Field Exam Notes

Field Exam Date: 03-14-2000

Claim No: VARIOUS – BRENT JONES

Agent: Vikie Hancock

I met with the claimant this date to discuss his various claims in the Almo area. It was prior to the irrigation season and so the actual field exam was limited. Mr. Jones has Almo Water Company water shares that he uses in conjunction with the water represented by Claims 43-00379, -00380 and -10164. His father, Glen Jones, is deceased and should be removed from the claims when proper documentation is received. Mr. Jones address is correct. Also see field notes on GIS layout.

Claim **A43-10164** is on two springs that are located in the SE NE Section 22. They are known as Middle and North Springs. There is a third spring, Bath Spring, that is not included as a source for this claim. Bath spring is used by Neil Durfee as stockwater and claimed as A43-10030. Bath Spring actually used to be a partially covered cement pool and admission was charged for use of the hot pool. The spring water is warm to the touch but not hot. The waters of both Middle and North springs merge a short distance from the springs and the claimant conveys the water via a ditch to a pond in the SWNE NW of Section 23. From the pond he runs a ditch to the northwest and flood irrigates around 15 acres as calculated by GIS. In 1963 and 1964 the springs were measured in response to the diminishing effects of a well drilled by King and Tracy in the SESE section 22. They measured 0.21 cfs at that time. In 1947 the springs were measured at 0.32 cfs and in 1962 the local groundwater board issued an order granting Glen Jones and Edwin Durfee a right to 0.32 cfs from Middle and North Springs with a priority date of 1878. In addition to this irrigation claim, Gary Jones has claimed winter season stockwater, Brent Jones included .07 cfs year-round stockwater in this claim and Harold Durfee has claimed rear-round stockwater of 0.07 cfs from three springs, which I presume includes Bath Spring. Harold Jones has not claimed an irrigation claim to the Middle and North springs, however Brent Durfee says that he should. My recommendation is that Brent Jones be awarded a POU of 15 acres and the proper portion of 0.32 cfs that will be determined when it is known if Mr. Durfee wishes to file an irrigation claim to the springs.

A43-00379 is based upon a decreed right to the POU claimed in the 1928 Jobe Adams Decree. The source for this claim should be changed to North Almo Creek as it was originally decreed. IDWR followed the USGS map for stream identification at claims taking but the map is in error. During my field exam with Brent, and also Gary Jones this date, they showed me the different channels that are Edwards Creek and North Almo Creeks. Claimant's points of diversion are definitely on the stream known as North Almo or the North Fork, which is a manmade channel diverted from Almo Creek in Section 4, T15S, R24E. Where the North Almo channel crosses under the Elba/Almo Highway

there is a weir that is used by the District 43B watermaster to measure North Almo Creek. Water users of N. Almo below this weir are: Brent Jones, Gary Jones and the May Family Trust (formerly Edna Cahoon). Waters from North Almo Creek sink upon the property of Gary Jones. Any waters that may run off enter Almo Creek. At a point in the NWNESE the two channels are very close and water from N. Almo can be injected into Edwards and vice-versa. This is done to more efficiently convey water when the flows are either very high or very low as Gary Jones has rights to both sources. I found acres irrigated that Mr. Jones had not claimed in the NESWSE and NWNWSE section 14 and which should be included in the recommendation. The full diversion rate decreed should be recommended. Mr. Jones also claimed A43-00380 for use on the same land. See below.

A43-00380 is a highwater decreed right to N. Almo Creek and should also have the claimed source changed. Half of the place of use for this decreed right was in the NWNE and NENW of section 14, which is land owned by Gary Jones. This decreed right was split by transfer #3218 wherein the point of diversion of 0.75 cfs of the 1.5 decreed was moved to section 10. This leaves a total of 0.75 cfs appurtenant to property owned by Brent Jones and diverted in section 14. Mr. Jones has an accomplished transfer of POU. Gary Jones has not as yet filed a claim to his 0.75cfs under this right.

A43-02477 is based upon a license and an accomplished transfer of place of use. There is now a pivot on the tracts. Expansion claim **A43-10167** was for an additional 58 acres irrigated with the same diversion rate because of increased efficiency of water use. I found only 38 additional acres by GIS and the irrigated acres I identified were verified by Claimant. Also, the priority date of 1970 is not substantiated in the file. 1976 ASCS photos do verify usage to as early as that date. Claimant will attempt to find proof of use in 1970.

Claim **A43-02463** agrees with the original license in place of use. The expansion of 40 acres as claimed in **A43-10168** was found to be closer to 30. The number of expanded acres was found to be represented in the 1976 ASCS photo by claimant. It appears that in 1987 the bulk of the 30 acres was more marginally irrigated than in years past. Claimant says the east half of the 40 is quite rocky. Proof of priority of the expansion has not been substantiated back to 1971, but is verified to 1976 per ASCS maps. Mr. Jones also informed me that since 1987 he has installed a pivot.

A43-11222 is a claim for an instream diversion of stockwater from Raft River that Mr. Jones filed yesterday.

D. REMARKS

U.S.G.S. Quad sheet shows North Almo Creek Trib to Edwards Creek however these streams do not flow together but are tributary to the R2H River drainage. Water from the various creeks are delivered independently from each other.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.
