

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A43-02373
Date Received: 6/05/1990
Receipt No: 5012386
Received By: ADP

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: RODNEY N. HALL 208-645-2517
Address: P.O. BOX 631
MALTA, ID 83342

AND/OR

Name: DORIS J. HALL 208-645-2517
Address: P.O. BOX 631
MALTA, ID 83342

2. Date of Priority: JAN 12, 1952

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
13S	27E	18	SE	SW	NE		CASSIA
			SW	SE	SE		CASSIA
		19	SW	NE	SE		CASSIA
		20	SE	NW	SW		CASSIA

5. Description of diverting works:
FOUR WELLS & PUMPS TO PIPELINES & SPRINKLERS

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	03/15	11/15	3.820		

7. Total Quantity Appropriated is:
3.820 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 873.0 Acre Feet Per Annum.

9. Non-irrigation uses:
NONE

10. Place of Use:

Township	Range	Section	1/4	of	1/4	Lot	Use	Acres		
13S	27E	18	SE		NE		IRR	5.0		
			NE		SE		IRR	40.0

ASSIGNMENT OF WATER LICENSE

For value received, we, the undersigned, do hereby sell, assign, and transfer unto RODNEY N. HALL and DORIS J. HALL, husband and wife, all our right and title in and to a certain water license #G-25574 with priority of April 4, 1955, in the amount of 3.14 cfs and do hereby give the Assignee the right to transfer the place of use and point of diversion in said license in compliance with the applicable laws of the State of Idaho.

IN WITNESS WHEREOF, we have hereunto set our hands this 14th day of March, 1979.

Grant B. Hitt

RE: Snake River Basin Adjudication SRBA Claim
Mr. Rodney Hall of Malta, Idaho
Cassia County

Dear Mr. Chapman:

In response to your letter of May 26, 1989 and the reasons given therein for the late filing of the above mentioned Adjudication claims.

This letter is a denial of Extension of Time for the filing of the above referenced Notice of Claims to a Water Right. The original filing deadline for the claims is June 8, 1989. The extension is denied on the basis the claimant has not shown diligence in preparing these claims.

This extension is denied under the authority of §42-1409 (10), Idaho Code.

Signed this 1st day of June, 1989.

David B. Shaw
Adjudication Bureau Chief

	Wr P/D					Φ	License & Statutory Claims				
							License totals only	526 ac	633 ac PP/U		7.86 cfs
I am recommending 633 acres as the permissible place of use. Of that place of use, 526 acres were irrigated with 7.86 cfs. 633 acres at one inch per acre requires 12.66 cfs							Rate at 1" per acre = 12.66 cfs Licensed 7.86 cfs Difference 4.80 cfs				
The system has been modified many times over the years with the specific capacity of an individual well going up and down for various reasons. The best information is that the system had the capability to deliver 1" per acre by 1963 (mandatory permit statutes). Historical pumping capacity is currently not available for the statutory claims. Lacking any data, I have recommended the statutory claims on a percentage basis for the balance of the diversion rate exceeding the combined licensed rates up to one inch per acre based upon my understanding of the historical irrigated place of use.											
The recommended place of use consists of 633 acres which includes all groundwater rights and previously decreed surface water rights. The surface water rights are 43-145 and 43-324											
Different system ↓↓											
43-2306A	P/D					⊖	License, Claimed as B/U			0.80 cfs	0.80 cfs

Claims 43-04119, 43-04120, & 43-04121 identified wells 1 thru 4 as the point of diversions for each claim. The original statutory claims identified each claim with only one well as shown in the table above. The basis of the adjudication analysis starts with the use as identified in the statutory claims and then expands based upon additional information as provided by the adjudication claim and owner. The 400 acres claimed under the statutory claims are represented by Raft River water under 43-00324 for ground in Sec 19 & 20 and Cassia Creek

water under 43-00145 for the ground in Sec 18. Neither acres by quarter/quarter or total acres are given in the Jobe Adams decree.

