Duration: 0 hours

He brought in 2 change of ownership forms, one from himself and one from his sister Verda Vee Villarma along with the "First and Final Accounting" of the estate of the former owner along with the "Petition for Determination of Testacy and Settlement and Distribution". The documents identified the property and that they had joint ownership. Based upon the information provided I placed both names on each claim.

I reviewed the claims with Melvin and after discussing them, he elected to amend the place of use for the Cassia Creek rights and to change the basis, the reference to 43-04142 as the springs identified in the claim weren't actually being diverted. 43-00416 was not claimed during the first claims taking period. This right has the same priority date as 43-00270 and has historically been used within the PPU with 43-00270 and the other Cassia Creek rights. As a part of the amendment process he elected to combine 43-00270 and 43-00416 under the claim number 43-00270. The place of use was modified to change the acres by quarter-quarter but the overall place of use acreage did not increase. It is all within the decreed place of use covered by the rights listed above. Both Cassia Creek diversions were found and have historically been used with all rights, therefore, both P/Ds were added to all Cassia Creek claims. I then renumbered A43-00240 to A43-11223 to better identify that the claim represents a combination of the two rights.

SUBJECT: DWAYNE ANDERSON CLAIMS	

I discussed pending field exam for claims with Wickel concerning the Anderson property. I also pointed out the necessity for ownership change on the claims. Roger indicated that the estate is still somewhat in limbo but that he would check with Dan Adams to see just where things were currently. I also mentioned that the ground identified in 43-00416 was not within the combined system claims. He asked for me to check with him when the field exam has been conducted.

RE: SNAKE RIVER BASIN ADJUDICATION CLAIMS:
A43-00267 THROUGH A43-00171

Dear Melvin

I called the Cassia county assessor's office today and found that you are purchasing the property covered by the above adjudication claims. This is for the Dewayne Anderson property just east of the Art Ward property.

I am conducting field examinations in this area and in reviewing the claims associated with this property I have several questions that I cannot answer with the currently available information. Also I found one decreed right 43-00416 that is decreed to approximately 5 acres around the home. I have attached a copy of the right as recorded by the department.

Please contact me so that we can discuss the claims and so that I can make an accurate recommendation of the rights to the Snake River Basin Adjudication court.

I have also enclosed a change of ownership form for your use.

Sincerely

Kelly K Christensen

An additional decreed right appears to be appurtenant to this property. It is right 43-00416.

priority date = 06-01-1873

diversion rate = 0.10 cfs

place of use = 5 acres within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of sec 29.

CLAIMS A43-00268 AND A43-00269

Virtually no ground within the decreed place of use is irrigated from Cassia Creek. The claims describe the irrigated ground north of Cassia Creek that is a portion of the ground decreed under 43-00270, but states that the P/D is from the Rice-Lessey ditch. Claimed rate matches decreed rate.

CLAIM A43-00270

It appears that the intent for this right was to identify all of the ground that is irrigated from Cassia Creek. The claimed place of use roughly agrees with the irrigated ground that I found. The claim indicates that it is a combination of 43-00270 and 43-04142. The domestic use could be the lawn irrigation from the Rice-Lessey ditch. Stockwater is not part of 43-00270. No evidence of priority for the statutory claim has been submitted as of April 25, 1995.

File = working: Anderson

CLAIM A43-00271

This claim matches the decree as having Quaking Asp Spring as the source (USGS quad map reads Quaking Asp Creek). No diversion rate was decreed (decree reads all of Quaking Asp Spring). Quaking Asp Creek runs into the Rice-Lessey ditch just south of the farmstead and is thus diverted whenever water is available. Using the same delivery system as A43-00270 this water can reach all irrigated ground south of Cassia Creek. It cannot reach the ground north of Cassia Creek unless it were to be delivered into Cassia Creek and then re-diverted. This was not claimed.

CLAIM A43-00267

This claim represents a drainage north of Cassia Creek that is diverted and irrigates ground northwest of the ground covered by the northern Cassia Creek system. The ground irrigated is a hillside and there are numerous small areas that the water splits around. The ground is also covered with sage brush and other woody growth. It has been strictly a pasture operation for some time.

