Dear Mr. Hansen:

Pursuant to our recent telephone conversation, please find enclosed a partially completed transfer application for your review and possible use. The application basically proposes moving a 62 acre portion of water right 43-415B from land owned by Arimo Corporation in Section 04, Township 15 South, Range 27 East, to land you purchased from Arimo Corporation in Sections 17 and 20, Township 15 South, Range 27 East. In addition, the application proposes making the 18 acre water right (43-13120) that you purchased with the property and the above mentioned 62 acre portion of 43-415B appurtenant to the entire 80 acre parcel that you own.

Please note that the application is only partially completed, and several items need to be added to the application. I have highlighted various items in the application that you will need to complete. In addition, the following items need to be included with the application.

- **Ownership Information:** In the transfer process the applicant must show that they own the water right being transferred, or the property to which the water right is currently appurtenant. Since Arimo Corporation owns water right 43-415B, and the land to which it is appurtenant, you need to show some sort of legal documentation, such as a deed, that Arimo Corporation conveys the 62 acre portion of water right 43-415B to you and Darla Hansen. The deed should be specific and include language along the lines of...

"1.24 cfs portion of water right 43-415B currently appurtenant to 38 acres in the SWSW ¼ and 24 acres in the NWSW ¼ of Section 04, Township 15 South, Range 27 East".

Page 2
Brian Hansen Transfer Letter
August 14, 2001

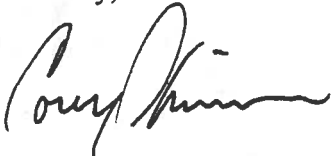

- **Lien Holder Information:** If the land (Sections 04, 17, 20) involved with the transfer is subject to any liens, deeds of trust, or mortgages, then a letter agreeing to the transfer signed by the holder of the lien, deed of trust, mortgage, or contract, must accompany the application.

Vikie Hancock e-mailed Doug Freestone regarding what acres Arimo Corporation would prefer to dry up, and Mr. Freestone identified land in the SWSW $\frac{1}{4}$ and the NWSW $\frac{1}{4}$ of Section 04, Township 15 South, Range 27 East (see enclosed copy of e-mail messages).

Please note that the application must be completed, signed (by both you and Darla) and notarized, and returned to this office with the filing fee of \$290.00, along with all required attachments in order to be processed.

If you have any questions, or need any further assistance, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, PE
Water Resource Engineer

COMMUNICATION DOCUMENTATION

From: Vikie Hancock

August 13, 2001

Regarding:

Customer:

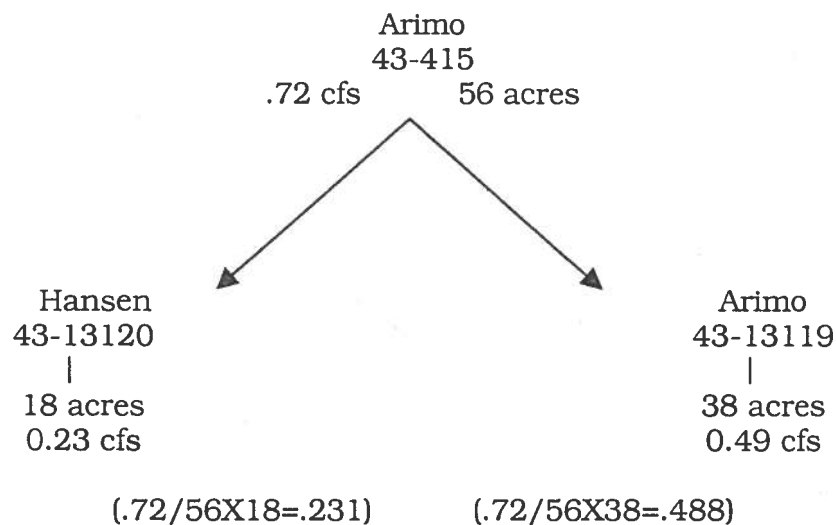

43-415A

Brian Hansen

Mr. Hansen called to tell me that he had been in contact with Christopher Robinson of Arimo. Robinson is willing to allow Hansen to transfer Clear Creek water from land owned by Arimo in Section 4 onto the acreage sold to Hansen in Sections 17 and 20. The right appurtenant to Section 4 was identified in IDWR's preliminary recommendation as 43-415B.

I informed Mr. Hansen that I would proceed to split right 43-415A between he and Arimo and he needed to file a transfer to move the water from Section 4 to his 80 acres.

43-415A will be split proportionately as follows:

Corey Skinner and I determined that 62 acres would need to be dried up in Section 4 to cover the portion of Hansen's 80 that did not have a water right. Christopher Robinson indicated to Brian Hansen that he had little interest in Clear Creek water. It was decided that I should correspond with Doug Freestone, Arimo ranch manager, to see how Clear Creek was used in Section 4 and what acreage they would most probably want to be left there under Arimo's portion of 43-415B after the transfer.

