6-4-99

Left msg with wife to have him call me.

6-15-99

Left message to have him call me re: measurements.

He called back & said more water was running now and could I come back & re-measure? I made an appt to be there at 9:Am Thursday, June 17th

I asked him about pipeline that transferred water from the SWNW to NWNW he said there was a pipeline that ran from the Cemetery Spring res to the land N of Dott Creek measurement, but that it was plugged when he bought the property & looked like it had been for years. It had always flooded as found - in the SWNW & NWNW.

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers :A43-02237, A43-04083, A43-04084

Dear Mr. and Mrs. Gochnour:

In March 1996, we received notice that you purchased property to which the above Adjudication claims apply. These claims were filed in 1989 by Dean Fredrickson, for property located in the Naf/Standrod area.

The Department of Water Resources is now in the final stages of investigating and recommending the claims in your area for decree. Part of this investigation involves a field examination of the irrigation works and acreage that have been claimed in the SRBA. I have attempted to contact you by telephone, but like many of us, you have been away from home during business hours. Would it be possible for you to contact me between 8am and 5pm, at the phone number listed above, to schedule an exam out at your property? It would be best if you, or someone familiar with your irrigation system, could meet me there, however, with your permission I can examine the system alone, if that is more convenient for you.

Please call and let me know if it would be possible for me to do a field exam on your place this upcoming week, or if another time would be more convenient for you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Vikie Hancock', written over a horizontal line.

Vikie Hancock
Water Resource Agent

DISTRICT COURT-SRBA
TWIN FALLS, IDAHO

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA

Case No. 39576

) **Subcase 43-02237**
) **(Gochnour)**

) **SPECIAL MASTER REPORT**

Findings of Fact

Carla and Lane Gochnour, HC 72, Box 2360, Malta, Idaho 83342, filed an *Amended Notice of Claim to a Water Right* on June 5, 1989, claiming .4 cfs from Cemetery Spring for irrigation of 20 acres from April 1 to November 1 with a priority date of April 16, 1920, based on a license. The Director of the Idaho Department of Water Resources filed his *Director's Reports for Irrigation and Other, Reporting Area 7, IDWR Basin 43, Part I, Volume One* on September 28, 2001. The Director recommended the claim as filed for irrigation of 20 acres within an 84.8 acre place of use.

The Gochnours filed an *Objection* on January 14, 2002, objecting to place of use. However, on March 4, 2002, the Gochnours and IDWR filed a *Standard Form 5* agreeing to 20 acres within a 64 acre place of use.

Conclusions of Law

The Gochnours are entitled to a partial decree adjudicating a water right under 43-02237 as described in the *Standard Form 5* and the attached *Special Master Recommendation for Partial Decree for Water Right 43-02237*.

DATED April 16, 2002.

NOTICE OF ISSUANCE OF
SPECIAL MASTER'S
RECOMMENDATION

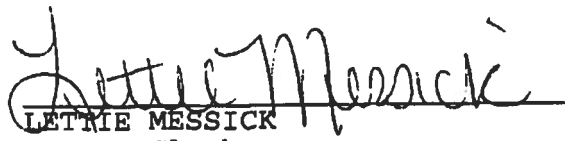

Water Right(s): 43-02237

On April 16, 2002, Special Master TERRENCE A. DOLAN issued a SPECIAL MASTER'S RECOMMENDATION for the above subcase(s) pursuant to SRBA Administrative Order 1 (AO1), Section 13a.

Pursuant to SRBA Administrative Order 1, Section 13a, any party to the adjudication including parties to the subcase, may file a Motion to Alter or Amend on or before the 28th day of the next month.

Failure of any party in the adjudication to pursue or participate in a Motion to Alter or Amend the SPECIAL MASTER'S RECOMMENDATION shall constitute a waiver of the right to challenge it before the Presiding Judge.

DATED April 16, 2002.

LETTIE MESSICK
Deputy Clerk

RE: Objection and Settlement for 43-2237

Dear Lane:

As discussed in our telephone conversation, I have enclosed for your use two forms used in the SRBA.

The Standard Form 1 Objection Form (objection form) will alert the court that there is a problem--however small--in the way IDWR recommended your water right. Please fill out the objection form, noting item D9 on page 2. In item E on page 2, the reason should probably be identified as a clerical error. The objection form needs to be notarized and the original sent to the SRBA Court before the close of the objection period on February 8, 2002. Please follow the instructions for mailing copies of the form found on page 4, the Certificate of Mailing. I have enclosed pre-addressed labels for your convenience.

The Standard Form 5 (sf5) is the standard settlement agreement form used to resolve objections. Please review the enclosed sf5 carefully, especially the description (recommendation) of your water right (page 2 of the sf5). If the information contained in the sf5 form meets with your approval, please sign the first page and initial the recommendation page. Both of you will need to sign and initial this form. Please return the sf5 form to IDWR in the envelope provided. After the objection period closes in February, IDWR will file the sf5 with the SRBA Court and send you a signed copy. If no other objections to your water right are received, your right will proceed to partial decree based on this corrected recommendation.