ANALYSIS BY INDIVIDUAL CLAIM

43-04119 identified **well # 1** as the original source with a [priority date of 4-1-1921](#). Charles Pulsiphor submitted an affidavit in 1948 and an additional 3 affidavits were submitted in 1981, with the statutory claim, that indicate that Charles Pulsiphor drilled the well in 1921 and then put it to beneficial use that year. The 1948 affidavit identified a place of use of approximately 240 acres. The subsequent affidavits enlarged the claimed place of use to 400 acres. The original well was an 'open pit' lined with orange berg. Hall indicated that the well water was delivered to the place of use via a parma water lifter and a gravity ditch system. The well and delivery system has changed several times over the years. Currently there is a 100-hp motor on the well. See the table above for rate and acre limitations.

43-04120 identified **well # 3** as the original source with a [priority date of 4-1-1941](#). Affidavits submitted with the statutory claim indicate that the well was drilled in 1940 and that beneficial use first occurred in 1941. At this time the original delivery system is unknown. When 43-02373 was licensed, this well was included in the P/D listing. The licensing field exam identified a 10 Hp motor and a layne-bowler pump with 8 inch discharge on the well and that the delivery rate was 1.68 cfs. Hall identified the 4 quarters to the west and north of the well location as the original place of use. I believe that the current motor on the well to be 100 Hp. See the table above for rate and acre limitations.

43-04121 identified **well # 4** (in Section 18) as the original source with a [priority date of 4-1-1957](#) (on the claim itself). The affidavits indicate that the well is in Section 20. I believe that the affidavits are incorrect and that the claim form itself represents what the affidavits were identifying. Affidavits submitted with the statutory claim indicate that the well was drilled in 1957 and that beneficial use first occurred in that year. The original pumping system was not identified in the statutory claim or the attached affidavits but the affidavits identified the diversion rate at 1.20 cfs. Hall identified the NE¼ of sec 18 as the original place of use. I am therefore recommending this claim for the found 40 acres and at 0.80 cfs (one inch per acre). The statutory claim and the adjudication claim identified 400 acres as the place of use. This well was also part of 43-02424.

43-04122 identified **well # 2** as the original source with a [priority date of 4-1-1933](#). Affidavits submitted with the statutory claim indicate that the well was drilled in 1933 and that beneficial use first occurred in that year. The original pumping system was not identified in the statutory claim or the attached affidavits but the affidavits identified the diversion rate at 2.0 cfs. This well is located at the southern end of the recommended place of use and the natural flow for the property is basically south to north. The historical irrigated place of use may have been smaller than the claimed place of use. However, as it is physically possible to irrigate all or nearly all of the claimed place of use under a gravity system from the original well, I am recognizing the currently irrigated acres within the claimed place of use (398 acres).

43-02373 identified **wells 1, 2 & 3** as the original licensed points of diversion. [The priority date for this right is 1-25-1952](#). The license indicated a 291-acre place of use within the 400-acre place of use identified in statutory claims 43-04119 thru 43-04122. The licensing field examination identified the permitted acres as part of the irrigated place of use on item 7 of the report but excluded a significant portion of the permitted place of use on the section grid layout. The E½NW¼ of sec 20 is BLM property and was irrigated at that time, but according to Rodney Hall the effort to obtain ownership of that ground fell through and was therefore excluded from this right. The ground is not currently being irrigated. The NESE of Sec 19 was also excluded from the recommended place of use. Well # 2 is located in the SW corner of that quarter/quarter and according to Rodney Hall, ditches ran both north and east from this well. As the other forty acre tracts 'down hill' from this point were recommended it is unlikely that this tract was dry. Why it was excluded from the recommendation is not clear in the field examination. The same general circumstance exists for half of the NENE of Sec 19 and the SENE of Sec 18. From Raft River east for generally ½ mile the irrigated ground is flat with little slope. Beyond the ¾ mile range the slope increases and that ground is not irrigated.

