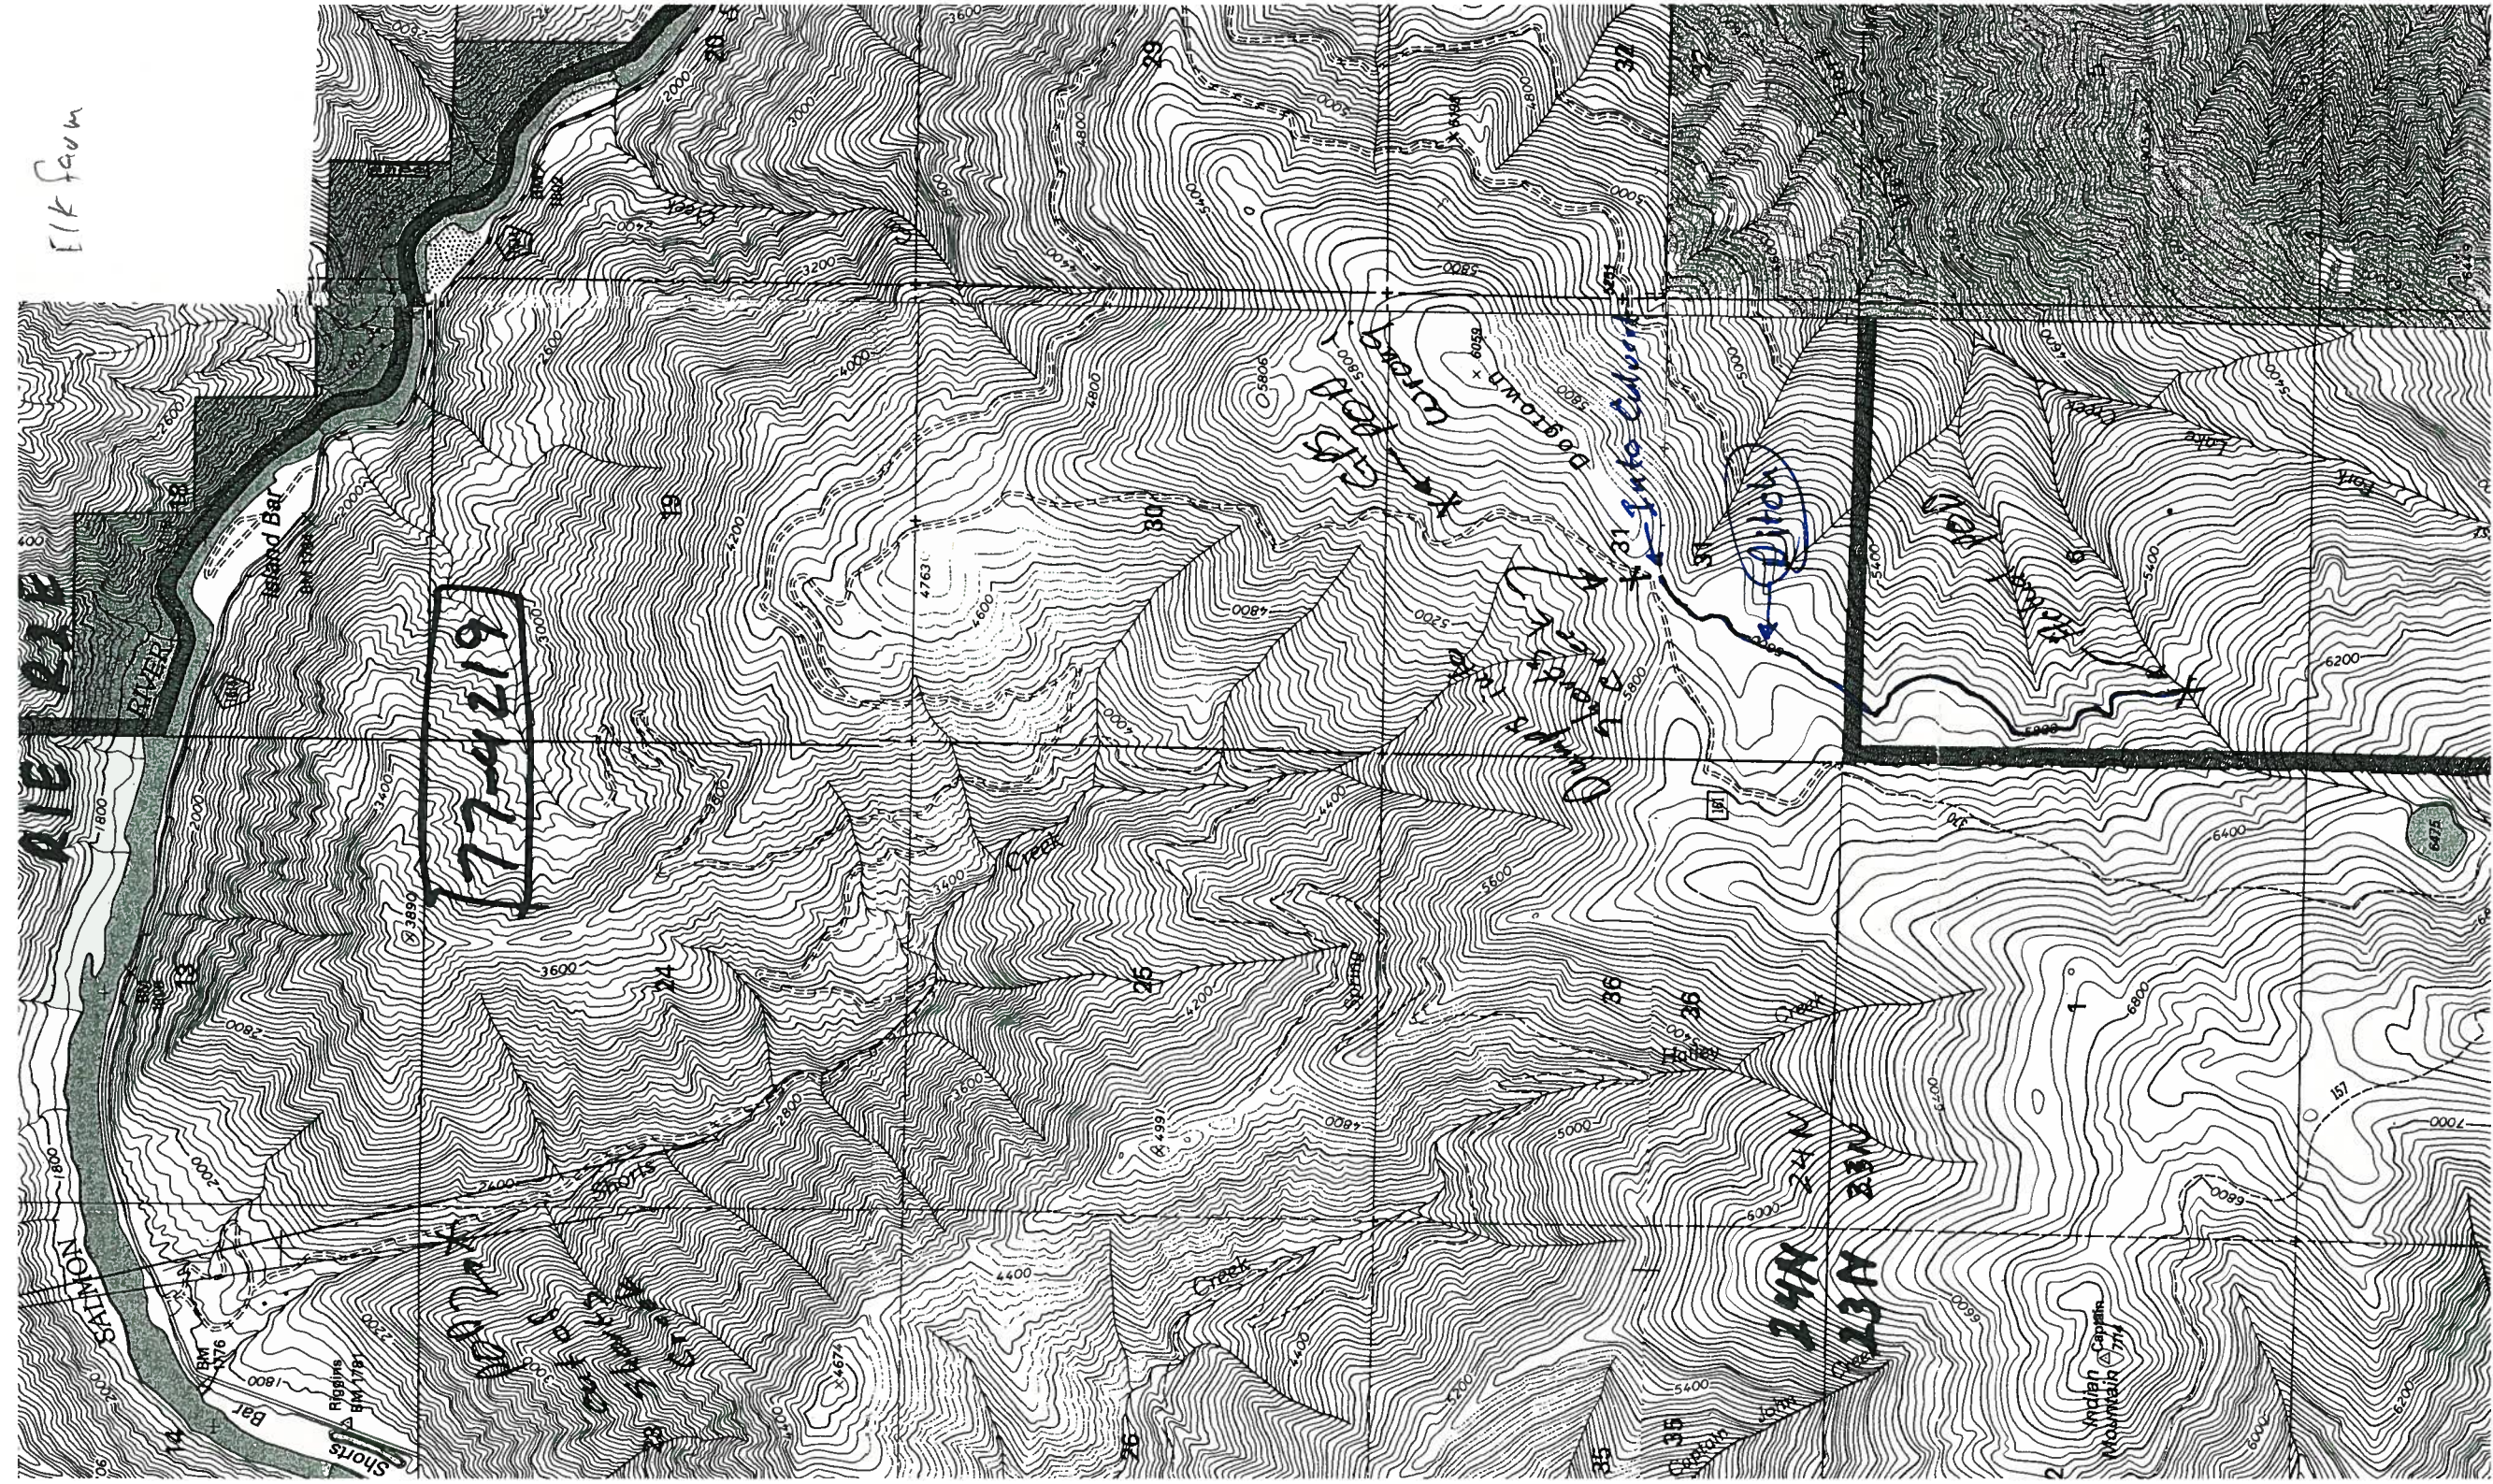

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

