RE: Partial Decree for water right 36-29B

Dear Special Master Dolan:

Attached is a Corrected Director's Report for water right 36-29B. An Amended Partial Decree was issued on this right in June of 2002. As you recall, the Court recently received correspondence from Danny Peterson, one of the claimants of the right, pointing out an error in the point of diversion of the right. The error, which tracked with the right from the original claim to the Amended Partial Decree, had been discovered by department staff, who alerted Mr. Peterson.

The Court treated the Peterson correspondence as a Motion to Set Aside Partial Decree, and a hearing on the matter was held on January 26, 2012. Technical Engineer Doug Jones offered to update the recommendation of right 36-29B and provide copies of the corrected recommendation to the Court and the claimants. While making that update, Mr. Jones also discovered the error involved not only the section but also the range of the POD description. Attached is a Corrected Director's Report in underscore / overstrike, correcting the error and also updating the address information to what the department currently has on file for claimants. Mr. Jones also prepared a map detailing the error, which is also enclosed.

Should you require further assistance in this matter, please don't hesitate to call me at 208-287-4816.

Sincerely,

Vicki Kelly - Paralegal
