1. Name of Claimant (s) R. O. Jones & Sons Inc. Phone (208) 824-5595

Mailing Address Box 137 Almo Idaho Zip 83312

2. Date of Priority (Only one (1) per claim) June 20, 1910

3. Source of water supply (a) NORTH Almo
which is tributary to (b) Almo creek

4. a. Location of existing point of diversion is: Township 15S Range 24E Section 14,
SE 1/4 of SW 1/4 of NW 1/4, Govt. Lot, _____ B.M., County of Cassia

Additional points of diversion if any: NONE

b. If instream flow, beginning point of claimed instream flow is:

Township 15S Range 24E Section 14, _____ 1/4 of _____ 1/4 of _____ 1/4,

Govt. Lot _____ B.M., County of _____

ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of

_____ 1/4, Govt. Lot _____ B.M., County of _____

5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well.

Cement head gate with weirs

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 4-1 to 11-1 amount .75 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) .75 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is _____ acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) NONE

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

COMMUNICATION DOCUMENTATION

From: Vikie Hancock

May 11, 2000

Regarding:

Customer:

Various claims

Gary Jones

[illegible]

Gary and Brent Jones came to the office to discuss their claims. Gary filed a claim for his portion of decreed right **43-00380**. Brent and Gary Jones have now filed for the entire right, each claiming 80 acres and 0.75 cfs on North Almo Creek. Gary brought in proof of priority on his Tater Creek Claim **43-04071** indicating usage dating to the mid 1950's. He decided that a permissible place of use for decreed right **43-00382** would be the best way for him to describe his water usage from Edwards Creek.

Gary Jones requested copies of the Articles of Incorporation for Almo Water Company. They were sent to him 5-18-2000 along with copies of the original warranty deed and of the Belnap decree agreement of 1964.

COMMUNICATION DOCUMENTATION

From: Vikie Hancock

March 30, 2000

Regarding:

Customer:

Various claims

Gary Jones

[illegible]

Claimant came into the office to discuss several issues brought up at our meeting in Almo on March 14th. Mr. Jones has decided to keep the various claims under the same ownership as originally filed.

Regarding claim **A43-00377**, it was decided to re-number the claim and keep the two sources within one claim. Claims **-00376** and **-00381** should be recommended within the PPU outlined. The 80 acre parcel north of the R.O. Jones house will not be included, as it is only irrigated by sprinkler using groundwater represented by **43-02538**. Claimant is planning to file on his portion of decreed right **43-00380**, also filed on by Brent Jones. The current place of use was identified for Tater Creek claimed by **43-04071**. He will get proof of priority for beneficial use. Three options were discussed for claim **43-00382** on Edwards Creek: A permissible place of use of 840 acres within the expanded acres covered by the sprinkler system; an enlargement claim; and an accomplished transfer from the original place of use to the land now irrigated by sprinkler.

Field Exam Notes

Field Exam Date: 3-14-2000

Claim No: Various, Gary and R.O. Jones

Agent: Vikie Hancock

I met with Gary and Richard Jones at Gary's house in Almo. We discussed the various claims filed by Both Gary and R.O. Jones & Sons. Gary has since purchased his father's farm and runs the two properties as one farm.

In 1985 a transfer #3218 was filed, for various decreed rights owned by R.O. Jones, to add a point of diversion on Edwards Creek in the SESE Section 10, where the claimants constructed a pond and pipeline to serve a gravity sprinkler system "on land once irrigated by flooding." Although there was no change in place of use for any of the rights, the land on which the gravity sprinkler system was installed was land located in the E $\frac{1}{2}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ Section 14 and the W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 13. Claimant installed one 12-inch buried pipe that runs from the point of diversion to the very center of the NW corner of section 14. There it is put into a mainline that runs due east through the center of the north half of section 14 and into the W $\frac{1}{2}$ NW Section 13. Claimant states the system can run approximately 12 quarter-mile sprinkler lines with mostly 1/8 inch nozzles. There is another 4-inch pipe from the point of diversion that runs to a field just to the west of the highway in the NWNW Section 14. This field is also sprinkler irrigated.

