RE: Housing Authority of the City of Caldwell
Water Right Transfer Application No. 63-03596
Project No. 101396

Dear Steve:

This letter is to confirm that the Application for Transfer of Water Right, received by IDWR on June 25, 1997, for the Housing Authority of the City of Caldwell is to add a point of diversion to the 63-03596 domestic right. A new well is proposed for the Farmway Village facility. The construction of this well would make a total of 3 possible production wells (Well #2, #3, and #4) for the facility. Well No. 2 will be used only for emergency situations when either or both of the other facility wells are off line. No permanent pump and motor assembly will be installed in the well. The proposed new well (Well #4) will be located in the NENW of Section 9, T4N, R3W. The existing wells are located in the NWNW of Section 9, T4N, R3W. The Farmway Village facility encompasses property throughout the NW of Section 9, T4N, R3W. See attached map.

Please include the proposed well as part of Application 63-12221 and process the application within the "community well" guidelines. The water bearing zone in the aquifer that is anticipated to be screened is from 155 feet to 175 feet below the ground surface. See attached well diagram.

If you need any additional information or clarification, please call.

Sincerely,
HOLLADAY ENGINEERING CO.

RE: Housing Authority of the City of Caldwell
Water Right Transfer Application No. 63-03596
Project No. 101396

Dear Steve:

This letter is to confirm that the Application for Transfer of Water Right, received by IDWR on June 25, 1997, for the Housing Authority of the City of Caldwell is to add a point of diversion to the 63-03596 domestic right. A new well is proposed for the Farmway Village facility. The construction of this well would make a total of 3 possible production wells (Well #2, #3, and #4) for the facility. Well No. 2 will be used only for emergency situations when either or both of the other facility wells are off line. No permanent pump and motor assembly will be installed in the well. The proposed new well (Well #4) will be located in the NENW of Section 9, T4N, R3W. The existing wells are located in the NWNW of Section 9, T4N, R3W. The Farmway Village facility encompasses property throughout the NW of Section 9, T4N, R3W. See attached map.

Please include the proposed well as part of Application 63-12221 and process the application within the "community well" guidelines. The water bearing zone in the aquifer that is anticipated to be screened is from 155 feet to 175 feet below the ground surface. See attached well diagram.

If you need any additional information or clarification, please call.

Sincerely,
HOLLADAY ENGINEERING CO.