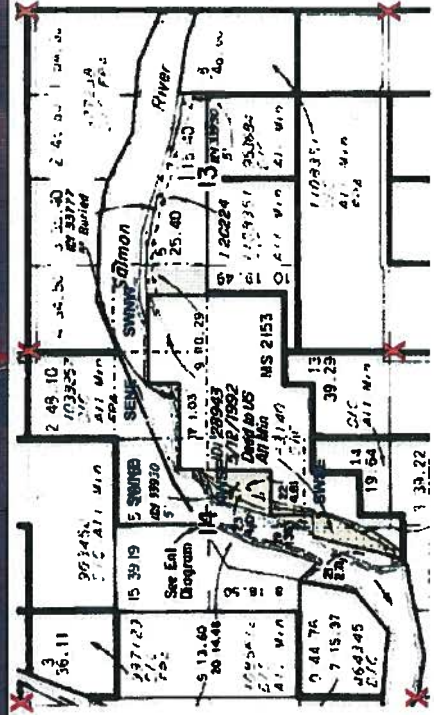

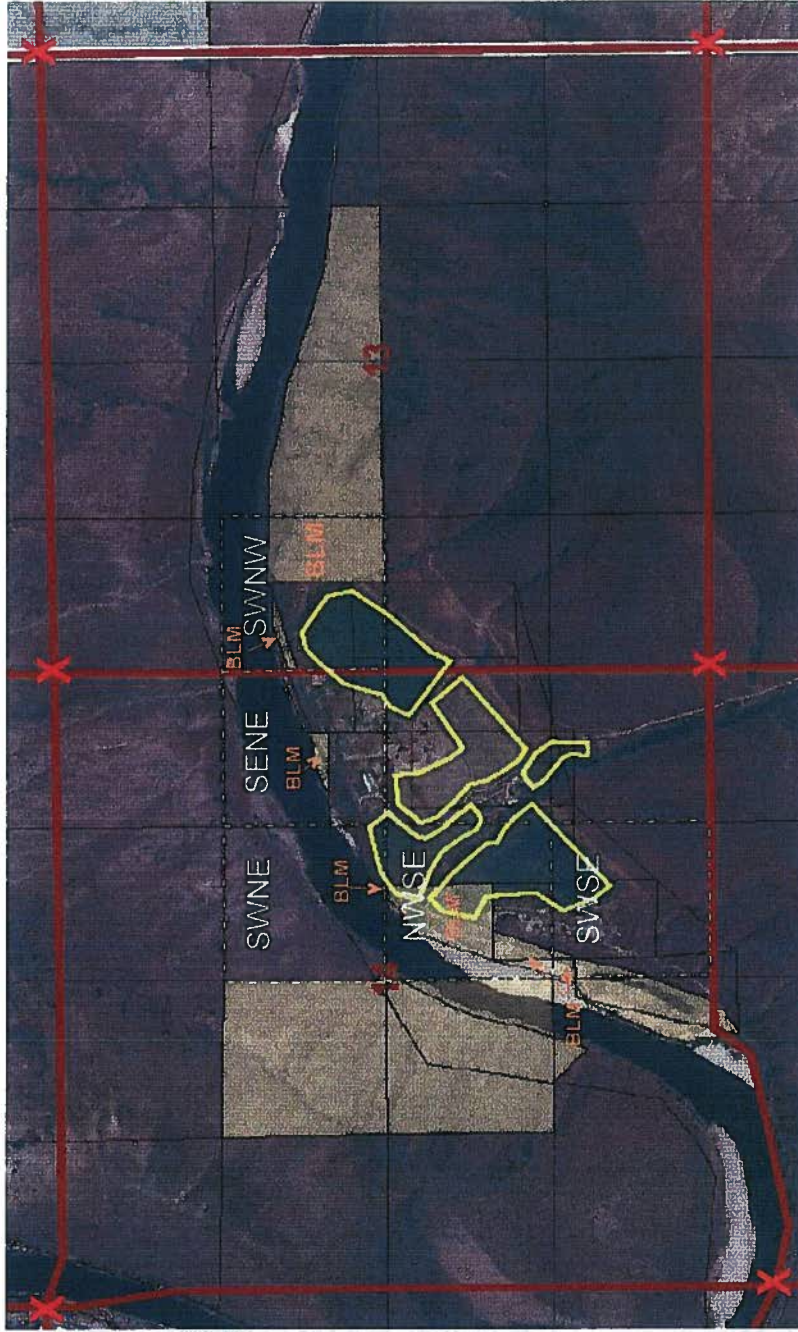

