Copies White-State, Yellow-Claimant

Attachment to W.R. 43-2223

As is authorized under SB 1065, and after conversations with the Director of IDWR, this claim is filed to represent the current water usage authorized by this licensed water right wherein waters are diverted from both surface and groundwater at any or all of the points of diversion as described above. This claim does not change the irrigated acres as is outlined in the license, but does include an additional point of diversion. This change to an additional point of diversion has been gradual, though sometimes erratic, over the years due to the increasing withdrawal of the supporting groundwaters to the Raft River in the area. This has led to the decline in the historic flow of the Raft River which has necessitated this change. The addition of a point of diversion does not expand or enlarge upon the irrigated acres which are authorized by the license, nor does it relinquish the right to the historic diversion of waters from the Raft River, when they are available. This change merely adds to the licensed right an additional point of diversion.

This claim represents a portion of W.R. 43-2223. The lands for which it was first licensed have been divide amongst different owners, thus the claimed portion of this right should be segregated from the rest of the right.

Department of Water Resources
Western Regional Office

Dear Mr. Shaw:

Attached please find a copy of a REQUEST FOR EXTENSION OF TIME TO FILE ADJUDICATION CLAIM(S) in conjunction with the adjudication in Cassia County. I understand that such requests should be forwarded directly to your office rather than to the Southern Region.

Also attached please find nine completed NOTICE OF CLAIM TO A WATER RIGHT forms with appropriate filing fees. The completion of these claims has been delayed due to the change of ownership of some of the lands and the need for the division and segregation of the water rights. Further, the status of several of the previously held permits and licenses were in question and significant research was required through correspondence with Department personnel. It was determined that several permits had been cancelled. The completion of these claims has been diligently pursued, but the gathering of pertinent information took these additional three weeks beyond the filing deadline. We respectfully request that this after the-fact extension be approved and these claims be accepted by the Department. If the extension is not approved, please contact me so that I might meet appropriate penalty requirements.

I sincerely appreciate your handling of this matter. If you need more information, please contact me.

Sincerely,

Roger C. Neddo

RE: Snake River Basin Adjudication

Dear Mr. & Mrs. Neddo:

Please find enclosed the REQUEST FOR EXTENSION OF TIME TO FILE ADJUDICATION CLAIMS which you recently submitted to the Department. Please note that the request was DENIED and that the fees submitted are not appropriate to cover the late fee penalty.

Since our office cannot accept the claims until the proper fee has been submitted please find enclosed your nine claims and checks as listed below:

<u>Claim Description</u>	<u>Check number</u>	<u>Check amt.</u>
Domestic well	1065	\$67.00
Irrig. well 43-2322	1062	\$130.00
Raft River & well 43-2224	1248	\$50.00
Irrig. well 43-4169	1063	\$210.00
Raft River	1066	\$50.00
Irrig. well	1064	\$150.00
Raft River & well 43-2223	1247	\$50.00
Irrig. well 43-2300	1250	\$50.00
Irrig. well 43-2303	1061	\$50.00

Since the claims are considered late the additional fee for each claim will be \$50.00. Please note that the Domestic well if the use is less than 13,000 gallons per day it could have been claimed on the short form and the fee would have been only \$25.00 instead of \$67.00 or \$75.00 including late fee instead of \$117.00. In returning claims please specify if use is more than 13,000 gpd.

If you have any questions please feel free to contact our office.

Sincerely

Allen Merritt, P.E.
Water Rights Supervisor

Prepared by Scott King

Claims review notes and narrative

43-2223A, 43-2224A, 43-10586

SYSTEM ANALYSIS

Licenses 43-2223 and 43-2224 are for Raft River water, applications made in 1917, proof of beneficial use submitted later in 1917, licensing exam in 1922, and licenses issued early 1923. I was unable to find any reference to the claimed lands upon review of the Jobe Adams decree. Recommended priority dates were not advanced as directed by Candice McHugh (attorney), as these rights were not licensed when the Jobe Adams decree was filed.

