Re: Motion to file late Notice of Claim 79-4404

Dear Claimant,

The Idaho Department of Water Resources (IDWR) has received a copy of the Motion to File Late Notice of Claim with the Snake River Basin Adjudication (SRBA) court.

Initial review does not indicate that a completed claim was submitted with along with the motion. Along with the motion you submitted, you need to submit a completed claim so the SRBA court knows what you are claiming as your water right.

For your convenience, I have enclosed a completed claim. Because water right record 79-04404 is on the IDWR database, I just copied the information from the water right record to the SRBA claim. Therefore, the enclosed claim reflects the same water right elements as claimed in the original statutory claim filed in 1983 (enclosed).

Please look over the claim and initial any changes you wish to make. When satisfied, sign the claim and submit the original to the SRBA court and copies to the parties identified on the "Certificate Of Mailing" (page 6 of the enclosed copy of the motion).

In addition, please submit a map showing the location of the point of diversion (spring) and the place of use. If you aren't sure where to get a map, you can print pretty good maps off of Google or Bing maps for free. You could then just mark in the place of use and point of diversion on the map and submit it with the claim.

Please feel free to contact me with any questions.

Respectfully,

Craig L. Saxton
Water Rights Supervisor

Enclosure(s): Notice of Claim to a Water right 79-4404
Copy of Motion to file late Notice of Claim 79-4404
