WERE INCLUDED WITH THIS LETTER.
COMMENTS REGARDING RECOMMENDATIONS
FOR DISALLOWED RIGHTS, COMBINATION
LIMITS, AND CONVEYANCE LOSS LIMITS
WERE INCLUDED ON THESE PRINTOUTS.
THIS INFORMATION WAS OBTAINED
FROM THE EXISTING "R" RECORDS.

Dear Mr. Lawler:

C. SKINNER

Pursuant to your recent request, I have researched the Department's records concerning water rights and claims for water out of Fourth of July Creek. I have included computer printouts that list the old original water right decrees, licenses, and statutory claims with their respective owners and amounts. In addition, I have enclosed computer printouts that list the various Snake River Basin Adjudication claims that have been filed, along with the claimant and the amount of water claimed.

I have attempted to clarify some of the information on the computer printouts regarding the Snake River Basin Adjudication claims. For example, the initial adjudication claims have all been highlighted in pink. These particular claims are the statements filed by the claimants describing their water right.

As part of the Snake River Basin Adjudication, our Department is required to review all of these initial adjudication claims. Upon the Snake River Basin Adjudication court's request, and after reviewing these claims, our Department will make a recommendation to the court on these adjudication claims. If no objections to the recommendation(s) are made, the court will eventually decree the water right(s). However, if objections are made to the recommendation(s) by the claimant or other parties, and the objections can not be resolved, the court will eventually make a decision and then decree the water right.

July 25, 1997

PAGE 2

Representative(s) from our Department have started the review process on the adjudication claims filed on the water out of Fourth of July Creek. Based on the Department's initial review process, enough information has been gathered to create some preliminary recommendations on these adjudication claims. I have highlighted these preliminary recommendations in blue on the enclosed computer printouts. It should be noted that these preliminary recommendations may be subject to additional revision(s) before final Department recommendations are filed with the Snake River Basin Adjudication court.

Final recommendations to the court have been made on some of the claims for water out of Fourth of July Creek. These final recommendations are highlighted in green on the enclosed computer printouts.

Please note that I have written several comments regarding some of the claims and preliminary recommendations on the enclosed computer printouts.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "Corey Skinner". The signature is fluid and cursive, with a horizontal line extending from the end.

REMARKS:

The PD is deemed if claimed does not presently serve the Howard Springs (Fung-Bicia) Ranch. It appears that at one time water was diverted here been diverted and water allowed to flow from the plateau above on to the steep side slopes of ranch land below by gravity to the Howard Springs ranch but this practice has since

and water is now diverted from 4th of July Ck. from the PD is Sec 9 SESSSW T08N, R14E. The steep slopes are presently watered from natural seeps & wastewater occasionally ~~spill~~ spilled from above. (71-10107) This change in irrigation practice occurred in the 70's when a landside occurred on the steep slope. Since that time they have tried to keep the water off the slope.