Based upon the information currently available I believe that the majority of the 400 acre place of use was irrigated prior to the licensing field exam for 43-02373 and can be recognized under the statutory claims.

43-02424 was licensed from **well # 4** and has a [priority date of 4-4-1955](#). The original licensed place of use included portions of the NENE and SWNE of Sec 18 and additional ground in Sec 7. Mr. Hall filed an application

for transfer in 1992. The application was not accepted as Glen Saxton noted that the actual change in place of use occurred prior to 1987 and therefore could be recognized through the adjudication process. The change was to move the irrigation from the ground in Sec 7 to ground in the W $\frac{1}{2}$ NW $\frac{1}{4}$ and the NWSW of Sec 17

ANALYSIS OF A43-10636 WITH A CLAIMED PRIORITY DATE OF 4-1-1946

This claim claims all 5 points of diversion but identifies only 45 acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$ of Sec 18 as the place of use. As filed, this claim represents a combination of the following rights 43-2306 (a portion), 43-04117 and 43-04231.

43-02306 was licensed with a priority date of 2-5-1948. The claimed priority date is 4-1-1946. Evidence of priority supporting the 1946 date was submitted. This right was licensed for 85 acres at 1.70 cfs. The licensed place of use was split through an ownership change for a portion of the property in 1979. Hitt retained 40 acres and 0.80 cfs and Hall obtained 45 acres and 0.90 cfs. Subsequently the Hitt property was purchased by Hall (change of ownership submitted in 1999) but was placed in the name of Valley River Farms LLC and is recommended as 43-2306A. It is not recommended within the permissible place of use covered by a majority of the Hall claims.

This claim (43-10636) is being recommended for the 45 claimed and previously licensed acres that were identified in the original license 43-2306. The statutory claims identified in the original claim are not recognized under this right. I am recommending the 4 wells identified under the other rights but not the well recommended under 43-2306A. That well was owned by Hitt until the 1990s and was not part of the Hall system at the commencement of the adjudication.

Claims identifying Sec 18 NENE as the place of use.

The statutory claim **43-04117** shows a priority date of 4-1-1952 as the date that water from well # 5 was applied to 15 acres in the NENE of Sec 18.

The statutory claim **43-04231** shows a priority date of 4-1-1953 and lists wells 1, 2, 3, and 4 as the diversion points. The place of use is listed as 34 acres within the NENE of Sec 18. A statement on the statutory claim form indicates that 6 acres in the NE corner of that quarter/quarter is irrigated from a different system.

Claim A43-10636 was amended on 2-6-1992 to delete the claimed 40 acres in Sec 18 NENE. Remarks state that those 40 acres were being claimed under A43-02424. Although the place of use was reduced by 40 acres a corresponding reduction in the diversion rate was not made.

Because both 43-04117 and 43-04231 both specifically identified the NENE of Sec 18 and no other acres the inference is that they should no longer be considered relevant to this claim.
That leaves 43-02306 as the basis for this claim.

Available information does not indicate that all 5 wells were tied together in 1946 nor does the licensing information indicate that there was a combined system as of the field verification conducted on 8-1-1951. Proof of Completion of Works signed and dated 12-5-1950 by Grant Hitt. That proof included a statement that ground on the other side of the river was not watered by this well. The sale and splitting of the water right in 1979 indicates that the lands were to be irrigated independently. Hall did not obtain ownership of the entire licensed place of use until the 1990s.

RE: GROUNDWATER CLAIMS FOR THE HOME PLACE

Dear Rodney

I have enclosed a two-page analysis and question paper. I have tried to highlight my questions in blue but I may have missed one or two. Also the information I have provided represents some pertinent elements that are available to me and may have a bearing on my ultimate recommendations. This does not represent all documentation that is in the files or on microfiche.

I have also included a rough pictorial representation of your irrigation system, as I understand it to be. When you see references to well numbers they will normally refer to the numbering system as shown on that document. The exception is in the last paragraphs where I am quoting or paraphrasing from microfiche documents relating to 43-02373.