A point of diversion in SESE Section 10, on Edwards Creek, was added to rights decreed on both Edwards Creek and North Almo Creek, though Gary and Richard Jones state that only Edwards Creek and the shares of Almo Water Company water are diverted and put into the pipeline. Only one decreed right on Edwards Creek, 43-00378, was appurtenant to the acreage on which the sprinkling system was installed at the time of the transfer. However, 7.0 cfs from Edwards Creek decreed as 43-00382 was also available to the claimant if there was an unrecorded transfer of place of use. North Almo Creek water is still used upon this same ground but is used only for flood irrigation. Transfer #3218, as it pertains to rights on N. Almo Creek, is assumed to have not been accomplished.

1 $\frac{1}{2}$ shares of AWC is delivered from Almo Creek into Edwards Creek above the diversion in Section 10 for use in the gravity irrigation system. In 1985, the Department split a license and a statutory claim held by Almo Water Company and changed a portion of both into the name of Jones, per the aforementioned transfer #3218. This was in error, as the Jones did not wish to remove shares from Almo Water Company, just to change the point of diversion. They have, in fact, continued to receive and use their 1 $\frac{1}{2}$ shares in AWC. Note that Jones did not claim his portion of the split license 43-02232 or stat claim 43-04228. However, Almo Water Company claimed their split, not whole, portion of each right.

Gary Jones is successor in interest to the Helen Edwards water rights as specified in the Jobe Adams Decree as 43-00377 and 43-00378. He purchased the property from Louis Eames whose rights were confirmed in a lawsuit known as Almo Water Company vs Ivan Darrington, District 8E (now 43D) Water master. Claimant has combined the two rights, one on Edwards Creek for 1.6 cfs, and one on North Almo for 1.6 cfs, with the same priority date of 1879, in one claim **A43-00377**. In the Jobe Adams, the right to Edwards Creek is supplemental to the right on North Almo. I believe that the claimant may want to split this claim so as to differentiate each source. When the Eames portion of the property was purchased, it also came with the aforementioned 1½ shares of Almo Water Company water. Also at this time, claimants say that much more than the decreed 160 acres were being irrigated. Gary Jones claimed that he expanded into the NWNW of Section 13 (see permit #43-07210) but that the rest was already being farmed.

It does seem clear from 1976 aerial photos, that most of the land now owned by Gary Jones east of the Elba-Almo highway, and south of the dirt road which runs along the north section line of sections 13 and 14, was irrigated prior to the gravity sprinkler system put in circa 1985. A portion of another decreed right, 43-00380 on N. Almo Creek with a priority date of 1910, is appurtenant to the NENW and NWNE of Section 14 and should be claimed. This would account for the additional acres being irrigated. Note that Brent Jones claimed the entire 43-00380 right, but that only half of it is appurtenant to his property.

Claim **43-00376** is based upon a decree for 2.5 cfs of water from N. Almo Creek, priority date 1910. The decreed place of use is the E½ NW of section 13 and the E½ SW section 12. This land is up high and away from the diversion from N. Almo, and as the priority date indicates, developed late. Undated ASCS aerial photos found in permit file 43-07210 used for a field exam in 1991 identifies the water courses for Edwards Creek, and the water diverted from N. Almo, as they once ran through the farm. Except for portions of the W½ of the SENW Section 13, there are no ditches evident that would have conveyed water from N. Almo to the decreed place of use; nor are there any apparent on the low altitude ASCS photos #P34 and Q34 from 1978. The 1987 NAPP photo is similar. This 80 acres appears to have been marginally irrigated, if at all, for some time prior to 1978, and probably irrigated with runoff water from the north. The claimant stated that he does not irrigate north of the dirt road (i.e.: section 12) from anything but runoff water and Tater Creek when it is available. He also told me that he now uses sprinkler irrigation from the well licensed under 43-02537 to irrigate the E½ NW of section 13, as claimed under that right. Photo evidence suggests that water from N. Almo Creek has only been used on a diagonal portion of the SENW of section 13. Therefore, the water use represented by this decreed right has been, at some time, moved by accomplished transfer to lands which are included in the place of use south of the center line of section 13, and to a limited extent in the SENW Section 13. (Transfer #3218, as it pertains to 43-00376 is assumed to have not been accomplished).