Should you have further questions on the recommendation of your right, please call me at 208-736-3033 or contact me through the e-mail address below. For questions regarding the objection or settlement process, please contact Vicki Kelly, Paralegal, at 208-327-5458. Thank you for your assistance in this matter.

Sincerely,

Vikie Hancock

Claim Nos.: 43-2237, 43-4083, 43-4084
Pursuant to Approved Transfer 67119

Dear Mr. and Mr. Gochmour:

The enclosed documents represent the above referenced claims in the SRBA after our records were updated pursuant to approval of Transfer No. 67119.

As you can see, the points of diversion and rates of diversion have not changed from the preliminary recommendation sent on May 14th. The place of use has been updated to the pivot location indicated on your Transfer Application.

Please notify me if you have any questions or concerns.

has requested a change to the water right(s) listed below. This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code. The authorized change for each affected water right, including conditions of approval, is shown on the following pages of this document. The right holder shall accomplish the authorized change within one (1) year of the date of this approval. Failure of the right holder to comply with the conditions of approval for each water right affected by this transfer is cause for the Director to rescind approval of all or part of the transfer.

Total Acres: 64

CONDITIONS OF APPROVAL

- Right 43-2237 is limited to the irrigation of 20.0 acres within the place of use described above in a single irrigation season.
- Rights 43-2237, 43-4083 and 43-4084 when combined shall not exceed a total diversion rate of 1.31 cfs, a total annual maximum diversion volume of 256.0 af at the field headgate, and the irrigation of 64.0 acres.
- A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
- After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
- This right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

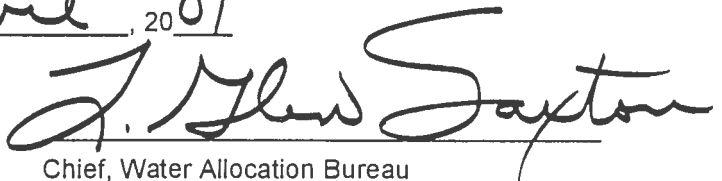

WATER RIGHT NO. 43-2237
As Modified by Transfer No. 67119

CONDITIONS OF APPROVAL

6. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
7. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
8. Pursuant to section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Dated this 27th day of April, 2001

Chief, Water Allocation Bureau

MEMO

FROM: Allen Merritt *AM*

DATE: June 6, 2000

TO: Transfer File No. 5699

Water Right(s): T43-02237
T43-04083
T43-04084

In the Name of: Lane &/or Carla Gochnour

SUBJECT: Review and Recommendation

This transfer proposes to change the place of use of three rights from three different sources that have historically been used to irrigate 65.5 acres. The new place of use will allow the rights to gravity feed a pivot and irrigate 64 acres. The historically irrigated land will be dried up and become dry land grazing.

SRBA has recently reviewed the rights and has prepared "R" records (See Hancock memo dated 6/5/00). The SRBA recommendation has limited the rights in rate.

The transfer was processed without protest.

Recommendation

I recommend that this transfer be approved subject to the following conditions:

- Limit rights consistent with SRBA recommendations.
- Measuring device and control work.
- May be under future control of Upper Raft River Water District 43-B and may be required to measure and report use as directed in the future by director.

Please note that I have received a copy of Approved Transfer 67119 concerning the enclosed water right claims 43-2237, 43-4083 and 43-4084. Unfortunately I received the Transfer too late to change this Preliminary Recommendation, so the enclosed documents represent your rights as they existed during my field exam. Your water rights will be modified according to Transfer No. 67119, and will appear as moved to Sections 22 and 23 when reported to the SRBA Court in our Director's Report. If you have any questions please don't hesitate to contact me here or to talk to me at the scheduled public meeting in Malta.

FIELD NOTES

DRAFT

CLAIM NO(S): A43-04084, A43-04083,
A43-02237

TWP 16S RNG 26E
Section 27, 26

RECOMMENDATION NOTES

From: Vikie Hancock

6/5/00

Regarding Claims:

43-02237 recommended for 0.40 cfs for irrigation of 20 AC on 35 acre PPU.

43-04083 recommended for 0.96 cfs for irrigation of 48 acres and 0.03 cfs stockwater

43-04084 recommended for 0.44 cfs for irrigation of 22 acres and 0.03 cfs stockwater

Recommendations for the above claims describe irrigation of a total of 65.5 acres in an overlapping place of use, with a combined total diversion rate of 1.31 cfs. See combined limit remarks. See GIS layout.