UNCLAIMED RIGHT 43-00416

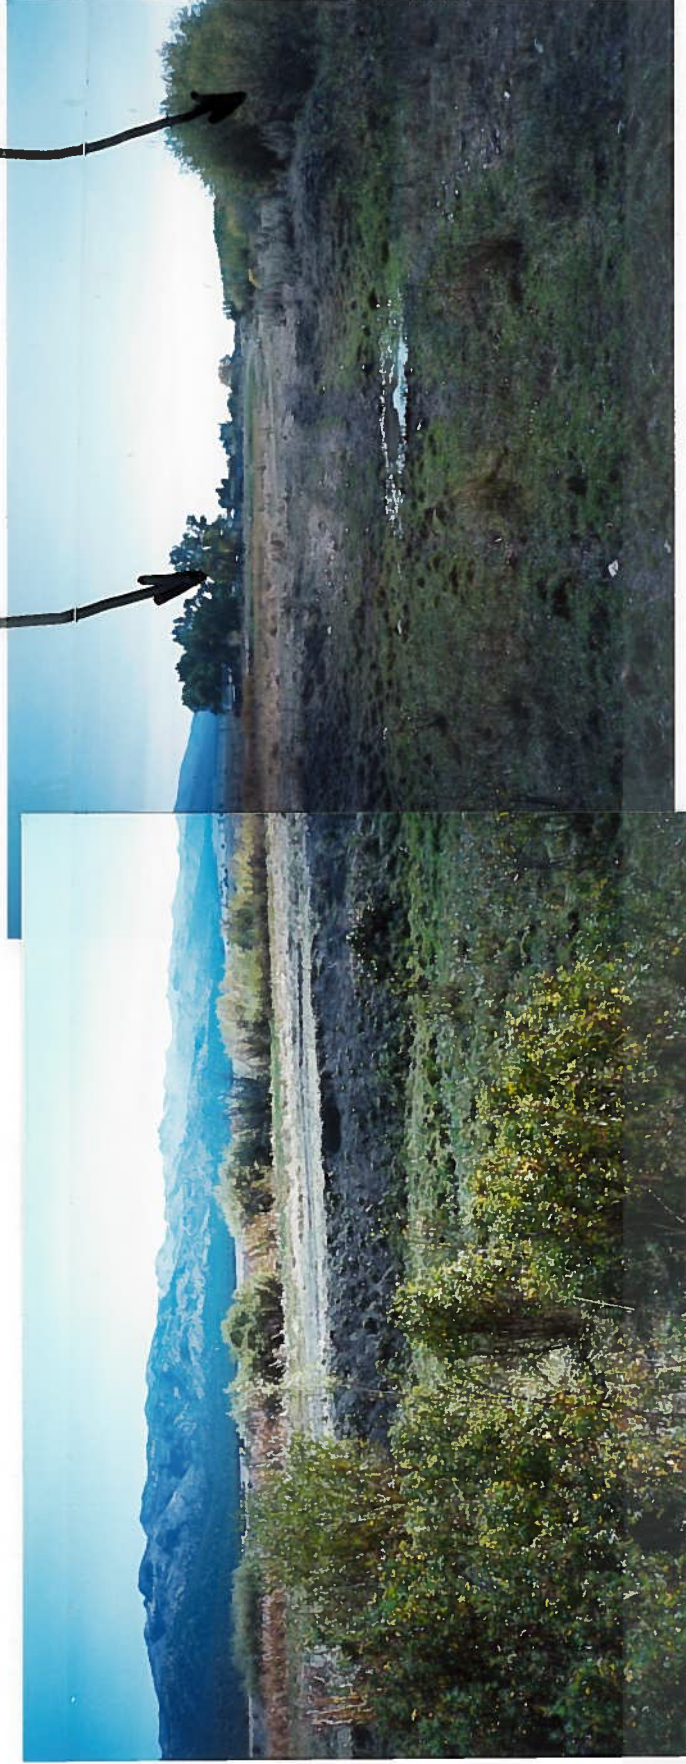

This right was decreed to 5 acres around the farmstead which is located within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of sec 29. This right has the same priority date as 43-00270. The acres within this forty has not been claimed.

RE: CHANGE OF OWNERSHIP FOR DEWAYNE R ANDERSON CLAIMS

Dear Melvin

As I started data entry for the change of ownership claims I realized that I Verda Anderson was not listed as an owner on the adjudication claims. Unfortunately, this will require you to obtain one or more documents before I can complete the ownership change process.

