RE: 95-8503

This claim was renumbered from Beneficial Use right 95-13147 to License 95-8503 per call from claimant that there was an existing water right for the property. The Beneficial use claim does not match all of the elements of the licensed right. Priority Date, Source/Tributary and Quarter-Quarter were different. Per taxlot data and information in water right file, it appears that the claim should be for the licensed right.