A field exam was conducted 6-17-1999 with the claimant present. I found water from Cemetery Spring (claim 43-02237) used over a 35-acre sloping area, but my recommendation is limited to the number of licensed acres. A beneficial use claim was not filed on the additional 15 acres, which overlaps an area also irrigated from Holt Creek (claim 43-04083). The quantity of water available from Cemetery Spring was not measured but it appeared to be about the diversion rate as licensed. Transfer #2225 changed the place of use of 43-02237 in 1978, but current usage is not totally consistent with the location identified by that transfer. Evidently a subsequent accomplished transfer of place of use of this right occurred prior to 1987.

The place of use irrigated by Holt Creek (43-04083) was found to be 48 acres. It entirely overlaps the place of use of Sandy Barnes Spring (claim 43-04084) and provides the greatest diversion amount of the three systems. The measured capacity of Holt Creek on 6-17-99 was 1.58 cfs. Sandy Barnes Spring had a measured capacity on 6-17-99 of 0.76 cfs. It irrigated 22 acres as identified on the GIS layout.

The entire place of use is in grass, as the current owner is a horse breeder and trainer. It is situated on foothills and the three sources flow to the acreage from the mountains to the south. Land to the north of Strevell Road, where the claimant wishes to transfer the water, is much flatter and would be more efficient to irrigate. The acreage dried up by the transfer would most likely still provide some forage as dry farm pasture. There is a discrepancy of 1.5 acres in the number of acres found currently irrigated and the number of acres identified in the application for transfer.

Affidavits and Homestead document in file substantiates priority date of 1920 on claims based upon beneficial use. In addition, late claim **43-11197** source

Sandy Barnes Spring, will be recommended for 0.04 cfs for domestic use in NENE section 27 and 0.10 cfs for stockwater use in NENE section 27, the SE $\frac{1}{4}$ section 22 and the SW $\frac{1}{4}$ section 23. Claim **43-07121** will be recommended as licensed for 0.01 cfs for stockwater use in SWSW section 23.

RE: Snake River Basin Adjudication (SRBA)
A43-02237, A43-04083, A43-04084, A43-07121

Dear Lane,

Here are the amended claims for you to sign, as we discussed during my second field exam on June 17th.

I amended the location of the *place of use* for the licensed based claim A43-02237 from Cemetery Spring to include 6.5 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26. The total acres and diversion rate remain the same.

I amended the *total diversion rate* of claim A43-04083, from Holt Creek, to 1.57 cfs, which includes 1.54 cfs for irrigation, and 0.03 cfs for stockwater. At this time, I have left the claimed number of acres in the place of use the same.

I amended the *total diversion rate* of claim A43-04084, from Barnes Spring, to 0.76 cfs, which includes 0.73 for irrigation and 0.03 for stockwater. (Please note, it appears that the original claim was data entered incorrectly and listed 0.3 cfs for stockwater, so I took this opportunity to correct the error). At this time, I have left the claimed number of acres in the place of use for this claim the same.

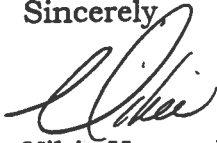

I located the claim for stockwater that you asked about last week. It is claim number A43-07121. It was originally filed for irrigation and stockwater, and based on a permit of the same number. This permit, filed by Fredricksons, was approved for the development of stockwater and the irrigation of 40 acres. It appears that the irrigation project was never completed, and consequently, the right was licensed for 0.01 cfs for stockwater only. My recommendation for this claim in the SRBA will be the same as it was licensed.

Please check these amended claims carefully. I also updated your address on all of them. If they are correct, sign, notarize and return them to me at your earliest convenience. I have also enclosed a draft of how your different claims come together and overlap on the total 65 irrigated acres. If you disagree with what I have, let me know. Now that I have the raw data for your claim, I will probably not get to all the final paper work

until later this fall. If you have any questions, or any information that you think will help me with the recommendation of your claims, let me know.

My regards to Crowbar.