Claim **43-00381** is for 7.0 cfs from N. Almo Creek, priority date 1880. The decreed place of use is 840 acres in Sections 13, 24 and 23, which exactly matches the adjudication claim with the exception of an additional 80 acres claimed in the E½NW Section 13. In reviewing 1987 NAPP photography, 1976

high and 1978 low elevation ASCS aerial photos, I see no evidence that water was conveyed to any but the SW corner of that particular 80 by surface ditches from N. Almo Creek in the years prior to 1987. Claimant Gary Jones said that he did irrigate the entire 80 acres with sprinkler irrigation from the well licensed under right 43-02537. The land looked to be developed and irrigated during my limited field exam this date. Baring additional information, I am inclined to recommend this right for use on the original decreed acreage. Note that, perhaps as a result of transfer #3218, the Allocations database was changed to reflect that the source for this right was Edwards Creek. The SRBA claim was filed on N. Almo Creek, and it is assumed that transfer #3218, as it pertains to this right, was not accomplished.

Claim **43-00382** is for 7.0 cfs from Edwards Creek, priority 1880. The decreed place of use for this right is exactly the same as that for 43-00381. A point of diversion in SESE Section 10 was added to this right so that the waters of Edwards Creek could be used in the gravity irrigation system which was developed to irrigate the E $\frac{1}{2}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ Section 14 and the W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 13. Water from this right also irrigates the field in the NWNE Section 14 and also a small area that is flood irrigated in the SESE Section 10. The lands now under gravity sprinkler irrigation, and flooded in Section 10, represent a change in place of use of this right that occurred in 1985. Edwards Creek may also be diverted in the SW $\frac{1}{4}$ of section 13 to flood irrigate the original decreed place of use, as the sprinkler system does not use the entire 7.0 cfs of this right. I do not see evidence that water from this source was used over the entire E $\frac{1}{2}$ NW of Section 13 prior to 1987, as claimed.

