He brought in 2 change of ownership forms, one from himself and one from his sister Verda Vee Villarma along with the "First and Final Accounting" of the estate of the former owner along with the "Petition for Determination of Testacy and Settlement and Distribution". The documents identified the property and that they had joint ownership. Based upon the information provided I placed both names on each claim.

I reviewed the claims with Melvin and after discussing them, he elected to amend the place of use for the Cassia Creek rights and to change the basis, the reference to 43-04142 as the springs identified in the claim weren't actually being diverted. 43-00416 was not claimed during the first claims taking period. This right has the same priority date as 43-00270 and has historically been used within the PPU with 43-00270 and the other Cassia Creek rights. As a part of the amendment process he elected to combine 43-00270 and 43-00416 under the claim number 43-00270. The place of use was modified to change the acres by quarter-quarter but the overall place of use acreage did not increase. It is all within the decreed place of use covered by the rights listed above. Both Cassia Creek diversions were found and have historically been used with all rights, therefore, both P/Ds were added to all Cassia Creek claims. I then renumbered A43-00240 to A43-11223 to better identify that the claim represents a combination of the two rights.

RE: CHANGE OF OWNERSHIP FOR DEWAYNE R ANDERSON CLAIMS

Dear Melvin

As I started data entry for the change of ownership claims I realized that I Verda Anderson was not listed as an owner on the adjudication claims. Unfortunately, this will require you to obtain one or more documents before I can complete the ownership change process.

The court requires a chain of ownership from the claimant to the new owner. What is required is either a warranty deed showing Verda acquiring full ownership after Dewayne passed away, or that she was co-owner all the time.

Please send me the copies as soon as possible as I cannot complete my recommendation without them. As it stands the amendments you made are technically not valid. I am retaining them as they stand as a temporary record and as soon as the ownership issue is resolved I will complete the recommendation.

Sincerely

Kelly K Christensen

CLAIM # A43-00267, A43-00268, A43-00269, A43-00270, AND A43-00271  
DATE PHOTOS TAKEN; 06-12-95  
PICTURE SET # 11

This photo shows the joining of Quaking Asp Creek and the Rice-Lessy ditch. This is considered the P/D for A43-00271. The ditch was also carrying Cassia Creek water (rate unknown) and it still had the capacity to carry additional water above the two flows.

CLAIM # A43-00267, A43-00268, A43-00269, A43-00270, AND A43-00271  
DATE PHOTOS TAKEN; 06-12-95  
PICTURE SET # 9

This photo shows the measurement made on Quaking Asp Creek just west of the Elba Almo highway. All of the measured water was being diverted via the Rice-Lessy ditch. The water level had dropped several inches from the previous weeks flow. The Rice-Lessy ditch is within the brush and trees at the top of the photo.

#### PICTURE SET # 10

This picture shows the crest obtained using the department 18 inch throat parshall flume. I measured 0.785 cfs, however the channel bottom was pure rock cobble and I was unable to obtain a good seal. Some leakage under the canvas was observed. You are looking east toward the Elba Almo highway.