Sincerely,

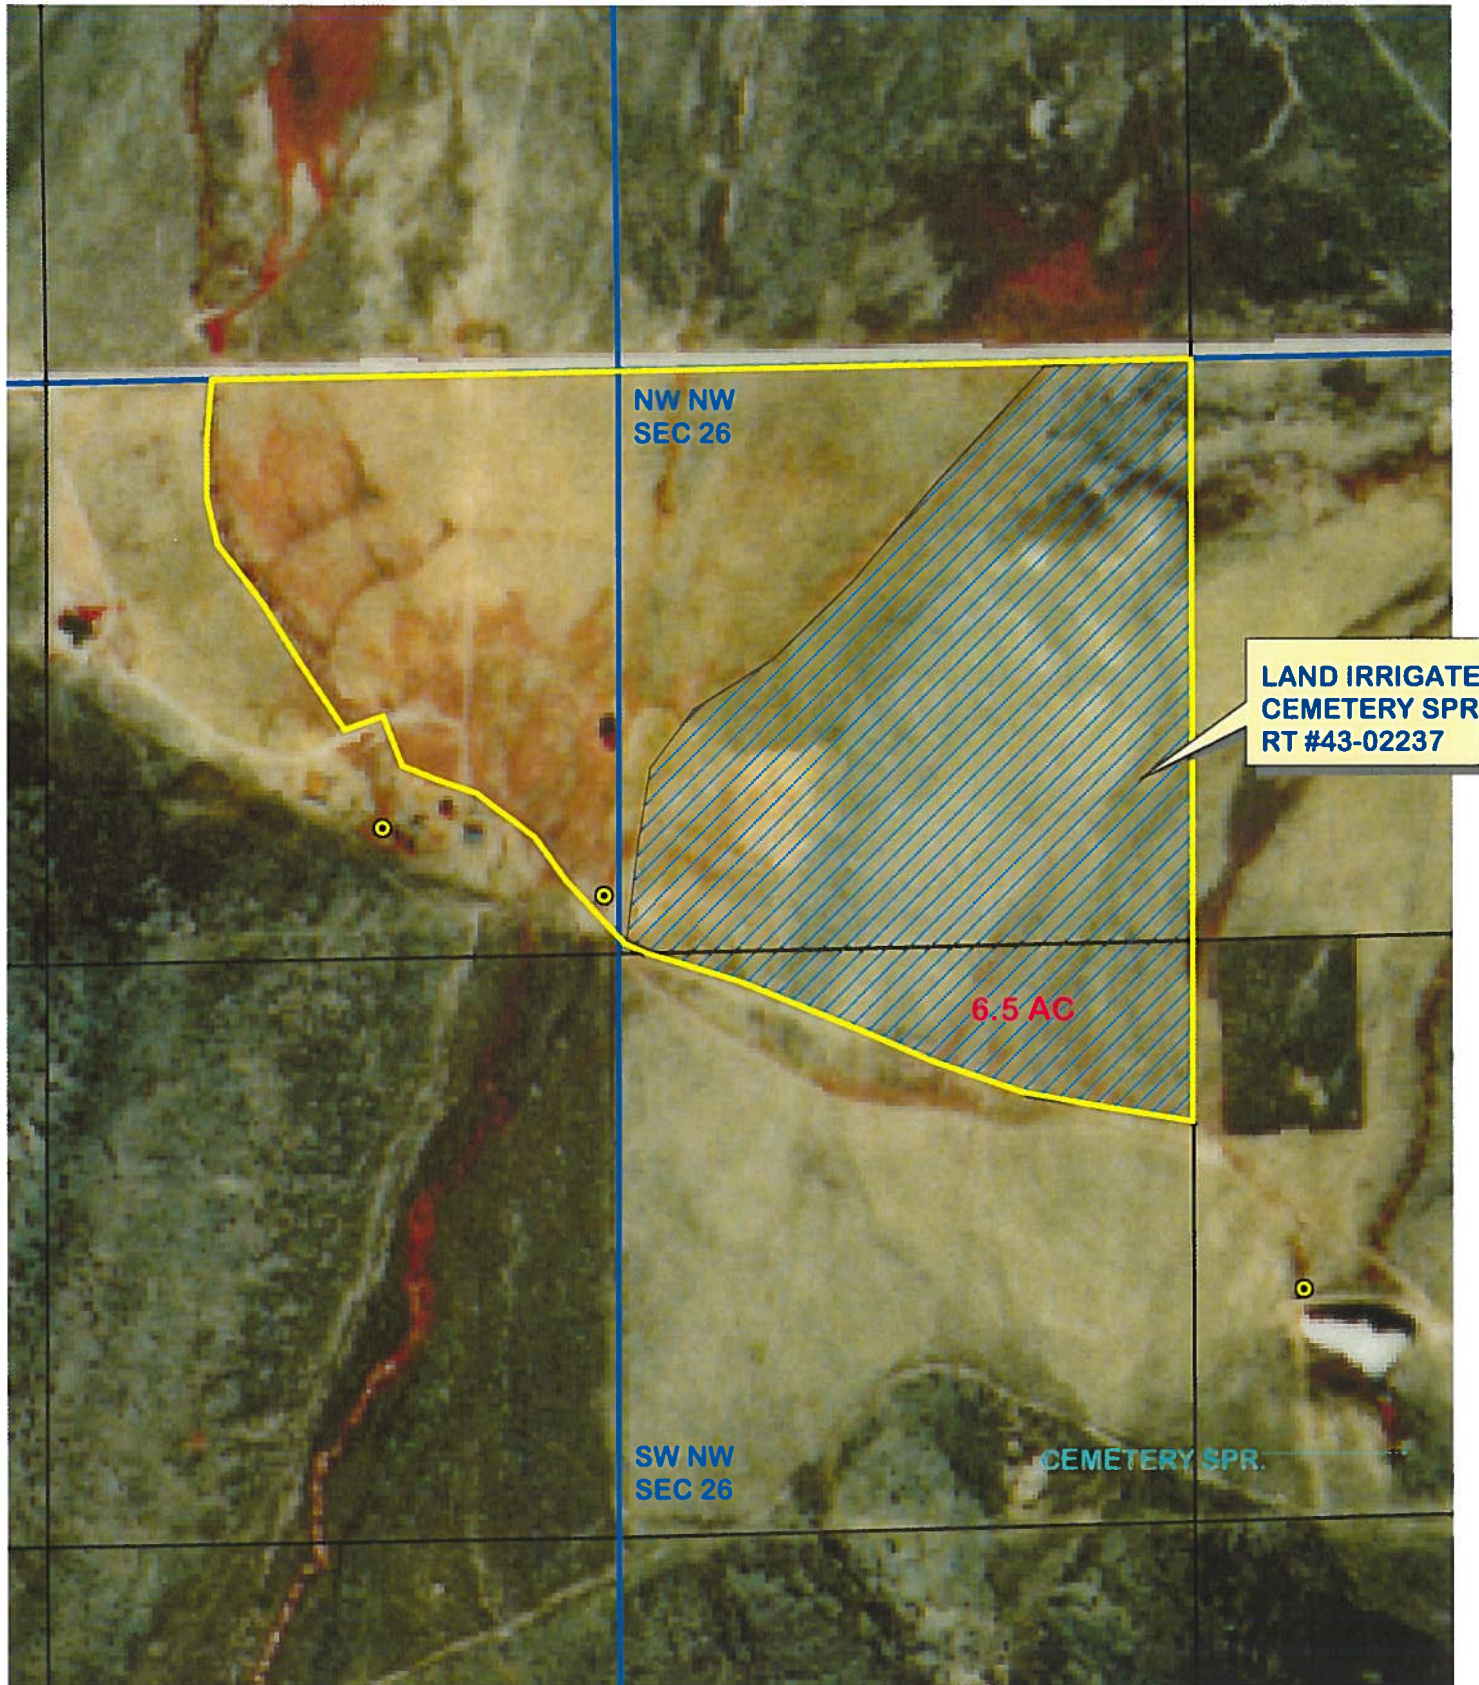

A handwritten signature in black ink, appearing to read 'Vikie Hancock', written in a cursive style.

Vikie Hancock

Field Exam Notes

**Claim No: A43-02237
LANE GOCHNOUR**

6/21/1999

Agent: Vikie Hancock

This claim is based on a license that was originally licensed to 20 acres in the SW NW of Section 26. In 1978, the prior owners of this property, (Frederickson) applied for, and were approved, a transfer of the entire right to the NW NW of Section 26. (Transfer #2235). This was accomplished by the construction of a pipeline from the cemetery spring pond into the NW NW of the section. When the adjudication claim was filed in 1989, this NW NW of section 26 was listed as the pou, however the conveyance means was listed as ditch, not pipeline.

My field exam in May and June of 1999 showed the current owner using a surface ditch from the cemetery spring pond to flood irrigate 6.5 acres in the SW NW, as well as acreage in the NW NW section 26. I asked Mr. Gochnour about the supposed transfer of water from the SW NW to the NW NW and the existence of a pipeline. He stated that when he purchased the property in 1996, the diversion works from Cemetery spring were just as I saw them today, and looked like they had been in use for a number of years. He said that the prior owners hadn't mentioned a pipeline, and he didn't even know of the existence of a pipeline until he had owned the property over a year, and accidentally uncovered it over by Holt Creek. He said it appeared to be plugged, and he had no intention of unplugging it and using it.

It is reasonable to conclude that, although there was probably a pipeline that once conveyed the entire right from Cemetery Spring to the NW NW of section 26 - as approved in transfer #2235 - by the time the adjudication commenced, and claims were filed, the pipeline was non-functioning, and the irrigation ditch works looked similar to what I found during my field exam. At the time of filing, the place of use would probably have been more accurately described as located in both the SW NW and NW NW of Section 26.

Unless contradictory information is found, I believe that this right can be recommended appurtenant to land in the SW NW and NW NW of section 26 under the accomplished transfer statutes. Mr. Gochnour wishes to amend his claim to accurately reflect the place of use.