COMMUNICATION DOCUMENTATION

From: Vikie Hancock

August 1, 2001

Regarding:

Customer:

43-415A

Brian Hanson

Brian Hansen came into the office to discuss his purchase of the above water right from Arimo Corporation. He met with me and with Corey Skinner, water allocation agent.

Mr. Hansen purchased, through trade, 80 acres in the SESW Sec 17 and NENW Sec 20 from Arimo Corp. in April 2000. Along with this 80 acres, he was deeded .72 cfs of Clear Creek water represented by AJ claim 43-415A. The referenced water right/claim is appurtenant to land as follows: 18 acres SESW Sec 17, 38 acres NESW Sec 17. There are no water rights of record appurtenant to the NENW of Section 20. Mr. Hansen traded 40 acres and .72 cfs of licensed ground water for these 80 acres.

Corey and I discussed options with Mr. Hansen, as the transfer of water from the SESW Sec 17 was complicated by an overlapping ground water right. It was further complicated by the fact that, prior to the purchase of the land by Arimo, the original owner had filed Adjudication claims that asserted an accomplished transfer of all but 18 acres of the Clear Creek right that had been originally decreed to the 80 acres Hansen later purchased.

We asked Mr. Hansen to describe the water use on the 80 acres he purchased. He said that first of all, no Clear Creek water was ever available as Reid Stewart took all of it at his diversion up stream. He said that for the last 8 or so years, the land had been irrigated using the Arimo well in section 17 (NWSWNW, aka #44) and with his well in section 18 (SWSWNE). He said that he had leased the land from Arimo and farmed it.

Mr. Hansen proposed several ways that he could expand into that 80 acres with ground water that he wasn't using on his adjacent land. Corey explained the fine points of expansion and that it was allowed only for those acres developed prior to 1987. He explained that an acre for acre trade was now going to be needed to get ground water onto the 80. We looked at 1962 aerial photos showing that the land was not well irrigated before the critical GW area was put into force and mandatory permit statutes implemented.

Some of the options mentioned at our meeting:

43-415B

- 1) File an application for transfer of the 38 acres on the NESW Sec 17 represented by 43-415A onto the SESW Sec 17 and NENW Sec 20 purchased by Hansen, and see if it is approved.
- 2) Attempt, with Arimo's approval, to transfer a portion of 43-415B from section 4 back onto the 80 acres Hansen purchased which would at least satisfy the cfs mentioned in the deed.
- 3) Subsequent to transferring Clear Creek back onto the property, transfer ^{Ground} water onto the 80 by drying up other acres.
- 4) Subsequent to transferring Clear Creek back onto the property, trade it to Reid Stewart who has working diversion works from Clear Creek and could more probably utilize CC on the property.
- 5) Giving Arimo back their 80 acres and getting financial satisfaction for the 40 acres traded.

I encouraged Mr. Hansen to talk to Chris Robinson of Arimo and possibly Reid Stewart about some ways they may come up with to get water on the property. I cautioned him to discuss any options with Corey or myself to make sure that it would be approved by the Department before agreeing to anything.

SRBA Case No. 92-00014

ORDER FOR DIRECTOR'S REPORT

This case is a dispute between several water rights holders on Clear Creek in the state of Idaho. The SRBA court has jurisdiction because the case requires a determination of one or more elements of the disputed water rights. *Young Harvey Walker v. Big Lost River Irrigation District*, 856 P. 2d 868, 124 Idaho 78 (1993). During the course of litigation, it has become apparent that trial

of the several water rights at issue is likely to result in duplicative litigation when the Clear Creek Stream System is reported in a Director's Report as part of the SRBA.

To avoid a multiplicity of litigation between these and other parties on Clear Creek, this court enters the following order:

1. The Idaho Department of Water Resources shall prepare a preliminary Director's Report for all, approximately thirty, water rights claimed in the Snake River Basin Adjudication on Clear Creek. This report shall be prepared and submitted to the court on or before February 27, 1998.
2. The court will serve copies of the preliminary Director's Report on each claimant included in the report.
3. All claimants included in the Director's Report for Clear Creek shall file objections to the report on or before March 27, 1998.
4. Any party wishing to file a response to an objection to the preliminary Director's Report shall file the response with the court on or before April 10, 1998.
5. A scheduling conference on all objections and responses filed to the preliminary Director's Report for Clear Creek will be held on Monday, April 13, 1998 at 10 a.m. in the district courthouse for the Snake River Basin Adjudication located at 253 3rd Avenue North, Twin Falls, Idaho. All parties and counsel are required to be personally present at this scheduling conference.
6. Parties in the *Jones v. NAF Irrigation Company et al* case pending before the court shall be allowed to continue discovery on issues raised in the pleadings.
7. The prior scheduling order and trial setting in *Jones v. NAF Irrigation, et al* is hereby vacated in favor of the schedule set forth in this order.

IT IS SO ORDERED.

DATED October 24, 1997.
