14. Remarks:

As is authorized under SB 1065, and after conversations with the Director of IDWR, this claim is filed to represent the current water usage authorized by this decreed water right wherein waters are diverted from both surface and groundwater at

any of all of the points of diversion as described above. This claim does not change the irrigated acres as is outlined in the decree, but does include an additional point of diversion. This change to an additional point of diversion has been gradual, though sometimes erratic, over the years due to the increasing withdrawal of the supporting groundwaters to the Raft River in the area. This has led to the decline in the historic flow of the Raft River which has necessitated this change. The addition of a point of diversion does not enlarge or expand the irrigated acres as is authorized by the decree

This claim represents a portion of W.R. 43-0178B which will need to be segregated from the rest of the right. This need for segregation is due to the change in ownership of the original lands into parcels held by different owners

15. Basis of Claim: Decreed

RE: Snake River Basin Adjudication (SRBA) Claim Nos. 43-00171B, 43-00173D, 43-00177F and 43-00178F

Dear Mr. Harper:

I have enclosed Amended Notices of Claim to a Water Right for the claims referenced above as we discussed at the meeting in Malta on May 30, 2001. The amended claims will allow me to recommend your water rights from the Raft River with a permissible place of use within the 362 acres I found irrigated. Please review the amended claims, and if they are satisfactory, sign the claims, have your signature notarized, and return them to my attention at Idaho Department of Water Resources' state office in Boise.

You also had a question as to why the stockwater claimed on 43-00171B did not include "wintertime" use. This is because water right 43-00171 was decreed for irrigation with a season of April 1 to October 1. Extending the season for winter time stockwater would be an enlargement of the water right. If you wish to file a separate claim for instream stockwater you may. I have enclosed a blank claim form you can use to claim an instream stockwater right.

I have also enclosed a copy of Transfer No. 665 for the Malta Land and Irrigation Company water rights that was approved in 1944 and amended in 1945. This transfer was superseded by the transfer filed in 1974, which was finalized with the Memorandum Decision and Order dated March 31, 1975. Alan already has a copy of this decision and order, so I did not include another copy.

Please contact me at (208) 327-7939 if you have questions.

Sincerely,

Carter Fritschle