FIELD EXAM NOTES AND PHOTO LOG

Claim Nos: A43-02237, 04083, 04084

Name or Area of Concern: Gochnour

Page 2 of 2

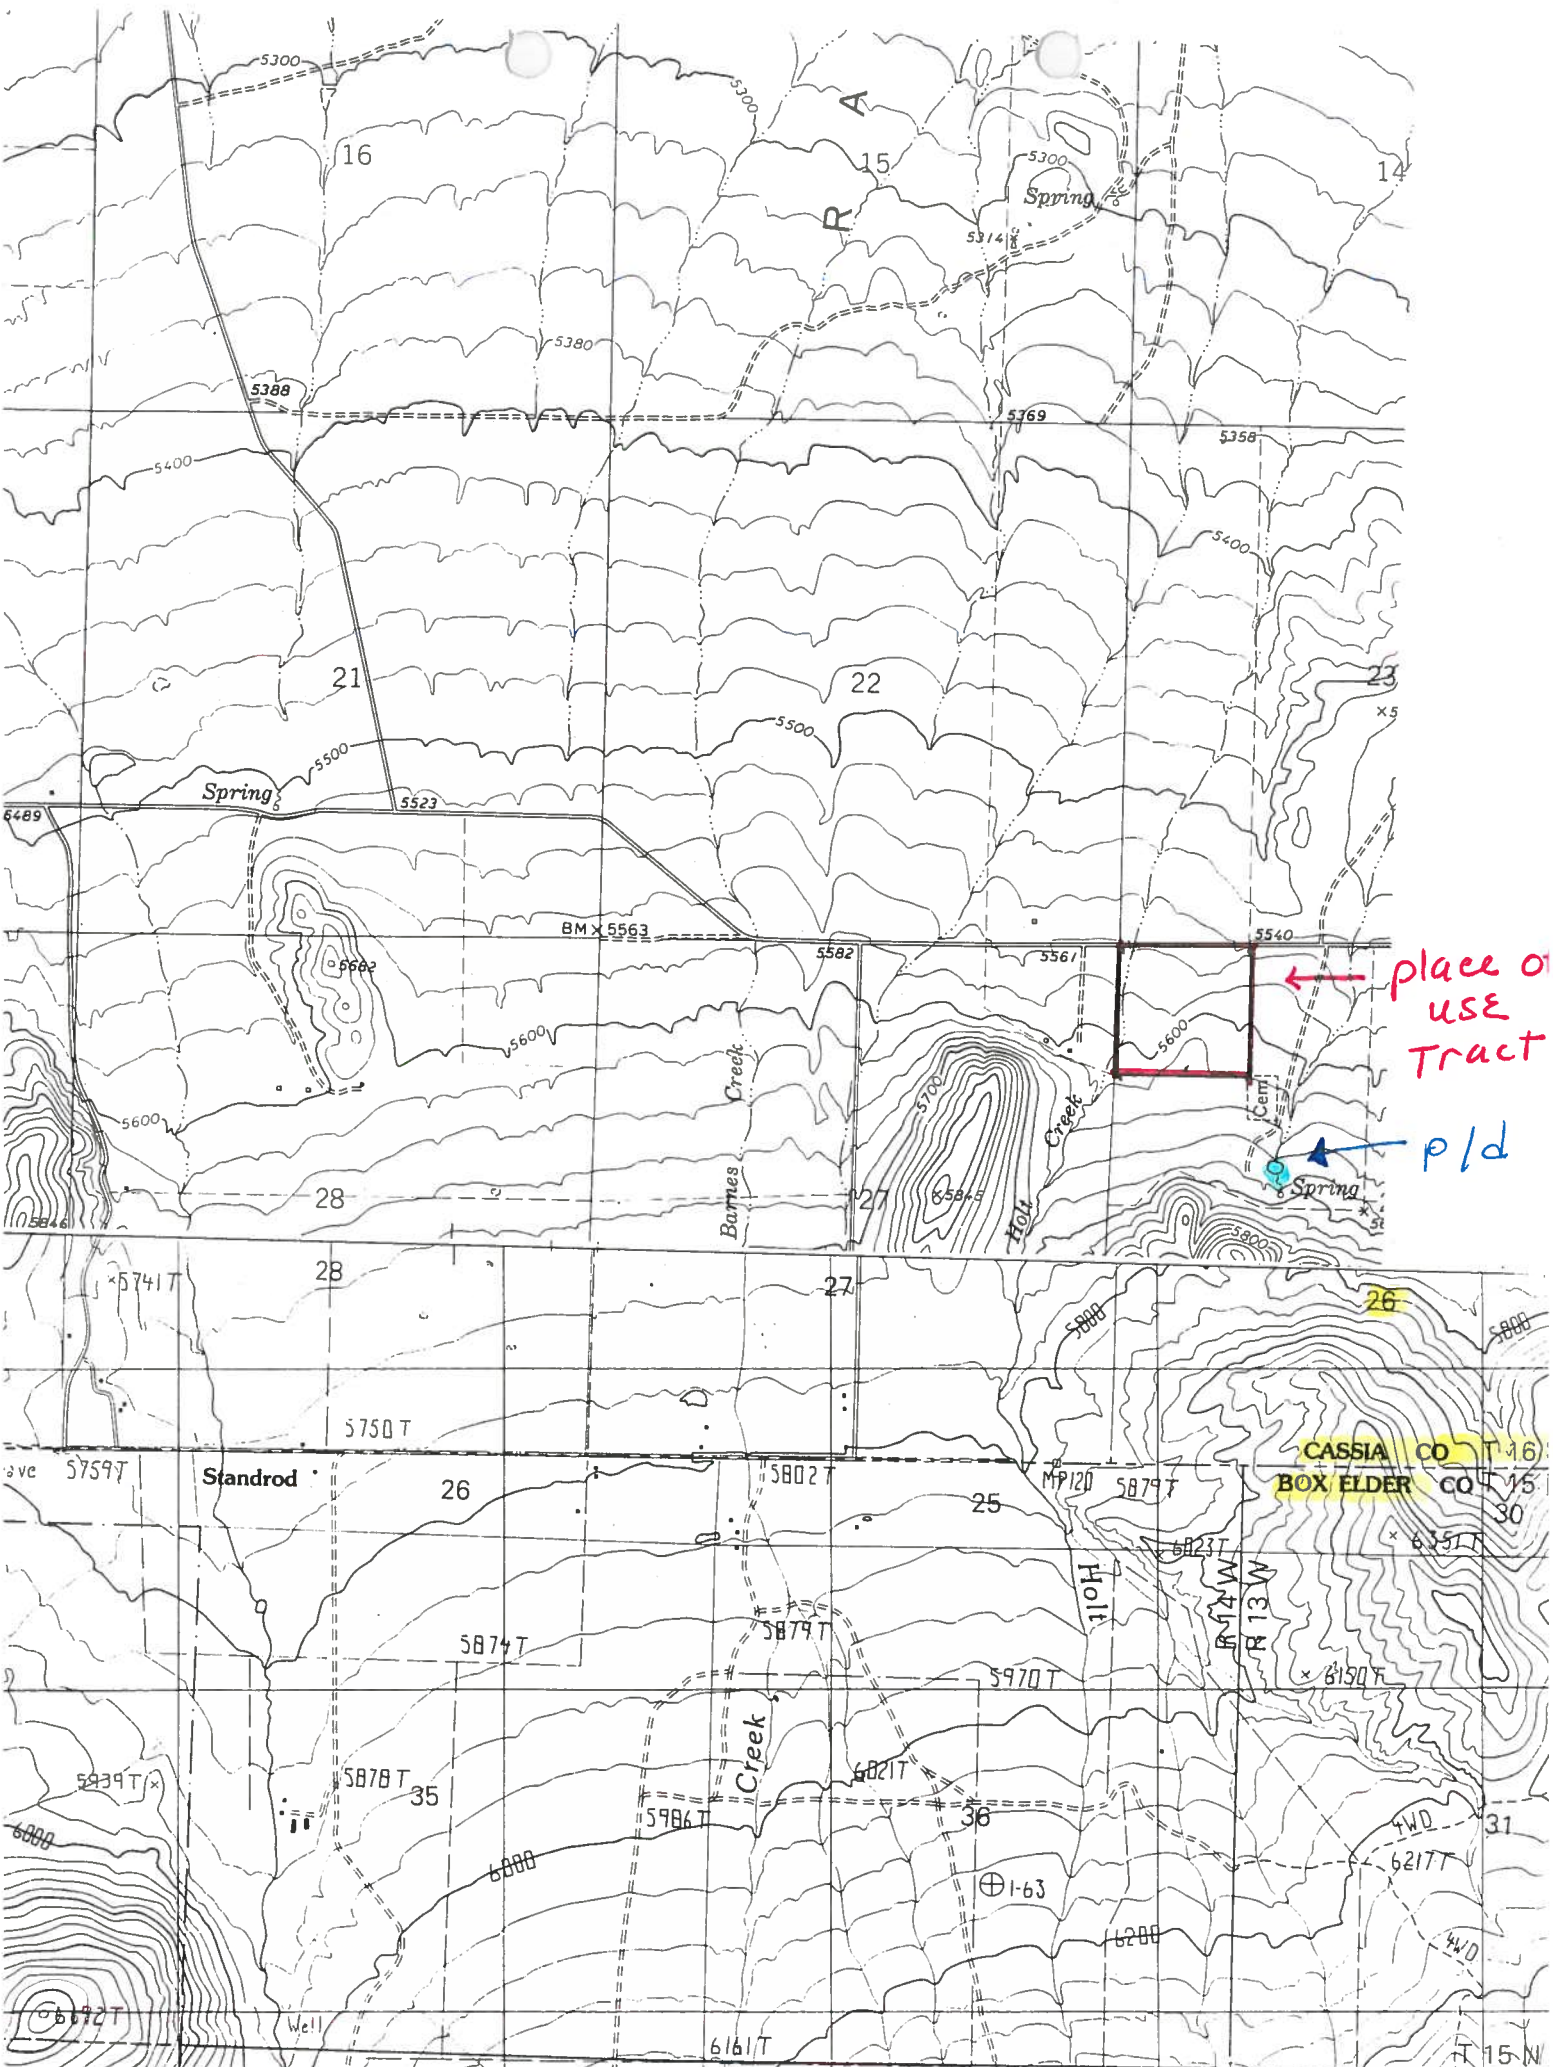

1999

Date	Roll	Pic #	Description
5/27	6	8	GPS TAG looking toward spring (see white dog)
		9	GPS TAG - pond in background
		10	Spring
		11	} NW from Spring
		12	} "
		13	Reservoir
		14	Outlet from Reservoir - conveyance to pond

Notes: Cont'd.

