RE: 43-2346A, 43-2351, 43-2476A

Dear Mr. Harper:

Your copies of the Claims to a Water Right in the Fosha vs. Dunn case are enclosed. Although the staff in the Twin Falls office did most of the investigative work and received your claims, the Adjudication Bureau here will prepare the report in the nature of a proposed finding that will be sent to the court. Please refer to the I.D. numbers when communicating with this office.

An original claim is enclosed for your review and possibly for you to sign and submit. On the claim that is identified with 43-2346A, the land in sections 28 and 33 were claimed with the same priority date. As shown in Item 9C of the original claim, this land is covered by two parts of an initial permit. The land in Section 28 is covered by wells with a priority date of December 26, 1958; Section 33 with March 2, 1950. Each priority date represents a different water right. As such the enclosed original claim should be submitted. If you agree, please sign the claim form having your signature notarized and return with a \$50 filing fee to this office or Twin Falls if you prefer.

Thank you for your assistance in this adjudication of water rights. Please contact this office if you have any questions about the proceeding.

Sincerely,

DON SHAFF
Water Rights Supervisor

RE: 43-2351

Dear Mr. & Mrs. Harper:

On the adjudication claim referenced above, you claimed a domestic well in the NWE, Section 33. This appears reasonable with regard to the property you own. Unfortunately, the well driller's report (copy enclosed) for your domestic well described the location in the NWNW, Section 33.

If the well log is incorrect, please notify me confirming the error. If you also have a well in the NWNW, Section 33, an adjudication claim for this well should be filed.

Please contact me if I have created questions for you instead of answers.

Regards,

DON SHAFF
Water Rights Supervisor

Subject: Claims Originally Filed in Fosha vs. Dunn Adjudication
=====

Needs
field review
(for domestic
well)
(see attached
memo,
1/25/93)
HAT

This claim was originally filed in the Fosha vs. Dunn Adjudication which has subsequently been consolidated with the SRBA. Claimants in Fosha vs. Dunn were not required to file a new claim in the SRBA. In some cases, however, claimants may have filed an amended claim in the SRBA.

The original claims consist of both an original white copy with the original signature and a yellow carbon. Both of these forms must be retained in the IDWR files. The original form included a green carbon which is the claimant's copy. As stated above, there may also be an amended claim.

The review of this claim initially occurred in 1985/1986 by IDWR Adjudication staff. The review process included field examination by IDWR Southern Region Staff (Loren Holmes and Allen Merritt) in 1985 and additional review by IDWR State Office staff (Don Shaff, John Noyes and Forrest Luthy). The claim review documents include:

- // Final recommendation - shown on xeroxed copy of claim, with recommendation shown in RED
- // Adjudication Claim Analysis Sheet (consider this a replacement for the currently used Claims Verification Report (CVR))
- // Map
- // Correspondence, Memos to File, etc.
- // Zerox of original receipts (this is because the original receipt was hand written, prior to the computer receipting). However, in most instances, a voided receipt has been created in the computer in order to update the record to the Host Master.

I have reviewed the claim at this time in order to evaluate the completeness of the original review and have it meet current standards. I have created an R record and verified the recommendation when possible. Generally, the review is based on information available at the time of the original review in 1985/86. Unless there is a discrepancy, additional information of more recent origin has not been added to the review process.

43-02351-

claim filed in Fosha did not claim dome.
but it did mention the domestic well
amended claim filed in SRBA did claim
domestic well in addition to the
irrig. well

Review of license file finds no mention
of the domestic use - all of the
Proof forms mention irrigation only
also no mention of red well -
the tract where dom. well is
claimed NUNE, has been licensed
for 40 ac. irrig.

Options - split claim in recom.
ask for new claim (license
does include dom.)