I will address the surface water rights later. I have briefly reviewed them and I do not anticipate any significant elements that will need to be addressed.

Sincerely

Kelly K Christensen
Sr Water Resource Agent

Enclosures

ADDITIONAL INFORMATION NEEDED

You indicated that several of the original wells were originally developed using a Parma water lifter. **Were all P/Ds developed using the same pumping system?** I need as much information as can be obtained to determine, as best as possible, the original developed diversion rate. I will identify the additional information needed by claim number. If you have problems understanding what I need, please give me a call.

43-4019 I understand that the original system was a Parma water lifter for **well # 1**. **Do you have any information regarding the size of this pump?** This well was not measured under 43-02373 although it was included in the license. I understand that there is currently a 100 Hp motor on this P/D.

43-4020 This claim originally identified **well # 3** as the P/D. **Was it originally developed with a Parma water lifter and if so what is its size? Were wells 1, 2, and 3 tied together for a period of time and then well # 4 tied into that system?** This P/D was licensed and measured under 43-02373. The examiner found a 10HP motor delivering 1.68 cfs. I understand this point of diversion currently has a 100 Hp motor.

43-4021 This claim originally identified **well # 4** as the P/D and the entire 400 acres as the place of use. The claimed priority date is 4-1-1957. **Is this the date that all 4 wells were tied together?** This well was also licensed under 43-02424 and has a priority date of 4-4-1955. The field examination identified the system as a Parma water lifter (10-inch discharge) and the right was licensed for 3.14 cfs. **What motor was on the system at the time that this well was tied into the system (this assumes that the 1957 date represents the combined system)?** I understand that this P/D now has a 150 Hp motor.

43-4022 This claim originally identified **well # 2** as the P/D. **Was it originally developed with a Parma water lifter, and if so what is its size?** This P/D was licensed and measured under 43-02373. The examiner found a 30HP motor delivering 2.14 cfs. I understand that this well now has a 40 Hp motor.

43-2373 I do not have any questions concerning this right at this time.

43-2424 I understand that this right represents the original development of this P/D. I also understand that there was a change in place of use for a portion of the right that you tried to legalize through the transfer process. This transfer was denied as the department determined that the transfer occurred prior to the commencement of the adjudication and therefore would be handled by the adjudication. I do not have any questions concerning this right at this time.

43-10636 This claim was originally filed to combine 43-02306, 43-04117 and 43-04231. The claim was subsequently amended on 2-6-92 to delete 40 acres in Sec 18 NENE. Remarks indicate that those 40 acres were claimed under 43-02424. The diversion rate was not amended. The claim currently stands at 1.70 cfs for 45 acres.

43-02306 (with a 2-5-1948-priority date) identified the P/D as **well # 5** with a licensed diversion relate of 1.70 cfs. An affidavit submitted with the claim indicates that the well was drilled in 1946 and that a Parma water lifter was

COPY

installed. It does not actually address the place of use. **As it stands I can only recommend the licensed priority date.** The licensed right was claimed in part through A43-10636 and A43-02306A. Hall now controls both segments, although A43-02306A is in the name of Valley River Farms LLC. **Have and/or are the two claims serviced through the same irrigation system? Is or will this well be tied into the current irrigation system? If well # 5 is now part of the current system please provide the date that they were tied together.**

Statutory claim 43-04117 indicated that 15 acres in Sec 18 NENE began to be irrigated from **well # 5** in 1952. As the 1992 claim amendment removed all acres from Sec 18 NENE, the assumption is that this statutory claim is no longer relevant regarding the original filing. **Please supply additional information if this assumption is in error.**

Statutory claim 43-04231 identified **well #s 1, 2, 3, and 4** as the points of diversion for the irrigation of 34 acres in Sec 18 NENE and claimed a 4-1-1953 priority date. Again, as the 1992 claim amendment removed all acres from Sec 18 NENE, the assumption is that this statutory claim is no longer relevant regarding the original filing. This goes one step further in that based upon the currently available information, it does not appear that well # 5 and probably not even well #s 1, 2, 3, and 4 were tied into a pipeline delivery system by any of the relevant dates found within the documents submitted. Dates such as the claimed date of 4-1-1946, the licensed date of 2-4-1948, or even the claimed priority date for 43-04231 which was 4-1-1953. **Please supply additional information if this assumption is in error.**

The following is some of the information that I have available before me that is shaping my preliminary analysis.

