Mr. Wayment was in this morning to talk about his expansion claim. We went over the G/S acres and made a few changes. He agreed that he irrigated about 344 acres. Since he has 328 licensed acres, that made the expansion claim for 16 acres. He filed claim A43-11249 for 16 acres as an expansion of 43-023.

A43-02393 4/29/53 1.78 cfs 130 Ac.

- gis of 1987 photo showed total of 351 ac. irrigated
- 23 extra acres in this area
- needs expansion claim -
- original license shows 2 wells in SESE of Sec. 29, now claim is for one which may be abandoned

R43-02393 4/29/53 1.78 cfs / 520 AF 130/351 pp4

A43-10809 11/29/62 2.53 cfs 198 Ac.

- this claim is a combination of 2 licenses:

43-02468 11/30/58 1.6 cfs 80 Ac.

43-02553 10/8/62 0.93 cfs 118 Ac.

- claim could be amended to change priority date to 10/8/62 (probably not, field epm says "late proof", pd=11/28/62)

Entry Type: Meeting
Start: Fri 10/29/99 2:30 PM
End: Fri 10/29/99 3:30 PM
Duration: 1 hour

I arrived at Wayment's place at 1430 hrs on 29 October. I observed 2 homes 4 trailers, plus a dairy operation. Garr Wayment showed me the 10 inch casing well he recently had drilled, which I located by GPS and I photographed. The Driller Tag Number on the casing is D0008228. Mr. Wayment says it is a 7.5 HP pump.

He said he was told by (somebody) that he could drill a 10 inch casing well without a water right in order to water livestock. I asked him how many head did he plan to water. He said 1,000 milkers and 1,000 dry.

We discussed the possibility of modifying, via the transfer process, an existing right(s) in order to cover that many cows.

The claims listed above are all irrigation rights except the two with asterisk. A45-10254 is associated with the existing dairy. Mr. Wayment says the spring source (located in Sec 13, T12S, R23E) is intermittent and they drilled the first well for that reason. Mr. Wayment says the existing well and the new well will be tied together. Mr. Wayment and I discussed the 42-111 (a) and his understanding is that each of the dwellings on his property get 13,000 gal per day. Included with a Dairy Worksheet I am also sending Mr. Wayment a copy of 42-111 in its entirety.

Just with the 2,000 head (1,000 x 35 and 1,000 x 12) taken into account, the approximate gallons per day multiplied by 365 days is:

$17,155,000 \text{ divided by } 325,850 = 52.6 \text{ afa} = 17.5 \text{ acres to be dried up, approximately.}$

All this information will be sent to Wayment as promised.

RE: EXPANSION CLAIM A43-11249

Dear Mr. Wayment,

Enclosed is a new claim for the expansion acres that you are irrigating in Section 29. You have three licensed rights, which cover all but 23 acres. (I have included a map to help you understand where these acres are.) In order for these extra acres to be recommended in the adjudication, you must file an expansion claim. I have provided a copy of Idaho Statute 1416.b, which determines how the elements of these claims are to be recommended. If you wish to make this claim, please sign, have notarized and return to my attention as soon as possible with the fee of \$73.00 (\$50.00 filing fee plus \$23.00 for the 23 acres).

I have also enclosed a NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP form, which should be used if you want to change your claims' ownership to an LLC, as you indicated. Please follow the attached instructions. We will need a copy of the paperwork noting this official change, which includes a legal description of the property and signature authorization.

If you have any questions, feel free to give me a call at the office.

Sincerely,

Jeanie Robertson

Re: Permit No. G-24063

Mr. Buddy D. Ward
Pella
Idaho

Dear Mr. Ward:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-24063 shows that the wells are capable of conveying 89 miners inches (1.78 c.f.s.) of water for irrigation of 130 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (eight dollars, fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of April 29, 1953, to the use of 1.78 second feet of subterranean water, with points of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 29, for irrigation of 130 acres in the SE $\frac{1}{4}$ of Section 29, Township 13 South, Range 27 East, E.M.

Very truly yours,

GEO. M. CARTER
State Reclamation Engineer

I arrived at Wayment's place at 1430 hrs on 29 October. I observed 2 homes 4 trailers, plus a dairy operation. Garr Wayment showed me the 10 inch casing well he recently had drilled, which I located by GPS and I photographed. The Driller Tag Number on the casing is D0008228. Mr. Wayment says it is a 7.5 HP pump.

He said he was told by (somebody) that he could drill a 10 inch casing well without a water right in order to water livestock. I asked him how many head did he plan to water. He said 1,000 milkers and 1,000 dry.

We discussed the possibility of modifying, via the transfer process, an existing right(s) in order to cover that many cows.

The claims listed above are all irrigation rights except the two with asterisk. A45-10254 is associated with the existing dairy. Mr. Wayment says the spring source (located in Sec 13, T12S, R23E) is intermittent and they drilled the first well for that reason. Mr. Wayment says the existing well and the new well will be tied together. Mr. Wayment and I discussed the 42-111 (a) and his understanding is that each of the dwellings on his property get 13,000 gal per day. Included with a Dairy Worksheet I am also sending Mr. Wayment a copy of 42-111 in its entirety.

Just with the 2,000 head (1,000 x 35 and 1,000 x 12) taken into account, the approximate gallons per day multiplied by 365 days is:
 $17,155,000 \text{ divided by } 325,850 = 52.6 \text{ afa} = 17.5 \text{ acres to be dried up, approximately.}$

All this information will be sent to Wayment as promised.
