RE: CHANGE OF OWNERSHIP FOR A43-00288, A43-00289, A43-00290, A43-00291, & A43-00292.

Dear Mr Moranville

Attached are your copies of the adjudication claims that have been changed into your name. Please review the copies to confirm that they are correct.

Sincerely

Kelly K Christensen
Senior Water Resource Agent

**STATE OF IDAHO
IDAHO DEPARTMENT OF WATER RESOURCES**

NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.
Incomplete forms will be returned.

1. Water Right No(s).: 43-00292, 43-00290 43-00291 43-00289
 Adjudication Claim No(s).: 43-00288

2. The following REQUIRED information must be submitted with this form:
 - A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.
AND
 - B. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.)
OR
 - C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.

3. Name and Address of Former Owner/Claimant Robert T OR Margaret Robinson
P.O. Box 32-D Oakley ID 83346

4. New Owner/Claimant(s) Wendy or Richard Moranville
 Name Connector (Check one): ☐ and, ☐ or, ☐ and/or
 New Mailing Address HC 1-1 Box 1376
 City, State and ZIP Code ELBA Idaho 83326
 New Telephone Number (208) 638-5562

5. Date you acquired the property _____

6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.
 Number of acres you irrigate _____ Number and type of stock _____
 Diversion rate in CFS _____ Number of homes _____ Other uses _____
 If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

7. Signature of New Owner or Claimant(s) Wendy Moranville
 (Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

See A43-00288 for warranty
deeds for change of ownership;

the 108 acres identified above represents the
Place of use for the decreed Cassia creek rights
43-00289 thru 43-00292. The PPU identifies
an additional 16 acres recognized as enlargement
acres under 43-11202.
43-00288 has warm springs as a source and the
79 acre limitation for that right is entirely within
the 108 acres identified above.

A43-11196**

A43-00289, A43-00290, A43-00291 & A43-00292

The decreed rights are stacked rights for the same place of use. The historical delivery system was and is a dam in Cassia Creek diverting water into an earthen ditch running to the place of use. The recommended place of use has numerous natural channels running roughly southwest toward the northeast. Some of those channels are part of the irrigation delivery system. The diversions from those channels are not considered as diversion points, rather, as part of the irrigation system. Not all of the irrigated property owned by the Moranvilles is irrigated with Cassia Creek water. The irrigated ground in TWP 13S, RNG 24E is irrigated with First and Second Hollow water only (A43-11196). A triangular parcel of ground in the northwest end of Sec 31 SESW and SWSE is currently irrigated by wastewater only, although it has also historically been irrigated with Cassia Creek water. This ground is not being recommended under the Cassia Cr. claims.

**Sec 31 SWSW
MULTIPLE CLAIMS (SYSTEMS) OVERLAP**

In 1982 a pump was installed in one of the channels crossing the property and then piped to a center pivot that covers a majority of Sec 31 SWSW. Historically approximately 27 acres were irrigated from the ditch, gravity irrigation system in that quarter/quarter.

A43-11202 was filed as an expansion claim to add the acreage above the ditch system that was then being irrigated from Cassia Creek. That claim has Warm Springs as a second source being delivered through the same system to the same acres.

That ground has also been irrigated under a different gravity flood system. That system was claimed under A43-11196 for the irrigation of 12 acres in that same quarter/quarter as well as an additional 24 acres in Sec 36 (TWP 13S RNG 24E). That system is an earth ditch that cuts across both First and Second Hollow and eventually delivers water to Sec 31 SWSW which is at the end of the ditch.

WASTEWATER SYSTEM
A43-11221

The system for this right consists of a ditch running from the north to the south along the eastern border of Sec 31 NWSW. This quarter is irrigated with water from First and Second Hollow under one system and from Clyde Creek under a different system. The ditch enters the Moranville property at the NW corner of the SESW of Sec 31. The ditch then turns east and parallels the northern quarter/quarter boundaries of the SESW and SWSE quarters. Flood irrigation goes from the ditch southeasterly until the water reaches a natural drainage that then carries the water off the Moranville property in the SESW quarter. This ground was irrigated with Cassia Creek water under the historical delivery system but has not been irrigated through the Cassia Creek ditch system since the pump and pivot system was put in. Those acres were not claimed under the Cassia Creek decreed rights.

FIRST AND SECOND HOLLOW SYSTEM
A43-11196

This system is a ditch running from First Hollow to Second Hollow and continuing to the western edge of the center pivot found in Sec 31 SWSW. Tommy Hutchison under A43-10213 shares this source.

There is a diversion from Clyde Creek that is tied into this delivery system but Clyde Creek water is not part of this claim.

WARM SPRINGS SYSTEM
A43-00288 & A43-11202

The spring is located just south of the farmstead on the western edge of the irrigated place of use. The Cassia Creek main ditch is located uphill to the west of the spring. Water from the spring can be diverted south to irrigate most of Sec 6 NWNW or can be diverted into a natural drain and commingled with the Cassia Creek water for flood irrigation of the ground east of that drain. See Sec 31 SWSW above for the analysis of the pumping system and irrigation practices related to that pump. The right was decreed for 0.30 cfs, which would imply a 15-acre place of use at 1 inch per acre. However as this right is normally commingled with the Cassia Creek system and can cover approximately 79 acres (excluding the expansion acres) I am recommend 43-00288 be limited to the 79 acres within the Cassia Creek PPU.

REMARKS ANALYSIS

Warm Springs	43-00288
Cassia Creek	43-00289 thru 43-00292
Enlargement claim	43-11202
First and second Hollow	43-11196
Waste water	43-11221

The waste water system is recognized as an independent system and does not overlap with any other systems. No combined remarks are required for this right.

Under normal circumstances Warm Springs, Cassia Creek and the enlargement claim act as a system and are therefore recognized in one combined remark and limited to the total P/U of 124 acres. Warm springs is limited to 79 acres within the PP/U and the enlargement claim is limited to 16 acres within the same PP/U. The combined decreed rights from Cassia Creek are limited to 108 acres. This is the PP/U less the 16 enlargement acres. No diversion rate is associated with the 16 enlargement acres.

Warm Springs	43-00288	0.30 cfs	Cassia Creek	43-00289	0.50 cfs
Enlargement claim	43-11202	0.00 cfs		43-00290	1.20 cfs
First and second Hollow	43-11196	0.72 cfs		43-00291	0.60 cfs
Waste water	43-11221	0.40 cfs		43-00292	<u>0.40 cfs</u>
				Total	2.70 cfs

System of Cassia Creek, Warm Springs, and the Enlargement claim

Found irrigated 108 acres * 0.02 cfs/ac = 2.16 cfs

Conveyance losses for Cassia Creek div 0.24 cfs
Total 2.40 cfs

43-00288 is diverted at the source, therefore there are no conveyance losses calculated for this right.

A second combined remark is required when considering the First and Second Hollow overlap. When the claims identified in the 108 acre place of use are combined with this system, they are limited to 137 acres (108 ac + 29 ac). There is a 6.7 acre overlap between the two systems. First and Second Hollow claim is limited to 29 acres.

System of Cassia Creek, Warm Springs, and the Enlargement claim with First and Second Hollow.

Found irrigated 137 acres * 0.02 cfs/ac = 2.74 cfs

Conveyance losses for Cassia Creek div 0.24 cfs

Conveyance losses for 1st & 2nd Hollow div 0.14 cfs

Total 3.12 cfs
