Chief, Natural Resources Division
Office of Attorney General
PO Box 44449
Boise, ID 83711-4449

Signature of objector or attorney
mailing on Objector's behalf

Dept. of Water Resources:

We would like to reopen the adjudication hearing on the water license 18478, dated 7-2-1937.

It has come to our attention that the person who adjudicated this license was not familiar with the property and apparently did not realize that our water rights were out of Elk creek and Spanish Fork Creek was only used to deliver the water and of course the use of the run off until the creek went dry , which was normally in the latter part of June or 1st of July. The point of diversion was on Elk Creek and I have included the original maps and Engineers report, dated October 12th, 1941. I have also included a map and engineers report dated June 8th, 1949 which has the same point of diversion out of Elk Creek for Power for Sawmill and mining.

There is a note in the file from Mr. Sexton of the adjudication committee that he had visisted with Irene Victory who told him that the use had not been uses in 50 years. The mill was actively cutting timber in 1962, Mr. Packer had used the power and water continuesly for 60 or 70 years, until his death in 1962. Irene was ill at this time and had no idea of when, where or who used the water and for what.

Mr. Sexton had talked to Larry Morris and Alice Culver several times and was well aware of (or maybe should have been) of the continued mining by Sluice box and use of the water by the inhabitants of our property. Please keep in mind that Spanish Fork goes dry, early in the season and the only water we have is out of Elk Creek, which is the point of our diversion.

I have included a letter from the Dept. of Water Resources, that still viewed our water rights as Spanish Creek of Elk Creek. I have enclosed a copy.

We as a family and the owners of the property had no idea that you were taking away the point of access for our water until Larry applied to have the point of access moved from its present location to a little ways south for easier access for him to pump it up over the hill to again join Spanish Fork.