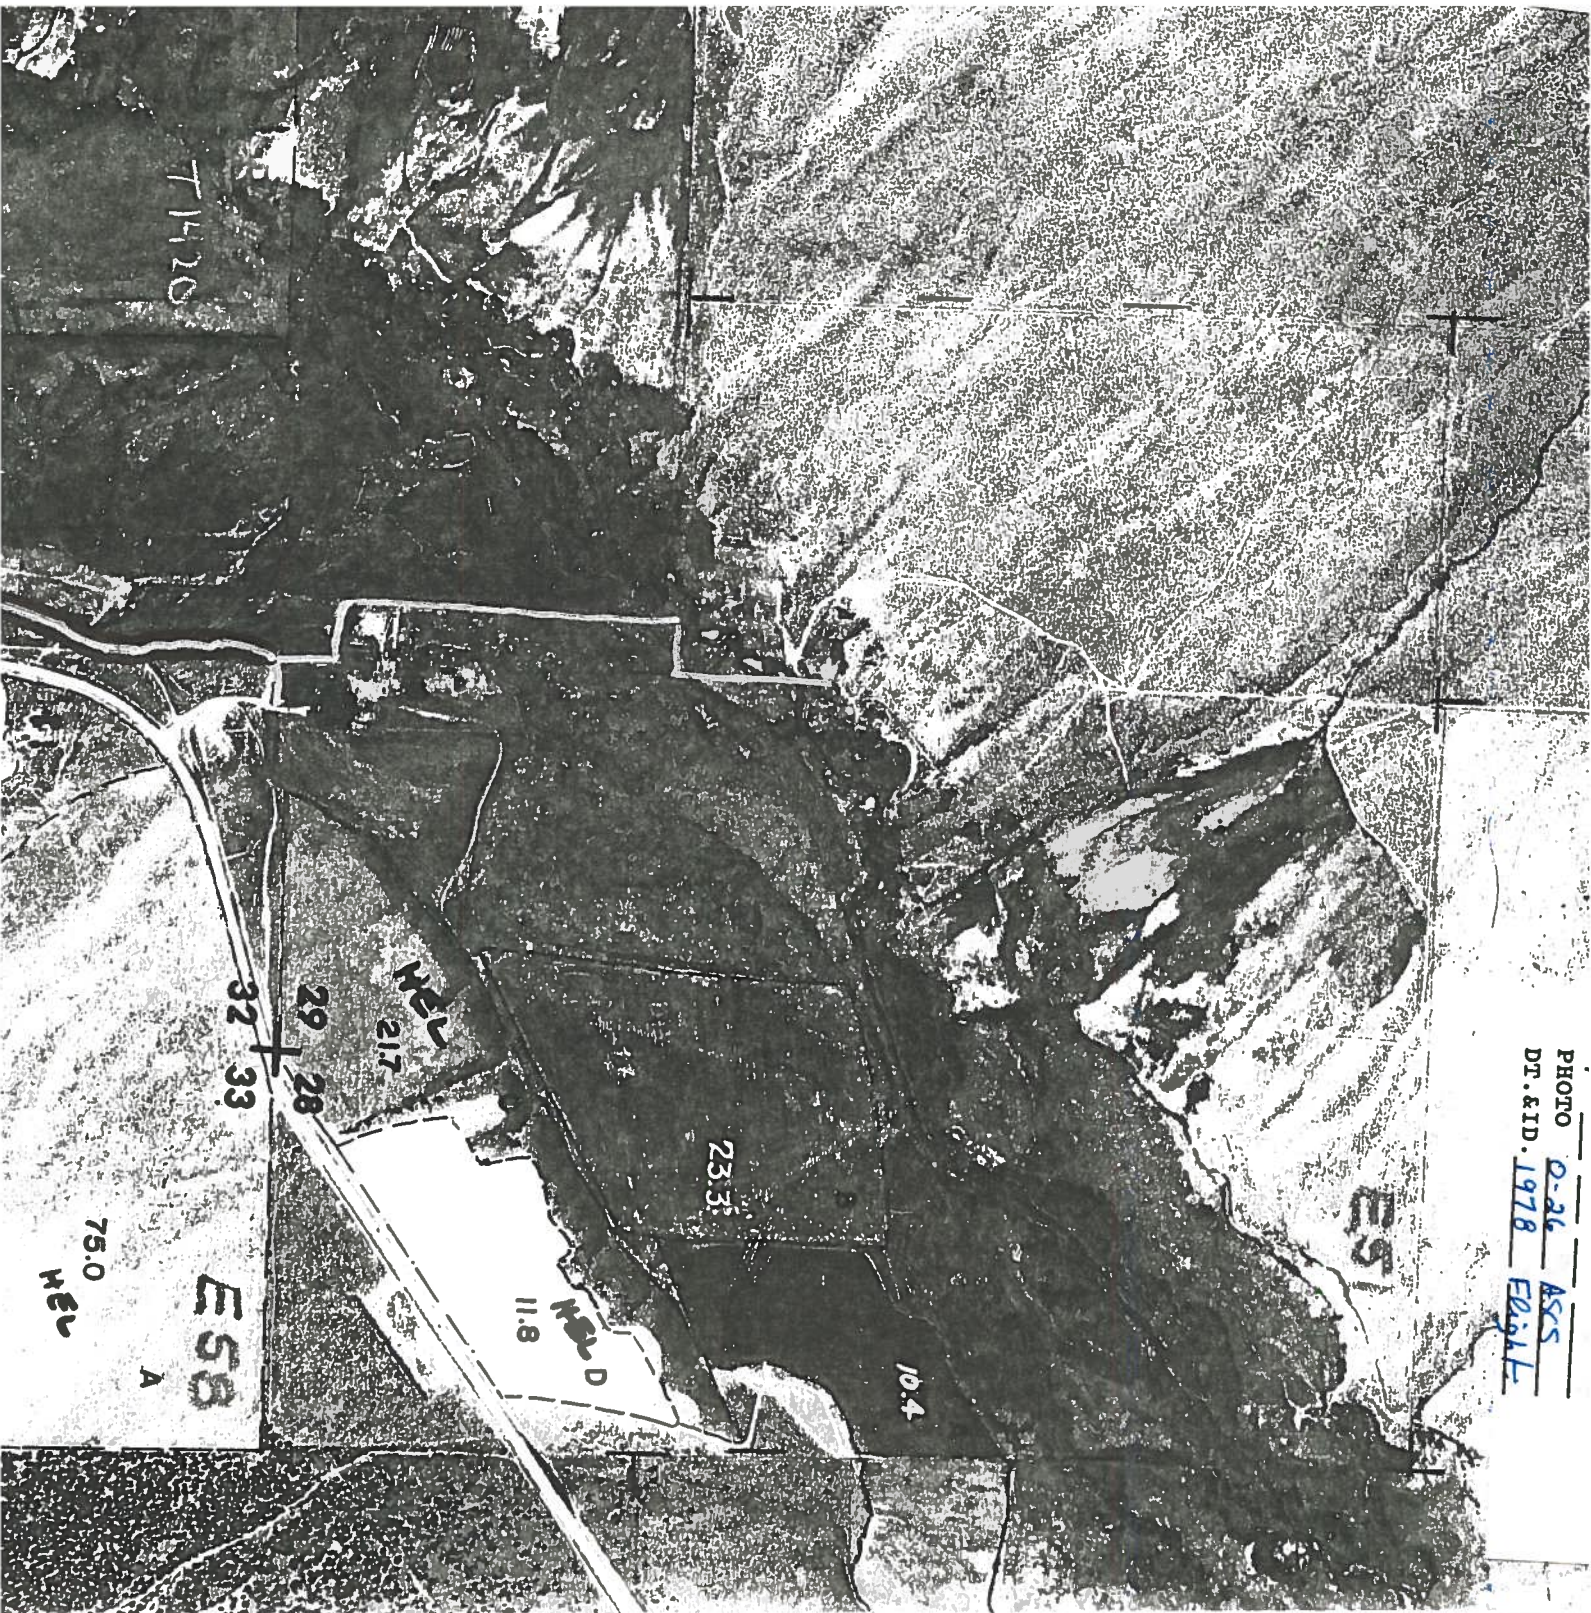

The court requires a chain of ownership from the claimant to the new owner. What is required is either a warranty deed showing Verda acquiring full ownership after Dewayne passed away, or that she was co-owner all the time.

Please send me the copies as soon as possible as I cannot complete my recommendation without them. As it stands the amendments you made are technically not valid. I am retaining them as they stand as a temporary record and as soon as the ownership issue is resolved I will complete the recommendation.

Sincerely

Kelly K Christensen
