Re: 94-7766

Dear Mr. Herbolt:

We are returning your Notice of Claim. The date of priority is listed as September 27, 2010. When a new diversion of surface water, such as Sheep Creek, is started after May 20, 1971, an appropriation permit had to be obtained first. The date of priority is the date the water was first used regardless of who owned the property. If the priority date of your claim is incorrect then you can correct the date and return the claim to our office. If the use of water was started after May 20, 1971, then an application for a permit to use the water needs to be filed.

The use of water from a well for domestic and/or stock water use does not need an appropriation permit. The priority date is the date the water was first used from the well. Surface water and groundwater cannot be included on the same claim, so two claims need to be filed to record each water right.

Sincerely,

Kenneth Knoblock
Water Right Supervisor