Some basis for questioning POD of dom, but
no basis for question existence of
dom. use since claimed priority

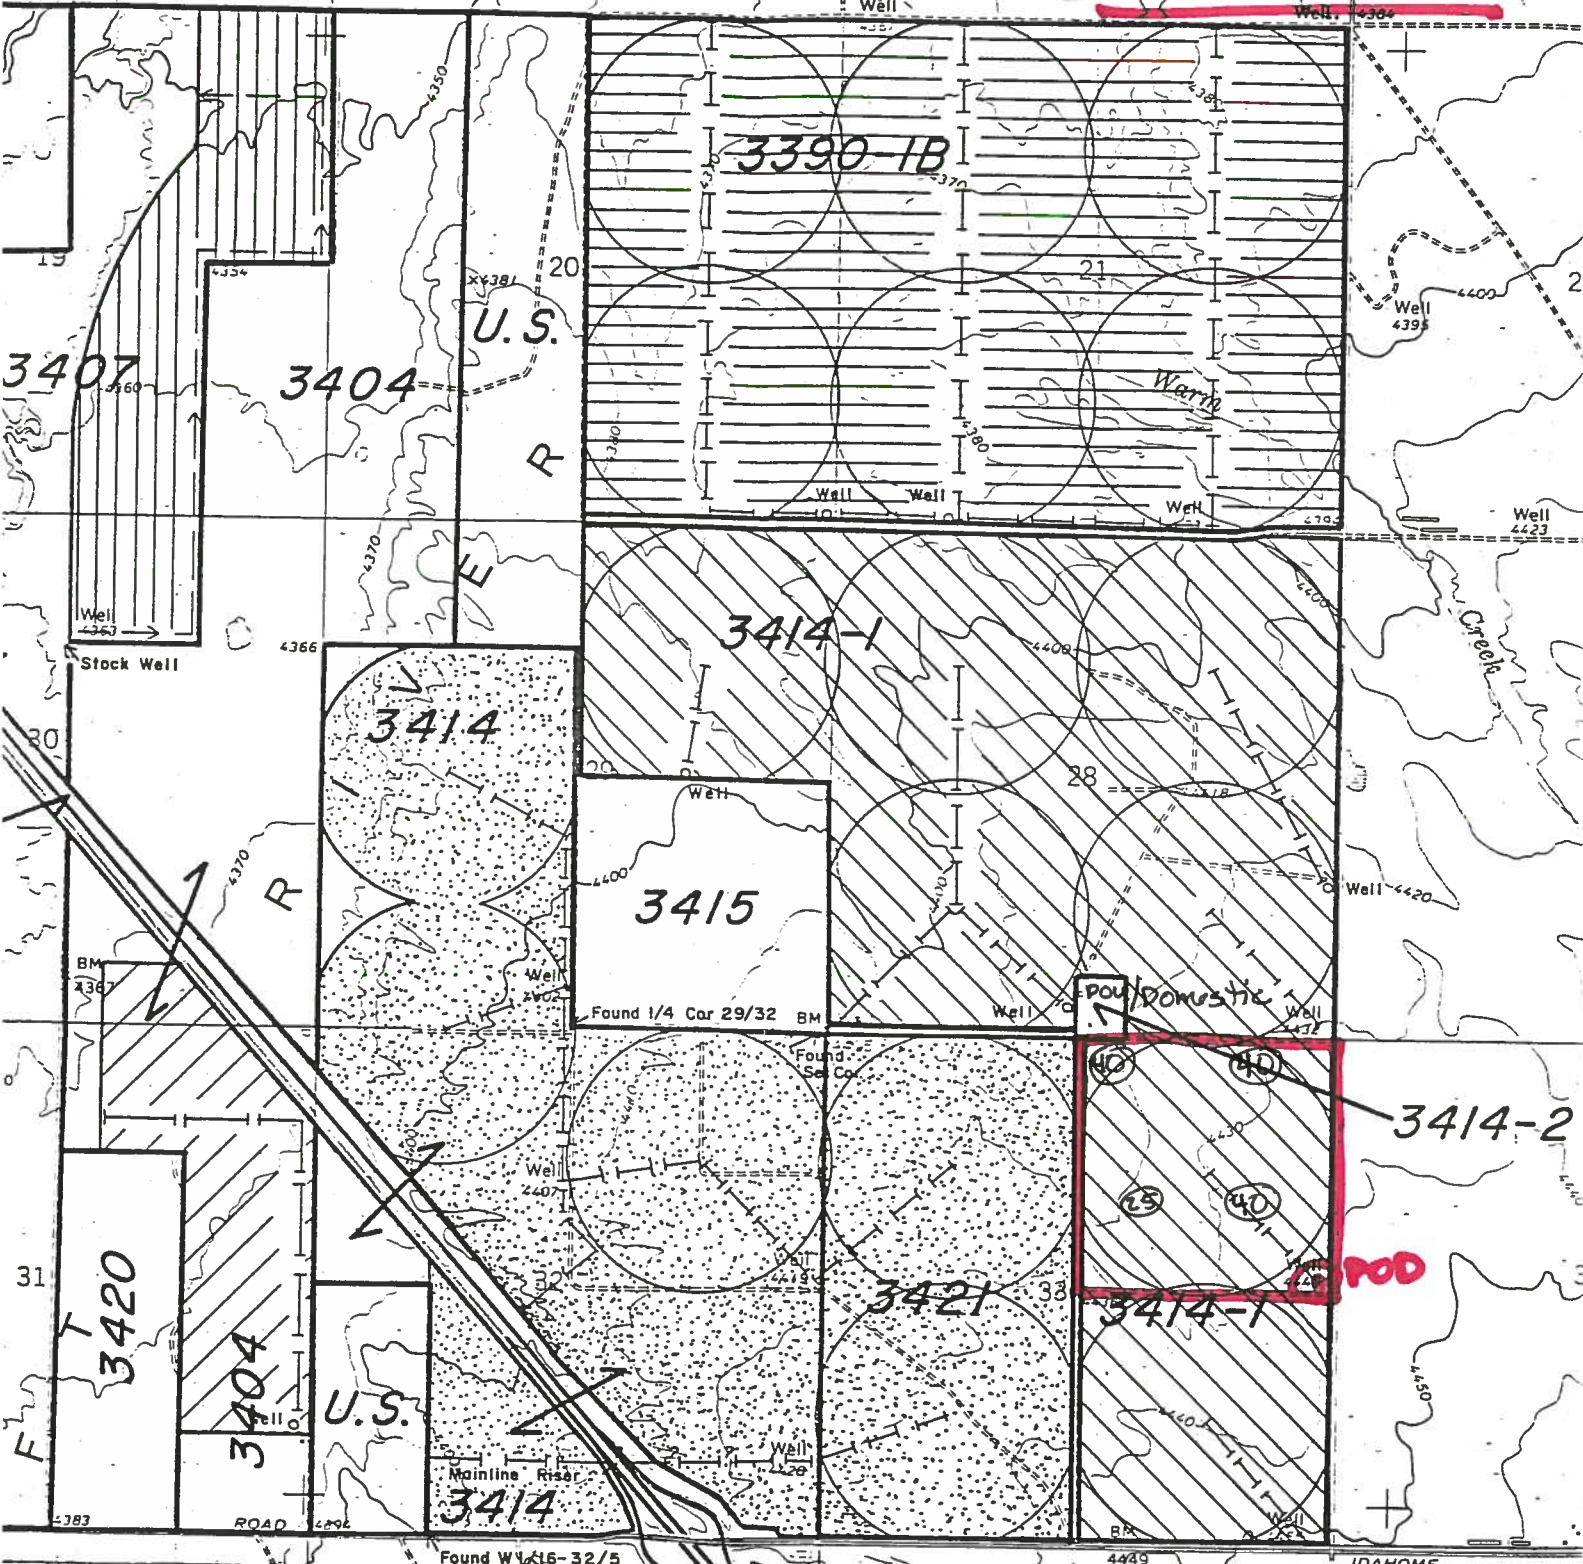

~~DI split - will decrease div rate for irrig.~~

After discussion w/ Carter, I feel the appropriate
thing to do w/ this recommendation is to
leave it as one recommendation, w/ an
added point of Division.

Need to drive by to confirm
domestic well location