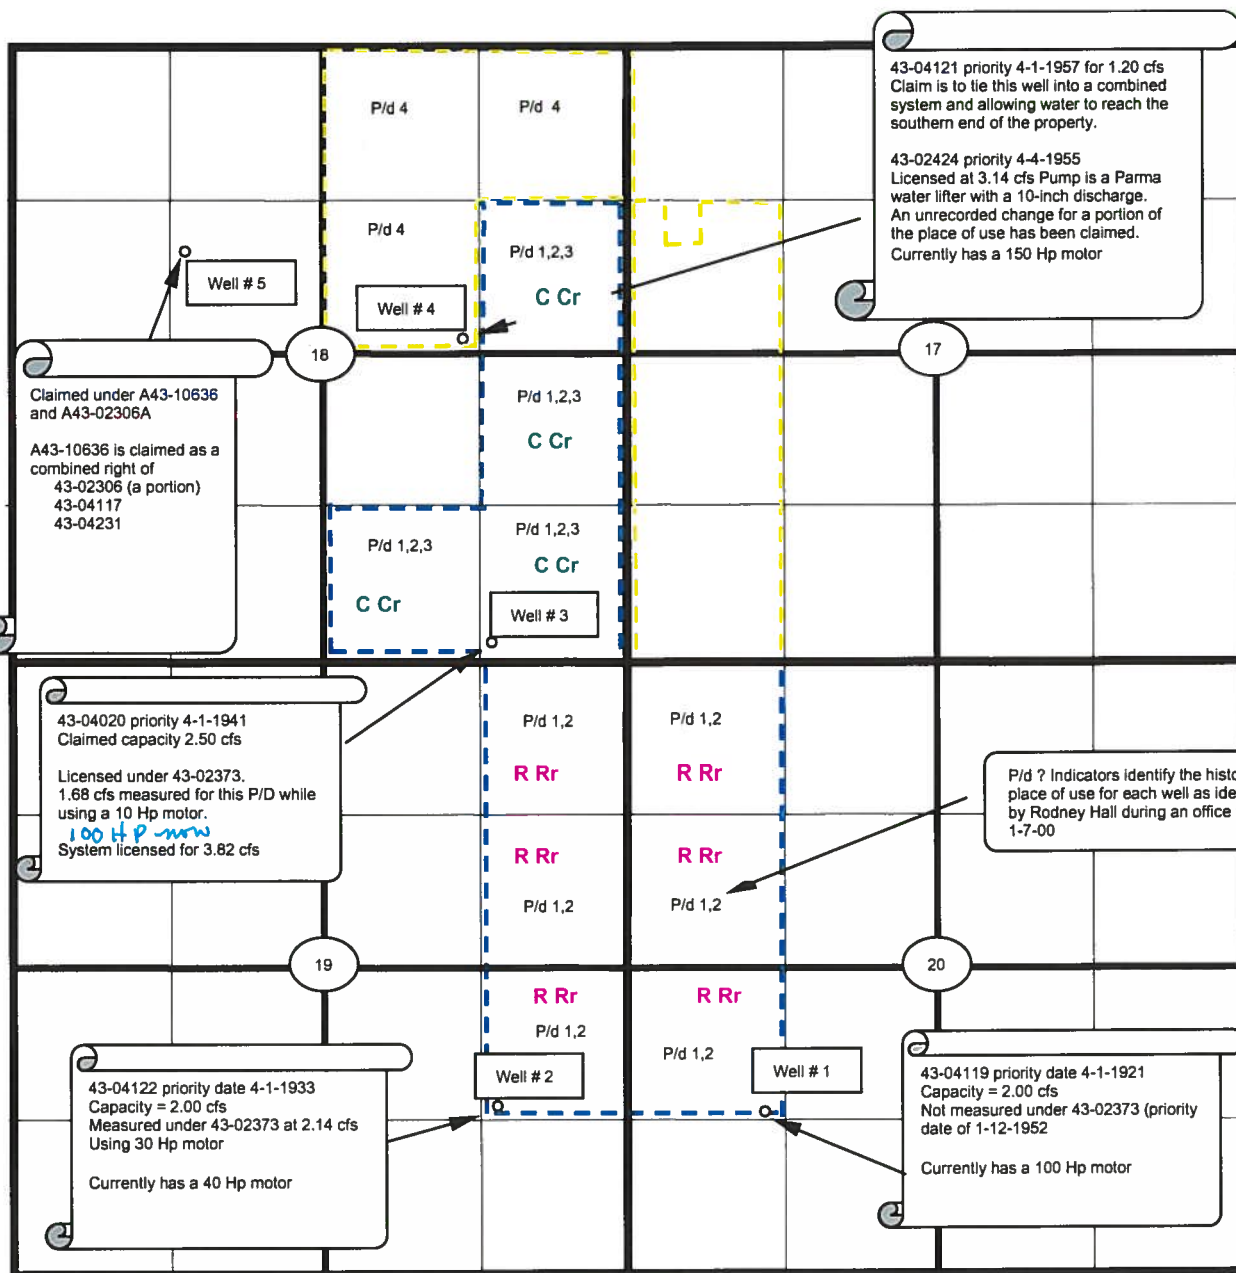

An Extension of Time for completion of works for 43-02373 dated Jan 18, 1953 and signed by George Neddo indicates that not all wells have been completed. (The assumption is that not all wells are tied into a common system by this date).

A letter to the department requesting an assignment of permit form was dated March 22, 1957. The letter also stated that he wanted to submit proof of completion of works for 43-02373 for well No 2 (not well # 2 shown on the place of use pictorial representation) as identified in the application for permit. The letter further states that he would like to substitute a well that was developed on the SW corner of the NESE Sec-19 which has been put to beneficial use. This well would be a substitute for one of the other wells which were not completed.

Proof of Application of Water to Beneficial Use submitted by Roger C Neddo and dated May 31, 1957 indicated that three wells related to 43-02373 were developed. There was a short note identifying the system as "private ditches".

The above items and other information lead me to believe that there was no pipeline system in existence in 1957 that would allow water from wells # 4 and 5 to be used for irrigation of ground in Sections 19 and 20.

15-729 still considering filing claims?

43-00030 & 43-00032 - look to see if transfer has been filed & accepted by DWR & when?

- may want to file claims for -00030 & -00032 & -00443 (get Quit-claim from C-Bar? - are in process of purchasing from C-Bar - formerly Pierce - so may be moot point??...)

- look into transfer under -00030, see if original file in Boise has any documentation that they (Pierce) had ownership of 00030, 00032, & 00043? - Kureaw says no!

- 00143 - has been claimed by Kureaw under -10554 and probably should be renumbered to -00143

^{13, 27, 19}
- lands in NWNW should be amended from 30 to ? and SWNW(?) from 42 to ?

* after OK is straightened out w/ Kureaw (which will give Hall all of -00031, -00144B, -10554, & -04210 will be split w/ Hall & Kureaw) - purchased in '92 -

RK was "straightened out" in approximately '92?

SESW of Sect. 18 - see if claims for entire 40 Ac.?

- will probably need to amend claims (from Kureaw) to entire 40 acres or what is actually irrigated (Kureaw only claimed farmed acres not some which were pasture.)

