Dear Sirs:

I have enclosed a copy of my receipt
for payments I have already made
during the Fosha-Dunn adjudication.
36782 \$1256.00

The amount for the S.R.B. adjudication:
acres $80 + 240 + 318 + 160 + 256 = 1054$

1054 acres X 1.00 = 1054.00

5 claims X 50.00 = 250.00

1 domestic X 25.00 = 25.00

amt. due \$1329.00

\$ 1329.00

- 1256.00

\$ 73.00 bal

I have enclosed a check for
this amount

MEMORANDUM TO FILES INVOLVED WITH IDAHOME ADJUDICATION CLAIMS

07-Jul-1989 10:00

From: Allen Merritt

The Idahome claims were initially taken in the Fosha vs. Dunn court case and then entered into the SRBA. Those claims in the Fosha vs. Dunn were the following:

A43-02506 A43-02350 A43-02349 A43-02346F A43-04230

The fees paid for the above claims totals \$1256.00 and recorded under voided receipt C001944. (original money receipted on paper, C001944 created to move claims to host)

In response to the SRBA the following claims were entered:

A43-02506 A43-02350 A43-02349 A43-02346C A43-10478 A43-10479

The total fees for these claims is \$1329.00

The \$1256.00 was credited and \$73.00 difference was receipted under S008100.

Note that A43-04230 was not claimed in the SRBA, also A43-02346F was replaced by A43-02346C.

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

MEMORANDUM

To: Files: Idahome Farms Inc.
From: Helen Harrington-Thornton^{HAT}
Date: February 17, 1993
Subject: Background

=====

Five claims were originally filed in the Fosha vs. Dunn Adjudication:

A43-02349
A43-02350
A43-02346F
A43-02506
A43-04230

These claims were reviewed by Adjudication Staff in 1985/86, with proposed recommendations completed (see memo describing claim file materials for Fosha vs. Dunn claims). Subsequently, Idahome Farms Inc. filed claims in the SRBA under the same numbers. (The exception being A43-02346F, which was filed in the SRBA as A43-02346C). Additionally, an expansion claim, A43-10478, was filed.

The refiling of claims in the SRBA has resulted in several changes which I have determined need additional review before final recommendations are made. Specifically, the claims filed in SRBA for A43-02349 and A43-02350 claimed different places of use than the original claims under these numbers, thereby voiding (to at least some degree) the proposed recommendations made in 1986.

I have compiled several maps and additional information to assist in the review of the above listed claims. These materials can be found in the file A43-02349. The maps include the acres claimed based on the most recent claim; the acres licensed/claimed on the original records; and a map of the proposed recommended acres based on the reviews done in 1985/86.

Additionally, landsat data from both the original review and 1987 MP acres from the computer. These are related specifically to A43-02350 and A43-04230 and this information is in file A43-02350. I did not finish this review because I question the proposed recommendation regarding the number of acres in each quarter-quarter. The SRBA claim for A43-02350 changed the POU and therefore these recommended acres should be re-reviewed prior to final recommendation.

There should be a general "Fosha vs. Dunn" file which will either be held by Don Shaff, Allen Merritt, or Loren Holmes. This file will contain the original maps, landsat data and other memos and material developed during the initial review of the claims conducted in 1985/86.

MEMORANDUM

To: FILES

From: Helen Harrington-Thornton

Date: ^{Feb. 17}
~~January~~ 22, 1993

Subject: Claims Originally Filed in Fosha vs. Dunn Adjudication
=====

This claim was originally filed in the Fosha vs. Dunn Adjudication which has subsequently been consolidated with the SRBA. Claimants in Fosha vs. Dunn were not required to file a new claim in the SRBA. In some cases, however, claimants may have filed an amended claim in the SRBA.

The original claims consist of both an original white copy with the original signature and a yellow carbon. Both of these form must be retained in the IDWR files. The original form included a green carbon which is the claimant's copy. As stated above, there may also be an amended claim.

The review of this claim initially occurred in 1985/1986 by IDWR Adjudication staff. The review process included field examination by IDWR Southern Region Staff (Loren Holmes and Allen Merritt) in 1985 and additional review by IDWR State Office staff (Don Shaff, John Noyes and Forrest Luthy). The claim review documents include:

- // ~~Final recommendation~~ - shown on zeroxed copy of claim, with recommendation shown in RED
- // Adjudication Claim Analysis Sheet (consider this a replacement for the currently used Claims Verification Report (CVR))
- // Map
- // Correspondence, Memos to File, etc.
- // Zerox of original receipts (this is because the original receipt was hand written, prior to the computer receipting). However, in most instances, a voided receipt has been created in the computer in order to update the record to the Host Master.

I have reviewed the claim at this time in order to evaluate the completeness of the original review and have it meet current standards. I have ^{NOT} created an R record and ~~verified the recommendation when possible~~. Generally, the review is based on information available at the time of the original review in 1985/86. Unless there is a discrepancy, additional information of more recent origin has not been added to the review process.

RE: 43-4230, 43-2346F, 43-2349, 43-2350, 43-2506

Dear Mr. Parr:

Your copies of the Claims to Water Right in the Fosha vs. Dunn case are enclosed. Although the staff in Twin Falls office did most of the investigative work and received your claims, the Adjudication Bureau here will prepare the report in the nature of a proposed finding that will be sent to the court. Please refer to the I.D. numbers when communicating with this office.

