Subject: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim 91-7436

Dear Ms. Walden:

On June 7, 2011 you filed a Notice of Claim to a Water Right using Idaho Department of Water Resources' (IDWR) online claim filing process. Thank you for filing online. The identification number assigned to the claim was 91-7436, and on that claim you stated the source of water was Cottonwood Pond No. 2, which is tributary to Cottonwood Creek.

I am currently researching the water rights that are in IDWR's database, but have not been claimed in the CSRBA. This research has revealed that water right license 91-7026 was obtained by Howard and/or Marie Hughes for the fire protection and the irrigation of one (1) acre on Lot 2 of Cottonwood Point Subdivision. The source of license 91-7026 is the St. Joe River, and I have attached a copy of the license for you to review.

If you are still diverting water from the St. Joe River to either irrigate Lot 2 of Cottonwood Point Subdivision, or fill Cottonwood Pond No. 2, you may wish to amend CSRBA claim 91-7436 to reflect the elements of water right license 91-7026.

Please contact me if you have any questions or need further clarification of your options.