The claimed points of diversion and delivery ditches appear to have been obliterated per the 1987 imagery (1962 images appear to support the claimed points). Notes in file 43-10586 indicate that ditches were removed in about 1976 and that Raft River water has not been used for many years.

For both 43-2223 and 43-2224, Neddo claimed (under parts A) all of the flow but only a portion of the acres as it appears other parties now own the other land. However, the other parts do not appear to have been claimed. I have recommended the claimed acres and the proportional flow for these rights. Since the claimed acres are only a portion of the currently irrigated lands, recommendations were made as a permissible place of use.

At the direction of Doug Jones, the following non-standard remark was included for both 43-2223A and 43-2224A:

"THE POINTS OF DIVERSION DESCRIBED ABOVE REPRESENTS AN UNUSED FACILITY DUE TO INFREQUENT AVAILABILITY OF WATER. BEFORE WATER MAY BE DIVERTED UNDER THIS WATER RIGHT, THE WATERUSER MUST FILE A TRANSFER TO ESTABLISH AN ACTIVE POINT OF DIVERSION, OR SHOW THAT AN EASEMENT AND MEANS TO CONVEY WATER FROM THE DIVERSION TO THE PLACE OF USE EXISTS."

Beneficial use claim **A43-10586** is for Raft River water for most of Neddo's farm. It overlaps with the above two claims. No evidence of priority was submitted. Included in the file is conversation memorandum documented by Allen Merritt regarding the non-use of water under this claim. Because no lawful appropriation was shown, **this claim is recommended to be disallowed.**

RECOMMENDATION SUMMARY

43-2223A	55 acres within a	91 acre PPU at	1.10 cfs
43-2224A	30 acres within a	<u>79 acre PPU at</u>	<u>0.60 cfs</u>
		Total	1.70 cfs

43-10586 Disallowed

43-2223A overlaps with claims A43-2300A, A43-2303A, A43-10586 & A43-10587
43-2224A overlaps with claim A43-2322.

43-2300A, 43-2303A, 43-10587

SYSTEM ANALYSIS

Licenses 43-2300 and 43-2303 were issued to George Neddo for the same 267 acres with a source of ground water from the same well with a location matching the current diversion. These 267 acres were spread over eight 40-acre tracts. Neddo currently owns land in 2 of the original 8 tracts, and claimed (as "part A" of each license) the licensed acreage for these lands (65-acres in each claim). GIS analysis indicates irrigation of 91 acres in three tracts (2 of the original, and 1 in NESE section 30 that wasn't included in the licenses).

License 43-2300 was issued for 2.0 cfs. License 43-2303 is for 1.0 cfs. A43-2300A and A43-2303A claim 2.0 and 1.0 cfs respectively (all the licensed flow). The other portions of these licenses were not claimed and other claims exist for the originally licensed lands now owned by other parties.

Although not claimed as such, it seems that these claims can be recommended as an accomplished transfer; acres were moved from lands to the north to lands to the south, closer to the well. As property ownership changed, new rights were developed for the lands where these licenses were once appurtenant.

Therefore, it appears appropriate to recommend 43-2300A for 91 acres at 1.82 cfs. This provides one-inch-per-acre from the earliest priority right for all 91 acres found irrigated under these claims. This 91 acres includes 35 acres in the NENE section 30 where 5 acres were removed for the road, homestead, and an apparently non-irrigated area in the far NW corner; 37 acres in the SENE section 30 where 3 acres were removed for roads on the west and south boundaries of this tract; and 19 acres in the NESE section 30.

43-2303A can be disallowed. 43-2300A provides 0.02 cfs per acre for all of the irrigated lands, so that 43-2303A is not needed.

A43-10587 was claimed as a beneficial use right for the acres that became irrigated after the above licenses were issued. This claim is also unnecessary because 43-2300A, recommended as above, provides the full supply of water.

