SUBJECT: REVIEW & RECOMMENDATION

The transfer proposes to combine six licensed water rights which represent 505 irrigated acres and divert the rights out of a common diversion system which connect three irrigation wells. The common system serves irrigation of 622 acres. In essence a permissible place of use is proposed to be created. The additional 114 acres are covered by SRBA expansion claims not part of this transfer. The original rights were individually diverted out of separate wells.

Recommendation

I recommend that the transfer be approved with the following conditions:

- To prevent expansion these rights should be limited to a total of no more than 505 irrigated acres in any one season within the 622 acre place of use.
- The rights are subject to SRBA review.
- Measuring devices must be installed at all points of diversion.

Re: Application for Transfer No. 4585

Dear Applicants:

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office has scheduled advertising the application in the South Idaho Press for 4/10 & 4/17/95. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Before we can forward your application to our state office for approval we must include in the file evidence of ownership of the land to which the water is appurtenant such as copies of deeds, tax records, etc. and a notarized statement from any lien holder on the property agreeing to the proposed change.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

SUBJECT: Thayne Buck App. for Transfer

This property is in the Raft River Critical Groundwater Area. It has been visited by SRBA staff; P/D & P/U were verified, but wells were not measured. All of the land except for maybe a couple of small corners is presently under irrigation. I do not plan to visit this property, as it would only duplicate SRBA work.

There are 505 licensed acres on this farm, but the transfer seeks to legalize irrigation on 622 acres. Claim A43-10366 covers the expanded acres, but is very suspect at this point due to CGWA restrictions. Until this claim becomes a water right, the existing rights should be limited to 505 acres per annum in order to avoid an illegal expansion.

The irrigation season is 4-1 to 10-31, not the old season as shown on the transfer. If approved, transfer should reflect the correct period of use.

SUBJECT: Thayne Buck App. for Transfer

This transfer should be denied, as it represents a blatantly illegal expansion of groundwater use in a critical groundwater area. Claim A43-10366 covers the expanded acres. There are 505 licensed acres on this farm, but the transfer seeks to legalize irrigation on 622 acres. Until the SRBA claim is decreed, these rights should be limited to 505 acres of irrigation per annum within either the licensed tracts or within the PPU proposed on the transfer (if transfer IS approved).

SRBA staff has verified the PD's and PU on this farm, but was not able to measure the wells last year to determine pumping capacity. I do not plan to visit the property again. All of the land except maybe a couple of small corners is presently under irrigation.

The irrigation season is 4-1 to 10-31, not the old season as shown on the transfer. If approved, transfer should reflect the correct period of use.

RE: SRBA CLAIM NO. A43-02313B

DEAR CLAIMANT:

Pursuant to the approval of Transfer No. 4585 and notification that you presently own a portion of the property in which the above referenced adjudication claim is appurtenant, the Department has split the claim and changed the record of the original owner (HARPER) to A43-02313C, and the record of the portion that you purchased to A43-02313D. Please find enclosed a copy of the computer generated claim noting the changes.

Since this Transfer also amended claims A43-02340, A43-02343, A43-02345, A43-02364, and A43-02365, I have amended these claims and enclosed copies for your records.

Please review the records and if you have any questions or corrections, notify this office.