Three (3) original claims are enclosed for your review, and possibly for you to sign and submit. The reason for more claims is only one water right (one priority date) may be claimed per form. Some research may be necessary before submitting these claims because the priority dates (with one exception that is explained below) and points of diversion correspond to other water rights represented by licenses.

Well No. 1 (SESW, Section 29) is described on 43-4230 and 43-2506/29174 (new number, old number order). This well was apparently completed September 11, 1958, but the first use was not until June, 1, 1965 according to the proof submitted by Clarence Parr on December 9, 1965. As far as using the water for the permit to develop the water right into a license (43-2506), these dates do not create a problem. This may not be true for the use right claimed on 43-4230.

Being in a critical ground water area, you are probably well aware of the permit statute that cut off any use rights as of March 25, 1963. Section 42-229, Idaho Code, does provide some leeway for water rights initiated before the effective date of the law. What that leeway will require of you, however, is submitting extensive proof as

MICROFILMED

to development dates of the use of the well, dates of irrigating the land claimed (W1/2, S. 33) and affidavits of intent by the users and witnesses to the activities of those users. Copies of receipts for equipment, seed or the like would be helpful also.

Well No. 2 (SENW, S. 32) is described on 43-4230 and 43-2349/21540. This well was first drilled in 1957. The first records of the use of the water from this well indicate April 7, 1959, but this use is known only for the lands of 43-2349. Here again, proof would be required to show when water was used on the W1/2, S. 33.

Well No. 3 (SESE, S. 32) is also described on 43-4230 and 43-2349. This well was first drilled in the spring, 1955, and its known use is similar to Well No. 2.

Well No. 4 (SENE, S 32) is claimed on 43-4230 and 43-2346F/21512 part. The proofs for the permit indicate the use of the water on the permit lands may have coincided with the development of the wells in May, 1954.

For each of the wells, the priority date claimed corresponds to the priority date for the water license related to that well. The priority date for a water right based on a license normally is tied to the lands described on that license only. Had the intent of a water right applicant been to also irrigate the W 1/2, S. 33, those lands would have been included in the permit filing. Otherwise, the priority date for these lands are later than the licenses and dating from the first use of the water from each of the wells on this Section 33 land.

For each claim you agree to submit, please write the priority date you are claiming for that well in Item #1, sign the claim having your signature notarized and return with a \$50 filing fee for each claim to this office, or Twin Falls if you prefer. You have paid the use fee for the lands when you submitted the earlier claims.

Thank you for your assistance in this adjudication of water rights. Please contact this office if you have any questions about the proceeding.

Sincerely,

DON SHAFF
Water Rights Supervisor

this well was drilled
by Clarence Huggins many
years ago. It was
150 ft. of 30" I.D. pipe
that was capped and
the water table was
constructed. It was
to be perforated from
90' to 110'. The hole
was drilled down at that
time to a depth of 265'
but no casing was put
in the bottom. It finally
filled up to 15 ft. from
the surface.
It could not drill
this hole out without
putting in pipe. The
hole material was
nearly straight gravel.
We installed 113' of 3"
x 18" O.D. factory perforated
casing with 1/4" slot.
Sewer shop on top of main
pipe on the bottom. Bottom
13 ft. not perforated.
Below a hole on top of
3" x 18" O.D. pipe when
necessary with a 30" bit
top of liner at 150 ft.
Bottom at 263 ft.

Dear Mr. Hunt:

Permit No. 21541 is the name of Cherokee Mining Certificate of Completion of Work was issued May 29, 1955 for 6-in. c.f.g. from two wells, 21541, Sec. 22, T. 11 S., R. 27 E., to irrigate 21542, Sec. 22, T. 11 S., R. 27 E. The field engineer measured flow of well in 21541, Sec. 22, as 157 cfs at 100 ft on May 16, 1956. Proof of beneficial use of the water is due April 9, 1957.

Permit No. 21542 is the name of Cherokee Mining Certificate of Completion of Work was issued May 29, 1955 for 6-in. c.f.g. from well in 21541, Sec. 22 to irrigate 21542, Sec. 22, T. 11 S., R. 27 E. Proof of beneficial use of the water is due April 9, 1957. We do not find a record of measurement of well production. This permit originally showed wells in 21541, 21542, Sec. 22, however the points were moved to one point as shown above.

We find no other permit showing point of diversion from 21541, Sec. 22, T. 11 S., R. 27 E.

Enclosed are two forms for assignment of permit.

Attention: Mr. Ralph W. Thomas,
Deputy State Reclamation Engineer

Dear Mr. Thomas:

Thank you very much for answering our letter of April 21, as has to do with our processing of a loan to Mr. Kenneth T. Henderson. I have more accurate information at this time, which is as follows, as to the location of the wells:

- Well #1 - SE₁ of the SE₁, Section 32, Twp. 11 S., R. 27 E.
- Well #2 - SE₁ of the NW₁, Section 32, Twp. 11 S., R. 27 E.
- Well #3 - SE₁ of the SW₁, Section 29, Twp. 11 S., R. 27 E.

We would appreciate any information you may have on these wells, especially, the amount of water they are reported to be producing, the depth from which they are pumping; also, we need to know the application number or the permit numbers and the amount of water allotted to each well.

We note that you say that these wells are not in Mr. Henderson's name. Mr. Henderson informs us that he bought this property in April of 1955 from Mr. Clarence Bishop, and that the wells were drilled in 1955, and 1957.

Thank you very much for your time and cooperation.

Sincerely yours,