RECOMMENDATION SUMMARY

43-2300A	91 acres at 1.82 cfs
43-2303A	Disallowed: recommended as right 43-2300A
43-10587	Disallowed: recommended as right 43-2300A

43-2322, 43-4169

SYSTEM ANALYSIS

License **43-2322** was issued to Dean Rogers and later acquired by George Neddo. A transfer was approved in March 1964, changing the point of diversion to the current well (from SWNW to NWNE 13S 27E S29). The license provided 1.60 cfs for 80 acres in the NWNW and

SWNW of Section 29, T13S, R27E. The claim is recommended at 1.58 cfs for 79 acres, with 1 acre removed from the SWNW tract for the road on the south boundary.

The original statutory claim **43-4169** was filed in June 1983 for 160 acres with a priority of March 1, 1960. The SRBA filing claims the same elements without change. Evidence of priority submitted by the claimant includes an affidavit from Rodney Hall affirming irrigation of these lands in March 1960.

My review of well driller logs for the claimed point of diversion finds one undated well log in the name of Dean Rogers for a well at 13S 27E S29 NWNE, and a *Layne and Bowler Pump Company Well Test Report* dated December 1960 in the names of both George Neddo and Dean Rogers for a well at the same location. The second document provides good evidence that the new well was constructed prior to creation of the Raft River CGWA.

In file 43-2322, documents show that Neddo filed the transfer application to change the point of diversion from SWNW to NWNE of Section 29 in December 1963. The transfer was approved March 1964. Later in 1964, several affidavits were entered into file 43-2322 stating that the new 160 acres claimed in 43-4169 had been previously irrigated, some claiming first irrigation dating to 1952 using Raft River water. These documents indicate that Neddo was trying to document irrigation of the new 160 acres as occurring prior to creation of the CGWA.

Review of the 1962 imagery (taken September 9, 1962) provides good evidence that the 160 acres claimed in 43-4169 was not irrigated at this time; the land features appear similar to other lands to the east that were also not irrigated. The 1968 imagery does indicate that irrigation was occurring, so that development of these lands most likely happened sometime between late 1962 and 1968.

Because the 1962 images provide strong evidence that beneficial use of water on these lands was not occurring at the time the photographs were taken, this claim is not recommended with the claimed priority date of March 1, 1960. Instead, this claim is recommended as an expansion of 43-2322 pursuant to section 42-1416B. The recommended priority date is June 30, 1985. No additional flow or volume is recommended. Total acres are 154, a reduction from the claimed 160 acres due to roads on the property boundaries.

RECOMMENDATION SUMMARY

43-2322	79 acres at	1.58 cfs
43-4169	154 acres at	1.04 cfs (expansion of 43-2322 pursuant to 42-1416B)
Total:	233 acres at	1.58 cfs

Remarks and conditions for Roger Neddo's claims:

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding, which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett

RE: Snake River Basin Adjudication

Dear Mr. & Mrs. Neddo:

Please find enclosed the REQUEST FOR EXTENSION OF TIME TO FILE ADJUDICATION CLAIMS which you recently submitted to the Department. Please note that the request was DENIED and that the fees submitted are not appropriate to cover the late fee penalty.

Since our office cannot accept the claims until the proper fee has been submitted please find enclosed your nine claims and checks as listed below:

<u>Claim Description</u>	<u>Check number</u>	<u>Check amt.</u>
Domestic well	1065	\$67.00
Irrig. well 43-2322	1062	\$130.00
Raft River & well 43-2224	1248	\$50.00
Irrig. well 43-4169	1063	\$210.00
Raft River	1066	\$50.00
Irrig. well	1064	\$150.00
Raft River & well 43-2223	1247	\$50.00
Irrig. well 43-2300	1250	\$50.00
Irrig. well 43-2303	1061	\$50.00

Since the claims are considered late the additional fee for each claim will be \$50.00. Please note that the Domestic well if the use is less than 13,000 gallons per day it could have been claimed on the short form and the fee would have been only \$25.00 instead of \$67.00 or \$75.00 including late fee instead of \$117.00. In returning claims please specify if use is more than 13,000 gpd.

If you have any questions please feel free to contact our office.

Sincerely

Allen Merritt, P.E.
Water Rights Supervisor