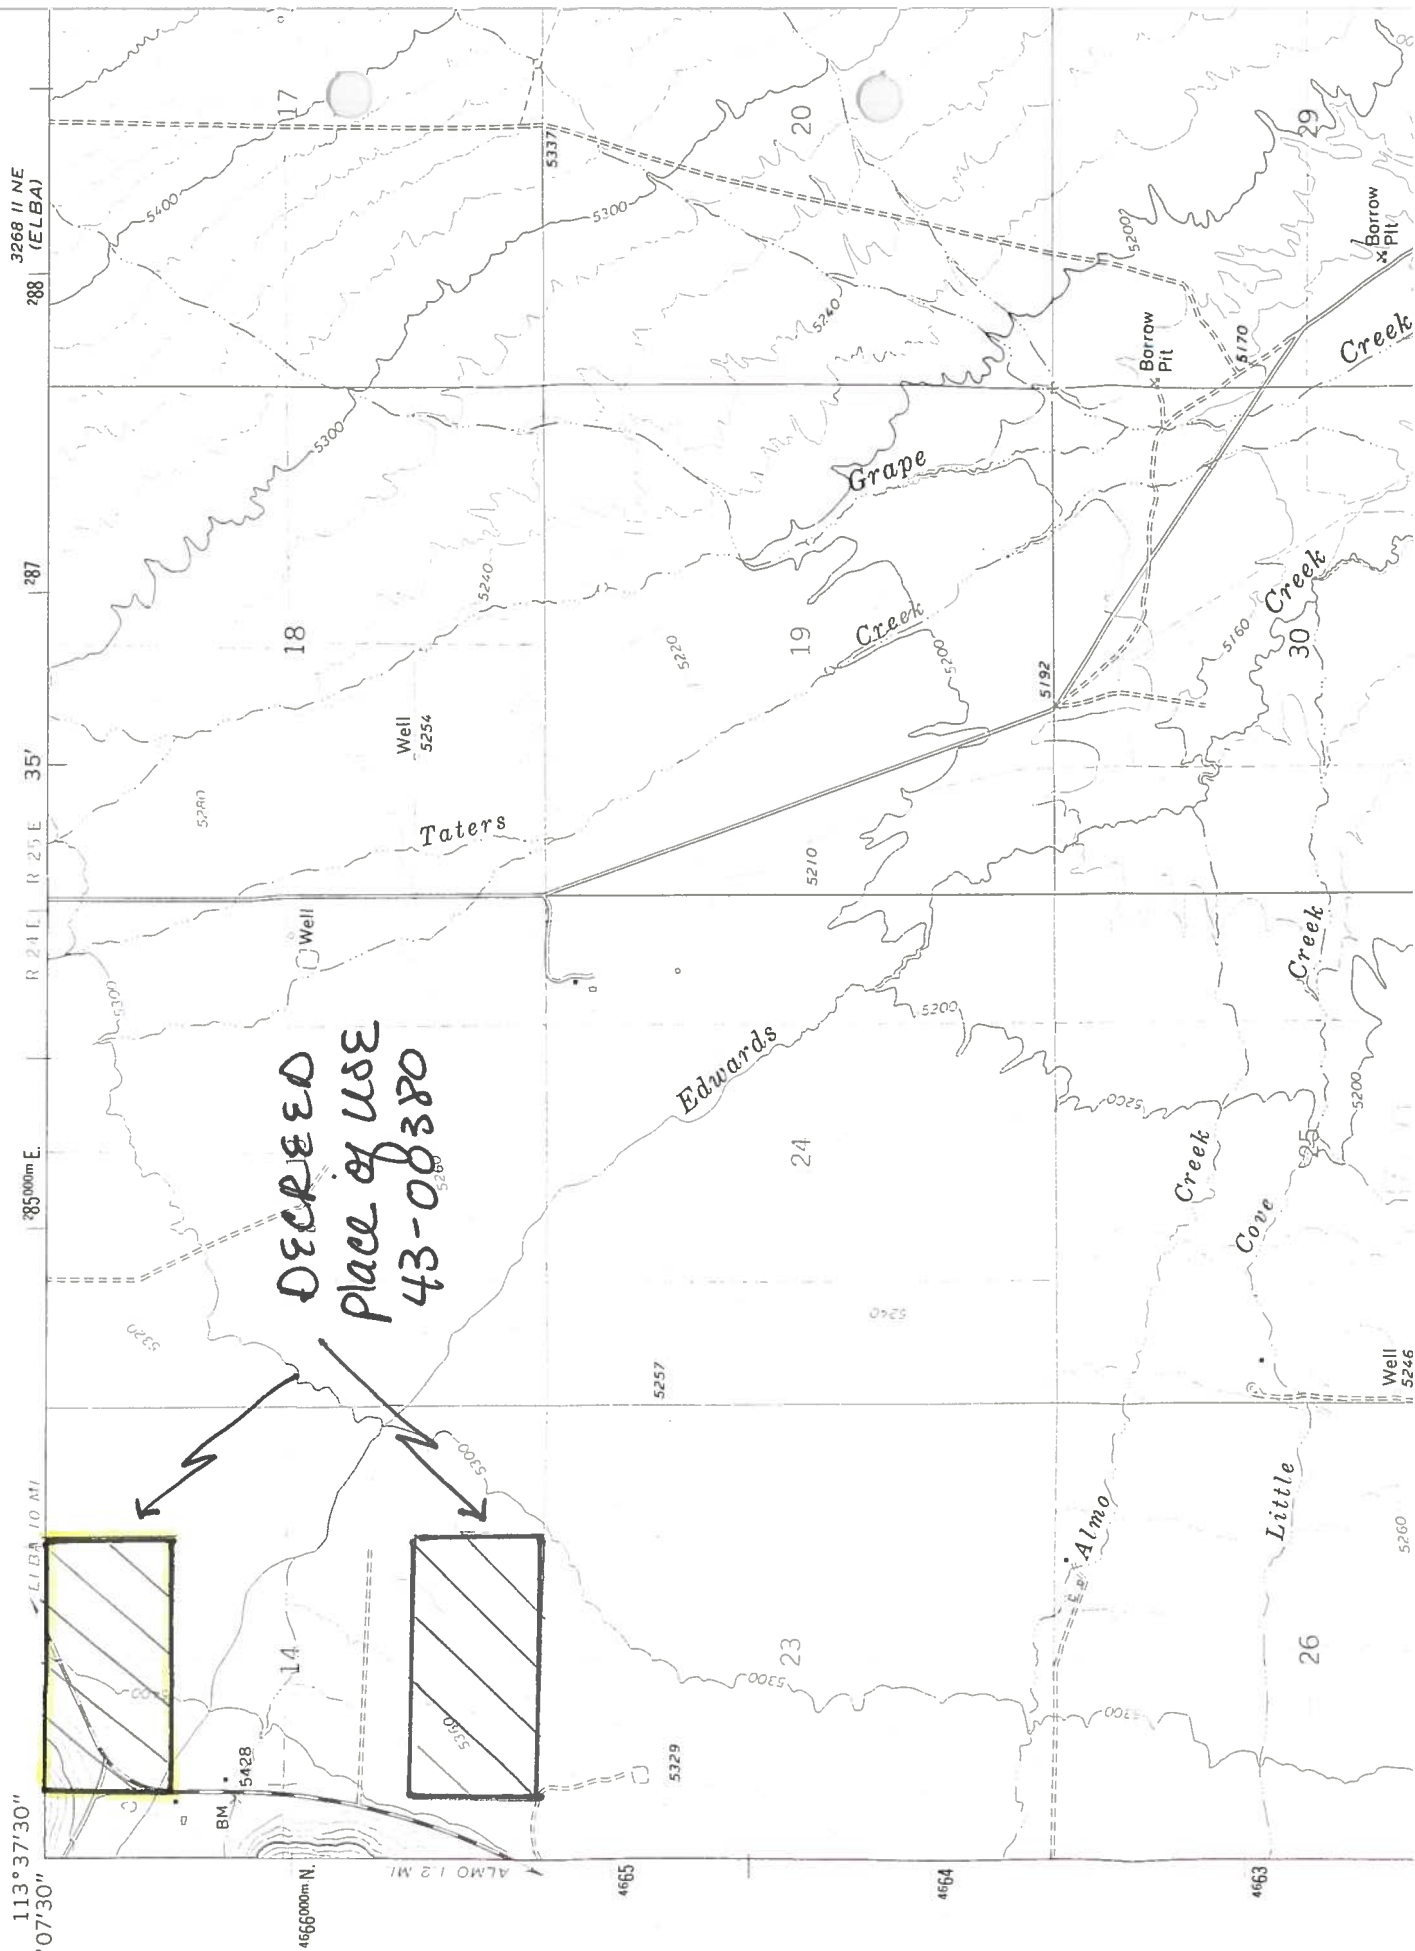

Either an enlargement claim for an additional 290+ acres, or a PPU limited to 840 acres within the total place of use, should be recommended to accurately reflect the water usage under this right.

The claimed place of use for **A43-02537** represents an accomplished transfer of place of use since the license was issued. The well is now used to irrigate the E $\frac{1}{2}$ NW of Section 13, instead of the SENW and SWNE of Section 24. Claimant states that the well is mostly used to flood irrigate at this time but he intends to move more toward a sprinkler system. It appeared during my limited field exam that this right was being used as claimed. The well is located in the extreme NW corner of the NENW Section 13.

A43-04071 is based upon a statutory claim to Tater Creek for 3.6 cfs with an 1880 priority date. According to the claimant, there is not often water available for use at his point of diversion on Tater Creek. He showed me his point of diversion, which is just south of the Almo-Elba Highway, as Tater creek passes under it. He says that he diverts the creek to the west here, and the portion of it going to the east is used by Brent Jones. (Brent Jones did not file a claim on Tater Creek). This stat claim, as well as stat claims by Eames 43-04067, Robert Ward 43-04068, Glen Jones 43-04070 and Black 43-04069 were protested when filed in 1976. The claimants and the protestant, Jack Erickson, agreed that all the stat claims should have the same priority date of 1880. The only SRBA claims filed on Tater Creek are this one and A43-04069 by Jay Black. This claim has no proof of priority filed to substantiate the 1880 priority date. Gary Jones says that, when available, he uses Tater Creek, as well as runoff water, to irrigate the pasturelands he owns above the dirt road at the top of his sprinkler irrigated fields. This property was not owned by R.O. Jones at the time the statutory claim 43-04071 was filed, but was owned by Louis

Eames. The stat and SRBA claims as filed by R.O. Jones claim a place of use south of the dirt road. The conveyance ditch through the E½NW of Section 13 is still evident in the 1987 NAPP photo and appears to be the historical place of use for this claim. Actual date this water was put to beneficial use is unknown at this time.