WATER FROM UNNAMED STREAM INJECTED INTO SHORTS CK. IN SEC.
31, 24N., 2 E. & REDIVERTED IN SEC. 23, 24N., 1 E., SEE MAP.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

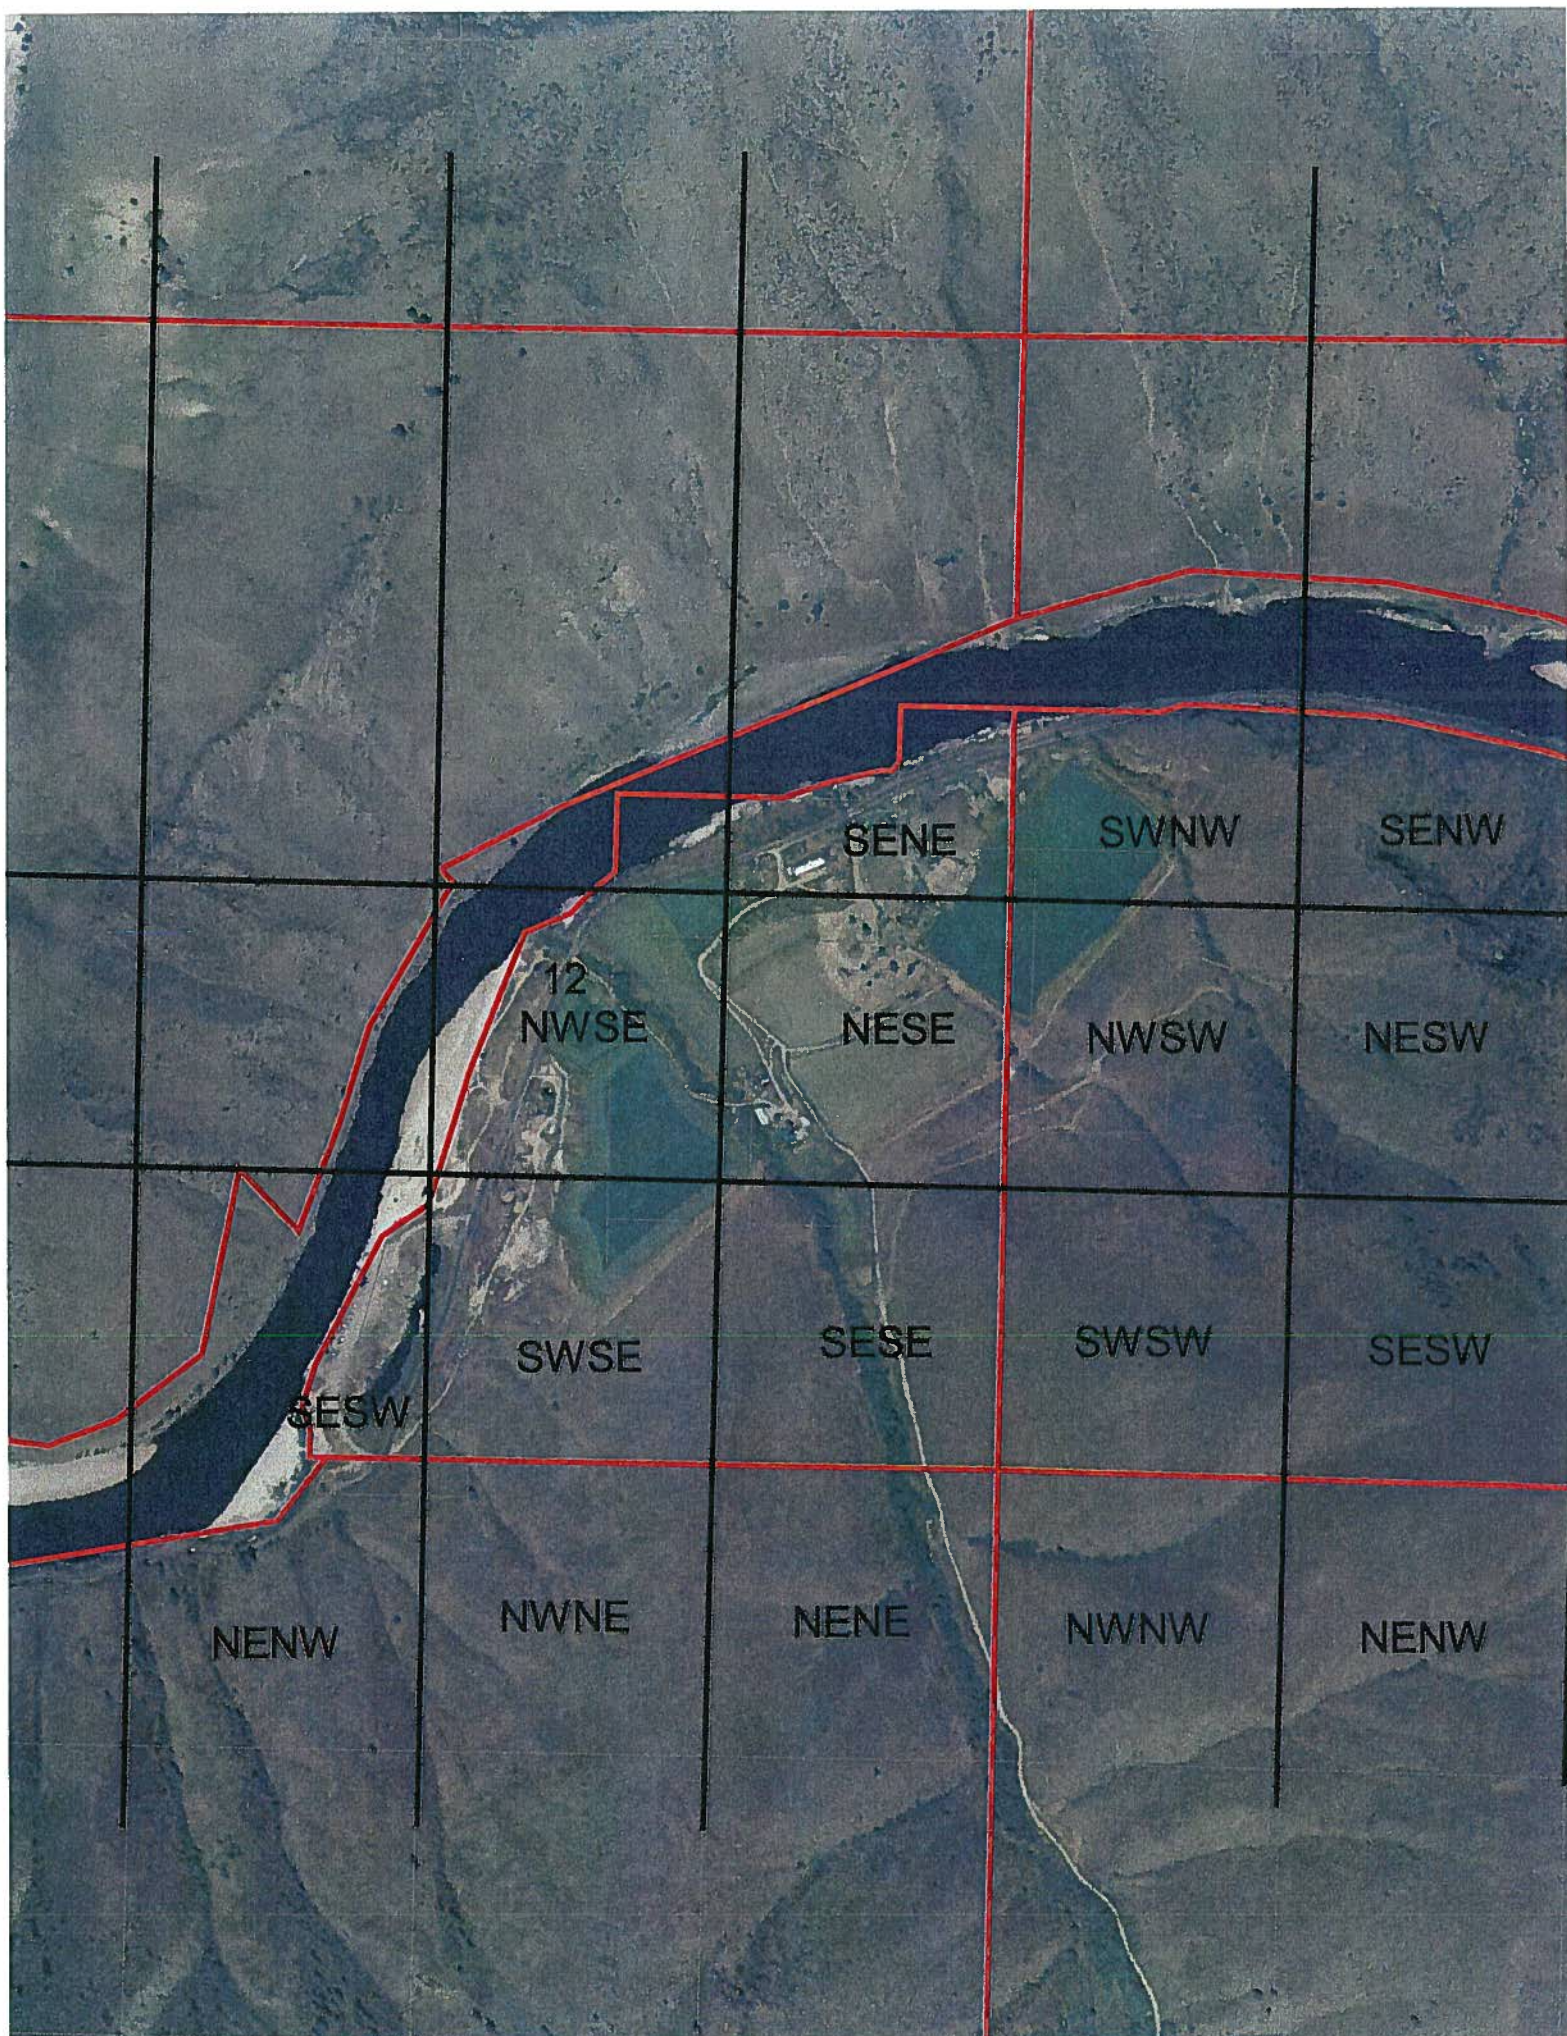

Elk farm

**77-04219
T24N R01E**

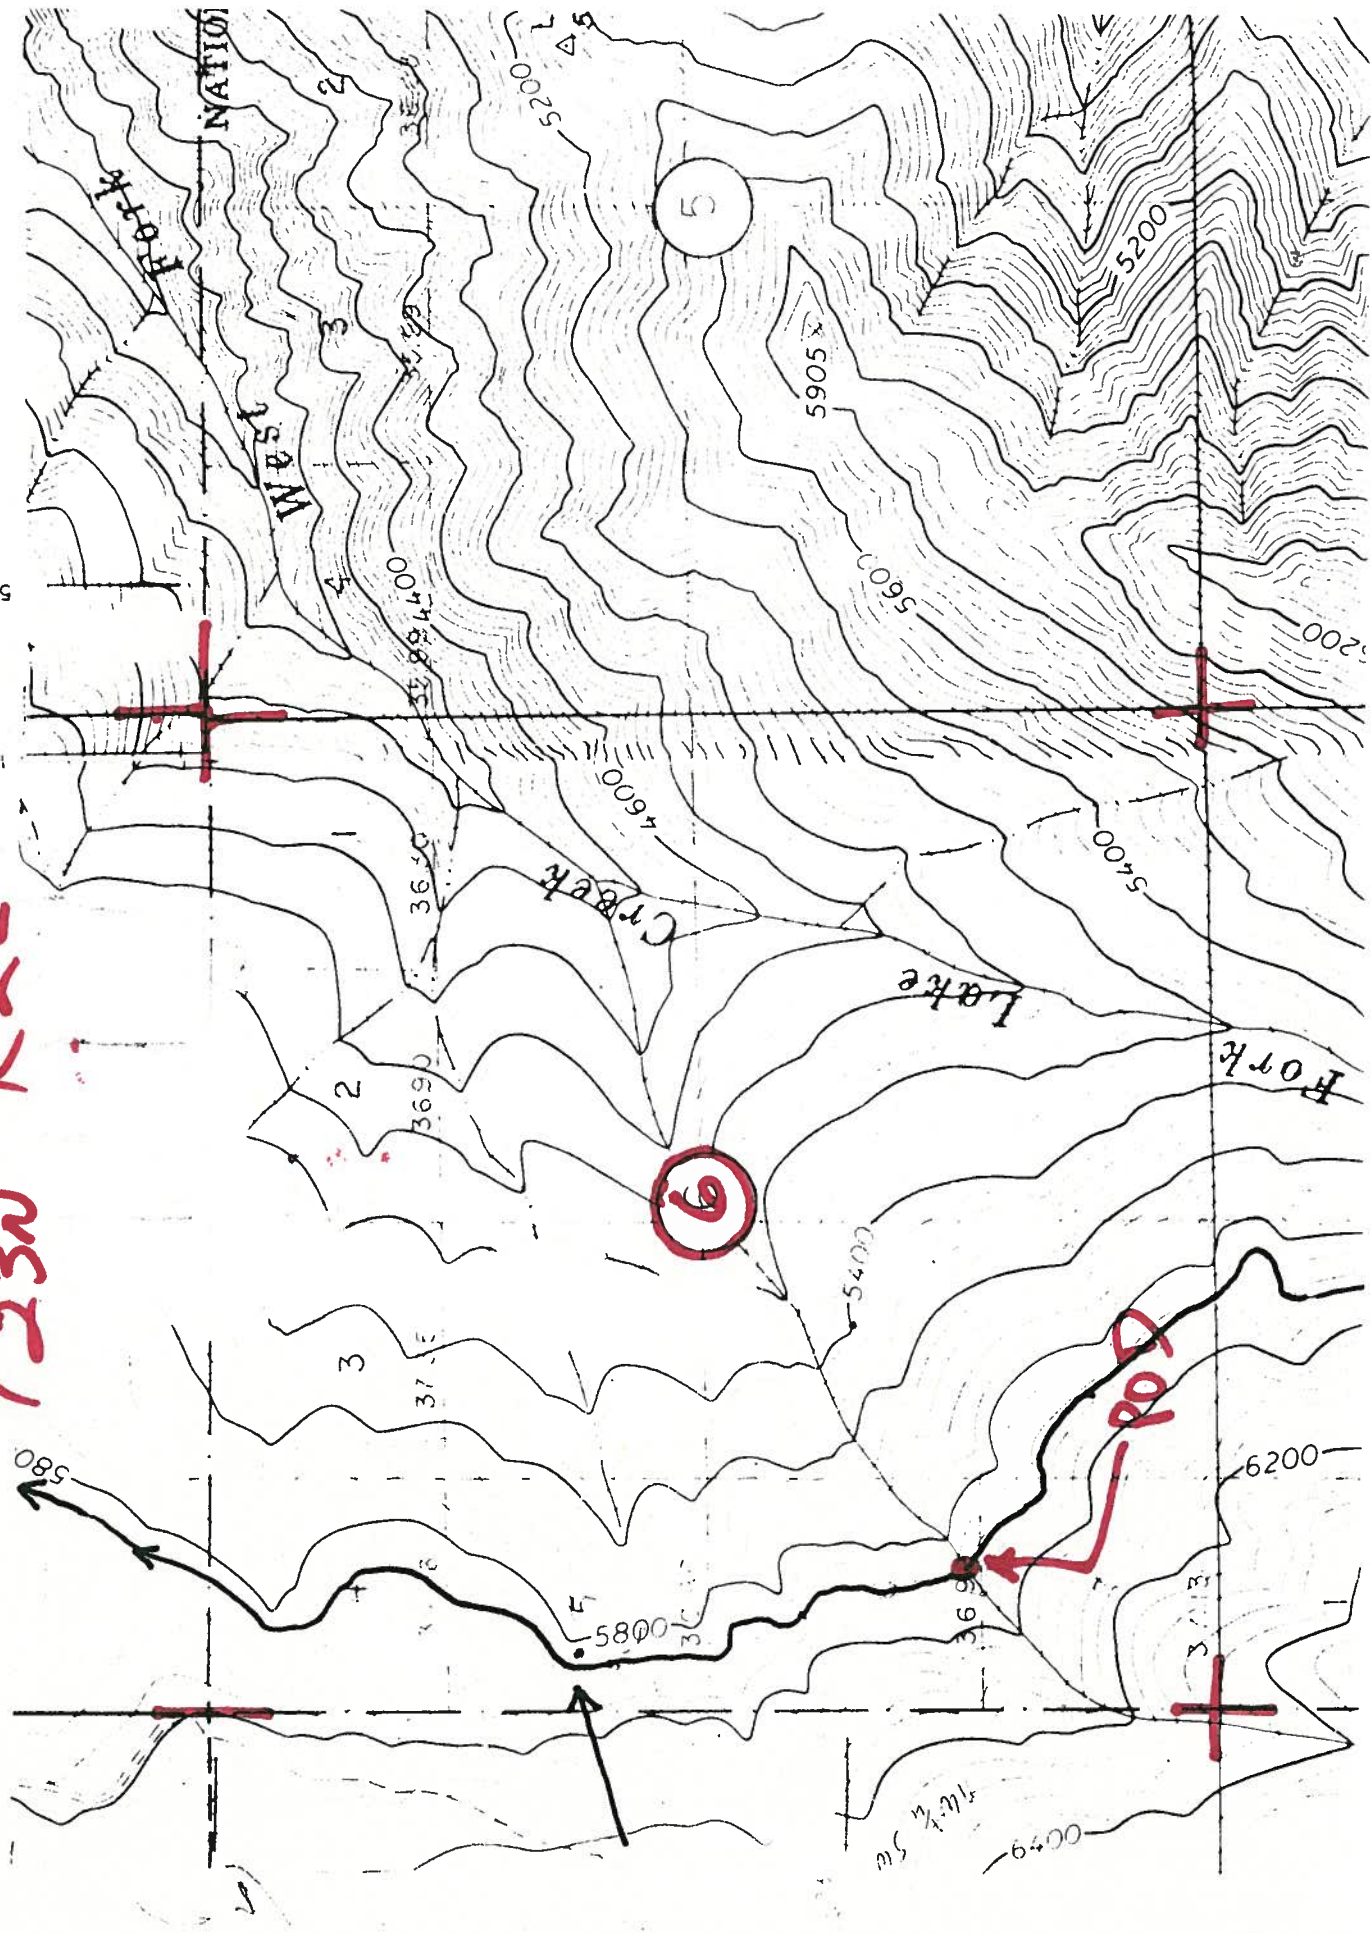

- Places of use describe both Private and Public land.
- Place of use T24N R01E S14 Lot 12 (NWSE) has been resurveyed to Lots 22 and 23.
- Side note: It look like T24N R01E S14 Lot 14 (NWSE) should actually be Lot 14 (SWSE) as Lot 14 does not extend into the NWSE.