Permit No. G 22556

A43-02373

Application for Extension of Time
FOR COMPLETION OF WORKS

George W. Heddo, of Malta, County of Cassia

State of Idaho, being first duly sworn, upon his oath deposes and says:
He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
No. G 22556

Under the terms and conditions of said permit, construction work thereunder was required to be
completed by January 18, 1955

That he has heretofore performed the following work described under said permit
Three wells have been dug and used already. But due to pressure of
other work I have not yet had time to complete the fourth well as
anticipated.

costing \$ 1200

That he is unable to complete the remainder of the work within the required time, for the fol-
lowing reasons, to-wit:

WHEREFORE, He asks that the STATE RECLAMATION ENGINEER extend the time for the comple-
tion of works under said permit to January 18, 1957

Subscribed and sworn to before me this 9th day of December, 1954

My commission expires 3-5-55

Date of receipt at office of Department of Reclamation Dec. 9, 1954

APPROVAL OF STATE RECLAMATION ENGINEER
E. N. Humphrey, Deputy State Reclamation Engineer

XXXXXX In the State of Idaho, hereby extend the time for the com-
pletion of construction work under Permit to Appropriate the Public Waters of the State of Idaho, No. G-22556 to
January 18, 1957

Witness my hand this 9th day of December, 1954

Deputy State Reclamation Engineer

E. N. Humphrey

State of Idaho
Department of Reclamation
Mark R. Kulp State Reclamation Engineer

Idaho
March 27 1957
RECEIVED
MAR 27 1957
Department of Reclamation

Dear Mr. Kulp:

I have received your letter of March 26, 1957 in reference of Permit No. 5-22556 in which you stated that a form for assignment was included I failed to find the same.

Will you please mail me an Assignment Form?

If possible I would still like to file Prog of Completion of work on well No. 2 as planned in application for Permit

In addition a well has been developed on the S.W. corner of 24th NE $\frac{1}{4}$ / SE $\frac{1}{4}$ Sec 19 which has also been put to beneficial use. Would it be possible to substitute this for one of the other wells which was not completed?

DEPARTMENT OF RECLAMATION
Boise, Idaho

Re: Permit No. G- 22556

March 2, 1957

To George W. Hedde

Malta, Idaho (M. Hedde)

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 22556 to appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Completion of Works Beneficial Use Proofs were due January 18, 1957

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 22556 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

Said PERMIT NO. G- 22556 claims the use of 8.0 cubic feet per second of the Subterranean Waters of a well _____ with point of diversion located NE 1/4 of Sec. 20, Twp. 13 N., R. 27 E., B.M., was approved January 18, 1952.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the First day of March, 19 57.

State Reclamation Engineer

of Permit No. G-22556 Under the
Provisions of Section 5594, Idaho
Compiled Statutes.

ORDER REINSTATING PERMIT

WHEREAS, Permit No. G-22556 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: January 18, 1957; and,
WHEREAS, On the last day of March, 1957 notice to show cause why said permit should not be canceled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,
WHEREAS, On the 21st day of March, 1957 the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,
WHEREAS, On the 24th day of April, 1957 Notice for publication of the holder were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,
WHEREAS, After examination of the said depositions, the Commissioner of Reclamation of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. G-22556, and that the holder has acted in good faith;
IT IS, THEREFORE, Herby Ordered that said Permit No. G-22556 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.
IN WITNESS WHEREOF, I have herunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 20th day of May, 1957.

Recorded: May 20, 1957.

/s/ Mark R. Kulp
Commissioner of Reclamation

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-22556

Comes now J. Deward Hall and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22556. That the point of diversion is described in said permit as being located NW 1/4 of Sec. 20, Twp 13 S., Rge 27 E., B.M. That ~~that he now requests that these points of diversion be included in Permit No. G-22556 - point located~~ NE 1/4 of the SE 1/4 of Sec. 19, Twp. 13 S., Rge 27 E., B.M. and SE 1/4 of Sec. 18, Twp. 13 S., Rge 27 E., B.M. That his reasons for desiring to make such changes are as follows: The four wells located in the small radius would not supply desired water. Distance between wells had to be increased. That no one will be injured by such change, and that a change will be made at Permit Holder's own risk.

