Revised Recommendation :
A43-04111

After receiving my letter advising them of how I was inclined to recommend this right (only 40 as B.U. and the rest as expansion and no more water or volume), the Willetts came into the office on Feb. 28, 2001. They told me that Jodee had moved onto that place with his parents in 1958 and that's when the pump was put on the well in the NW SW of Section 32. He said it's still the same pump on there now. Scott King's notes indicated that that well could be recommended for 4.25 cfs. Since it was licensed under 43-02395 for 2.9 cfs, that left 1.35 cfs available capacity. They also said that they may not have farmed these 160 acres but they always put water on the whole 160 when they could and used it as pasture. I decided it was pretty hard to tell from the aerial photos conclusively that the ground wasn't irrigated. Since GIS showed a total of 363 irrigated acres in 1987, and 225 acres were licensed, I could recommend the remaining 138 acres as a beneficial use right with the available water from Scott's computations of 1.35 cfs and volume of 552 AF (138×4) and the claimed priority date of 8/1/1958.

 - meas. 2.02 cfs but licensed 2.9 cfs (inch per acre)

- A43-02416 1/21/1955 1.6 cfs 80 Ac.

- no pump or motor at time of inspection because of dispute over price of pump which was surrendered last yr
- field inspection could have been done previous year but owner unable to make assigned date
- field spec done 4/5/57
- allowed inch per acre w/o measurement

R43-02416 1/21/1955 1.6 cfs/320 AF 80/363 pp4

- A43-04111 8/1/1958 1.6 cfs 160 Ac.

- original statutory claim was only for 80 Ac. (SWNE & NWSE)
- said he was irrigating all 160 in 1958 but he was leasing 80 Ac. and didn't want to lose part of right to other person

- owns it all now so when he filed in 1999, he claimed all 160 Ac.

- claim was on both previously licensed wells (43-2395) (43-2416)

- Scott King showed system capacity of 5.83 cfs but should be limited to total of licenses of 4.5 cfs

- only 40 acres appear irrigated in 1962 & 1968 photos

- can recommend 40 acres w/ 120 AF additional volume

- change priority date to 3/15/62 for lack of other evidence

∴ diversion rate = $4.6 \div 265 \times 40 = 0.67 \text{ cfs}$

265 cfs (total of both licenses)
