I am a longtime resident, born and raised in the Coeur d'Alene and Harrison area, and have lived in the area of Driftwood Heights Drive for many years.

Since January of 1970, I have routinely walked my dogs and hiked from Highway 97 up Driftwood Heights Drive to the top of the hill about a mile to the east, and have observed the subject pond.

Since at least that time (January 1970) and earlier, the pond located at the immediate southeast corner of Driftwood Heights Drive and today's Dorsey Drive had already been in existence. Dorsey Drive was not yet in place, but was built later. The pond is located on today's Kootenai County Parcel with AIN=105701, PIN=49N03W193350 and street address, 9811 South Dorsey Drive, Harrison, ID 83833. The lot and pond are currently owned by Loren D. and Victoria I. Nelson.

The pond was used for livestock watering, wildlife conservation, and as an available emergency source of water for possible firefighting. It filled both from ground water runoff down the hillside, and from a natural spring at its base.