Top of Ridge and irrigates East & West from there. Also, water floods toward road from top ditch transversing roughly west, Northwest from Pond. Claimant said all waters mingle on West side of Ridge. He also noted that the irrigated acres should extend into the SW 1/4, however the Transfer done by the previous owner moved the entire right to the NW 1/4.

It did appear close to me that there had been significant effort expended to get water to all of his ground that is in pasture. Mr. Gochnour asked if he could ever change his system and put gravity fed sprinklers ~~on~~ on the ground north of Stravel Rd which he feels could be more efficiently irrigated. I explained that an allocations agent could work with him in transferring the water and that there were several options - from drying up his current irrigated acres to mitigation, etc.

License and Certificate of Water Right

Water License No. 24656

Amount **0.6000** g

THIS IS TO CERTIFY that William J. Barnes
of Stanrod, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated April 26, 1920; that Permit No. 14686
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.6 second feet, was issued thereunder on March 29, 1921, showing that said works
were completed on the 9th day of February, 1921; and that on the 20th
day of April, 1921.

William J. Barnes
of Stanrod, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of a spring
, a tributary of -----, for the purpose of irrigation
& domestic, under Use Permit No. 14656 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of
Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in
Volume 6 of Records, at page 2940, on the 25th day of May, 1925.
The right hereby confirmed dates from April 18, 1920.

The Point of Diversion is located
in the SW 1/4 NW 1/4 Sec. 26, Tp. 16 S. R. 26 E.
County of Cavalia, N. M.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 0.4 cubic feet per second.

Description and location of use:

Tw ^{51.9}	Range ^{52.9}	Sec.	Forty-acre Tract ^{53.9}	No. Acres Described in Permit	No. Acres Actually Irrigated
16 N.	26 N.	24	NW ^{54.9} SW ^{55.9}	25 15	20 20.00

The right to the use of the water aforesaid heretofore confirmed is restricted to the lands or place or uses herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
 this 29th day of May, 1922.

H. O. BURNHAM
Commissioner of Reclamation

TOTAL ACRES: 68.5 N/A ()

REVIEWED BY: [Signature] DATE: _____

A. AS CLAIMED USES:

PURPOSE OF USE	PERIOD OF USE (MONTH/DAY)	FROM	DIV. RATE FOR EACH USE	DIV. VOL. FOR EACH USE
A43-02237 IRRIGATION	FROM 04-01 TO 11-01		0.400 CFS	
TOTAL DIVERSION RATE/VOLUME			0.400 CFS	

B. WR RECORDED USES:

PURPOSE OF USE	PERIOD OF USE (MONTH/DAY)	FROM	DIV. RATE FOR EACH USE	DIV. VOL. FOR EACH USE
43-02237 IRRIGATION	FROM 04-01 TO 11-01		0.400 CFS	
TOTAL DIVERSION RATE/VOLUME			0.400 CFS	

C. DOES THE CLAIMED PURPOSE OF USE CORRECTLY DESCRIBE THE WATER USE?

Y() N(☒)

D. IS THE CLAIMED PURPOSE OF USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y(☒) N()

* IF NO, AND IF THE ACTUAL WATER USE IS VERIFIED AS AN ACCOMPLISHED CHANGE IN PURPOSE OF USE, DESCRIBE THE INQUIRY ANALYSIS PERFORMED AND ENTER FLAG "C" WITH THE APPROPRIATE EXPLANATORY CODE.

E. SHOULD THE CLAIMED PURPOSE OF USE BE VERIFIED BY FIELD EXAM?

Y() N(☐)

F. DOES THE CLAIMED PERIOD OF USE CONFORM TO IDWR STANDARDS?

Y() N(☒)

G. SHOULD THE PERIOD OF USE BE RECOMMENDED TO IDWR STANDARDS?

Y(☒) N()

* IF THE RECOMMENDED PERIOD OF USE IS DIFFERENT THAN IDWR STANDARDS, EXPLAIN IN NOTES BELOW.

H. IS THE CLAIMED DIVERSION RATE FOR EACH USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y(☒) N()

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION RATE FOR EACH USE WAS DETERMINED.

I. SHOULD THE CLAIMED DIVERSION RATE FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A() Y() N(☒)

J. IS THE CLAIMED DIVERSION VOLUME FOR EACH USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION VOLUME FOR EACH USE WAS DETERMINED.

K. SHOULD THE CLAIMED DIVERSION VOLUME FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A() Y() N()
