IDAHO WATER RESOURCE BOARD
STATEHOUSE
BOISE, IDAHO

RESOLUTION TO ADOPT

MARCH 8, 1974

WHEREAS, the Idaho Water Resource Board is charged with the task of formulating a coordinated, integrated, multiple-use water resource policy, and

WHEREAS, the Board did approve on August 17, 1973, a planning procedure for the preparation of an Objectives Report and Basins Reports to implement this policy, and

WHEREAS, the Board endorses the statements of planning objectives as contained in this report and desires to make these expressions available to guide the public, other governmental agencies, and the Board staff in formulating a state water resource plan,

NOW, THEREFORE, BE IT RESOLVED, that this report entitled *The Objectives, Part I of the State Water Plan* be adopted as expressing the water resource policy to be followed in preparation of the State Water Plan.

BE IT FURTHER RESOLVED, that the Board, in recognition of constantly changing economic and environmental conditions which must be considered in establishing a state water resource policy, will review these planning objectives annually or upon formal request to determine if revisions in the state water resource policy are warranted.

FOREWORD

The Objectives is the first of a series of documents which will comprise the State Water Plan. The purpose of the report is to identify and define the policies and objectives which the Idaho Water Resource Board has adopted to govern the planning, development, and conservation of the state's water and related lands.

The projects and programs necessary to implement the objectives will be identified and evaluated for each major river basin and presented in separate basin reports. Basin reports will be prepared for the Panhandle basins, Snake River basins, and Bear River basins. These three major reports, to be completed by 1977, and *The Objectives*, will constitute the Idaho State Water Plan.

The objectives presented in this report are responsive to public input obtained through public information meetings, public hearings, and public opinion surveys which had been conducted after the Interim State Water Plan report was published. Board members, in adopting these objectives, have considered the complex inter-relationship of economic, social, and environmental factors. Legal and institutional restraints were also considered.

The State Water Plan will serve as a valuable guide to Idaho citizens and public officials. It will help to insure that decisions made regarding the state's water and related land resources are compatible and will be designed to help meet present and future water needs.