Signed at Malta, Idaho, this 5 day of April, 1957

Date of receipt at Department of Reclamation
June 6, 1957.

/s/ J. Deward Hall

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-22556. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Recorded: June 6, 1957.

RECEIVED

Department of Redemption

Dear Sir:

With you please send me more
forms for quick to file well logs
on, as I have a couple of wells
I need to report.

Also will you please inform
me as to the procedure required
to deepen a well that has
already been proven up on, the
well has dried up until it doesn't
pay to pump. I need to increase
the water above the amount
which was proven up on.

Please inform me as to the
proper procedure.

Yours truly
J. Edward Hall

RECEIVED
JUN 6 1957
Department of Reclamation

Permit No. G-22556

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Roger C. Heddo; 30; Malta; farmer;
Malta, Idaho

Ques. 2. Are you acquainted with J. Edward Hall, the holder of Permit No. G-22556? How long have you known him and where does he reside?

Ans. Yes; lifetime; Malta
25 years or more

Ques. 3. Have you read or heard read said Permit No. G-22556, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. 3 drilled wells

Well No. 1. 140 ft West SE cor. Twp 13 N. Sec 20 - all in Twp 13 S. R 27 34

Well No. 2. 140 ft east SW cor. Twp 13 N. Sec 19

Well No. 3. 160 ft East SW cor. approx. 18, ditto

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. infinite; 400 cfs or more

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

3 pumps: Two pumps 100 inches each and one
80 inches - estimated by comparison to measured stream

G-22556

Ques 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic use;

Land is all cultivated & fenced

Ques 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. land is clay loam generally very flat
requiring 2 inches of water for proper irrigation

Ques 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I was born and raised on the place for 18
years but have no interest in property now

Ques 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have neighboring property and see
the water often being put to use

(Signed) Roger C. Meddo

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Idaho,
County of Cassia, State of Idaho, on this 31 day of May,
A. D. 1957.

Henry Thompson
Notary Public.

My commission expires January-25-1961.

9-22556

Permit No. G 22554

43-02373

Application for Extension of Time
FOR COMPLETION OF WORKS

George H. Neddor, of Malta
State of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
No. G 22554

Under the terms and conditions of said permit, construction work thereunder was required to be
completed by Jan 18, 1954

That he has heretofore performed the following work described under said permit:
cast cement curb and dry swamp to depth
of 2.2 ft.

costing \$250 approximately

THAT he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

The skilled labor was taken by the
armed services and couldn't replace this
labor in time.

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the completion of construction work under said permit, to Jan 18, 1955

Subscribed and sworn to before me this 15 day of December 1953

My commission expires 11-11-54 Ed. A. Hansen
Notary Public.

Date of receipt at Department of Reclamation. Dec. 16-1953

STATE RECLAMATION ENGINEER

APPROVAL OF STATE RECLAMATION ENGINEER

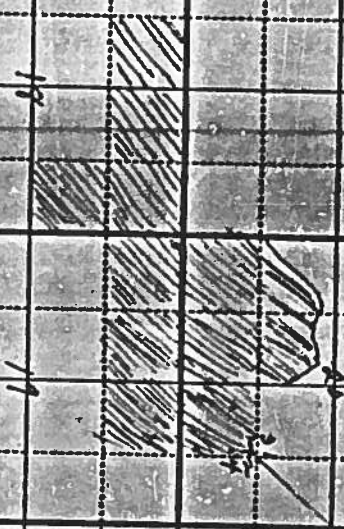

I, Mark R. Kulp, Commissioner of the State of Idaho, hereby extend the time for
the completion of construction work under Permit to Appropriate the Public Waters of the State of Idaho, No. G-22556
to January 18, 1955

Witness my hand this 16th day of December

1953
Mark R. Kulp
State Reclamation Engineer
