DIRECTOR

Dear Mike:

Our meeting November 13th was beneficial to discuss some of the issues with Interstate Feeders, Inc claims. As you recall, the original water right licenses, 43-2436 and 43-2438, had some limiting language for the stock water diversion volume. That limiting language created a deficiency in the stock water volume. One way to acquire the volume is to cease irrigating an appropriate number of acres and change the nature of use of the rights from irrigation to stock water. Two hundred and six (206) acres are requested to provide the stock water consumptive use volume. The change in nature of use effects claims 43-2442, 43-2437 and 43-4006. The diversion volume was proportionally distributed between the effected irrigation rights. I've enclosed copies of the recommendations and a map outlining the place of use. The place of use includes the stock water and irrigation uses.

Statutory Claim 43-4079 was filed on 7 collection ponds off the feedlots and used for irrigation. It's my understanding that this was only used for about a year before you determined it wasn't effective and discontinued it. Therefore, I'm not recommending it to the court. I've enclosed a Relinquishment Form on this claim for you to sign and return to me as soon as possible.

The change in nature of use for 43-2437, 43-2442 & 43-4006 requires amending the claims. Normally there is a fee associated with amending claims but the department will waver that fee. Please return the signed Relinquishment form on claim 43-4079. This will reduce the paperwork for both of us. Your cooperation in this matter is greatly appreciated.

If you have any questions, please don't hesitate to call me at (208) 327-5450 or toll free at 1-800-451-4129 extension 5450.

Sincerely,

Cindy E. Bird
