Claims of Reid Stewart

Reid Stewart and Don Barnett

Regarding the claims appurtenant to property he purchased from Ivan Darrington and Gary Crooks:

I read the chronology of the three claims on the Darrington and Crooks properties which are interrelated. I gave them a copy of the narrative and a copy of the GPS'd wells imported and presented in ArcView.

In regard to my mentioning that Darrington was supposed to abandon the wells in the west at the greenhouse site when he drilled the well in the SESESE Sec 23, Stewart said that that was the only well he used for irrigation. He said that the hot well that was flowing was too hot to touch let alone irrigate with. I told him that as far as I could tell he had a right to .04 cfs for heating and secondary irrigation of 1 acre from the hot well.

He also said that the controlled well with a grain silo over it could have been drilled by the Government Geothermal project, as they put grain silos over their wells just like that. (Perhaps our identification of the wells and the years they were drilled is not totally correct).

It is possible that the artesian hot well should be controlled, as there is no year round use occurring which would warrant it. Perhaps at one time Darrington used it for stockwater based upon historical domestic use at the old house then greenhouses, but that no longer seems to apply.

Stewart also mentioned that he is irrigating acres in the NESE and SESE of Section 23 that do not appear irrigated in the 1987 photos. Don Barnett agreed with me that if he desires to continue irrigating there he will have to file a transfer and dry up other acres. Perhaps pivot corners from the pivots he put in this year.

I also requested that Stewart file a change of ownership form and provide the deed so that we could get the Crooks claim into his name alone.

AND SW ¼ SECTION 24 T15S, R26E

43-02327, 43-02461, 43-04095

- 10-18-1928** 2.0 cfs of water from Raft River, priority date 1884, is decreed to Orlando Bateman, for use on the SESE Section 23 and S½SW and NWSW of Section 24. Decree No 43-00046.
- 11-5-1948** Alvin Newbold applies for a permit (43-2327) to develop 1.5 cfs of groundwater for use on 150 acres on the same tracts identified above, stating that the water is to supplement the existing water right, which is inadequate and undependable. He also lists *culinary* uses in the application.
- 9-12-1949** Well is drilled in the SWSESE Section 23 which is 540 ft deep, artesian, and approximately 200 degrees F.
- 7-9-1952** Department field examiner finds 80 acres irrigated in the NWSW & S½SW section 24, using existing ditches that are also used to carry Raft River water. He also finds ¾" diversion pipe running 75 feet to a small house and chicken coop. The total discharge measured is 0.205 cfs. and the temperature of the water is measured at 184 degrees F.
- 6-21-1957** Floyd Knight conveys 10 acres to J.B. Erickson along with rights to use the Hot Well located "above" the described premises. Erickson grants Knight an easement for ingress and egress to a new cold water well to be drilled "above" described premises, and the right to divert water. The 10 acres conveyed includes the location of the three wells situated in the SWSESE Section 23 mentioned in this chronicle. It would also seem to include the small house and chicken coop located within 75' of the hot well drilled in 1949.
- 8-2-1957** Alvin Newbold files application for permit to develop 1.5 cfs of groundwater for use on 160 acres located in the SESE Section 23, S½SW and NWSW Section 24. He states that the new well will be within 50 feet of the present hot well, which is too hot to irrigate with. His intention is to get cold water to mix with the hot water for irrigation.

2-24-1958 Well is drilled for Alvin Newbold in section 23. Well is 240 feet deep and water temp is reported to be 80 degrees F.

12-5-1961 Document from Knight to Erickson confirming Erickson's right to use water from "the Hot Well located at the property at Bridge Idaho" for heating in the operation of his project.

6-20-1963 Department field examiner finds 75 acres irrigated and a capacity of 1.56 cfs at the new well drilled for Newbold in 1958. Temperature is measured at 84 degrees F. He documents the 540 ft. hot well approximately 75 feet southwest, and that approximately 2" of water from the hot well is used as heat in the house at the site, and waste water from the house is put into the ditch and conveyed to the lands irrigated. The cold water well is reported to be 240 feet deep and equipped with a 15 hp motor. Alvin Newbold accompanies the field examiner.

6-29-1966 Ivan Darrington drills *replacement* irrigation well in the SESESE Section 23 to fulfill diversions under license 43-2327 and -2461. Well is 260 feet deep and 120 degrees F. He states in a letter to the Department that the existing wells quit producing and that the new well produces 80 inches of water.

?-?-1969 Paul Crooks drills new well in SESESE Section 23. According to the log, this well has a 10 inch casing.

?-?-1978 ASCS Aerial photos show a number of greenhouses on the 10 acre parcel that were not evident in either the 1962 or 1968 photos.

1-4-1980 Paul Crooks files a Stat claim in the name of Town and Country Gardens for 1.71 cfs of groundwater for the heating of greenhouses located in the SESE Section 23. He states that the same water is also used for irrigation and licensed as 43-02327 and 43-02461.

5-31-1989 Ivan Darrington files Adjudication claims for 1.71 cfs of groundwater based upon licenses 43-02327 and 43-02461.

RE:
CLAIMS REVIEW/SEARCH

HE REPRESENTS 'BARNETT INTERMOUNTAIN WATER' AND WAS ASKING ABOUT IVAN DARRINGTON CLAIMS & PROPERTY. HE ASKED ABOUT THREE CLAIMS THAT MAY OR MAY NOT BE IN THE SRBA: A43-02461 & A43-02327 WERE FOUND BUT, 43-04097 & 43-00046 WERE NOT CLAIMED. WE DISCUSSED THE RIGHT 43-00047 BUT FOUND IT WAS NOT THE POU THEY ARE LOOKING TO BUY.

REED STEWART IS LOOKING AT THIS LAND W/ BARNETT'S HELP; HE ASKED SEVERAL QUESTIONS ON PRIORITY OF THE RAFT RIVER SYSTEM AND I EXPLAINED THE WATERMASTER DELIVERS BASED ON THE OLD JOBE ADAMS DECREE BUT THE CURRENT SRBA IS UPDATING THAT LISTING. SUGGESTED HE TALK WITH THE WATERMASTER TO GET THE DELIVERY LISTING USED AND THE RECORDS OF THE RIGHTS UNCLAIMED BY DARRINGTON.

SENDING OUT CLAIM FORMS & INSTRUCTIONS, EXTENSION REQUEST FOR LATE CLAIMS, RAFT RIVER SOURCE LISTING FROM SRBA DATA BASE, AND COPY OF THE 43-04097 STATUTORY CLAIM FILE.

HE ASKED ABOUT THE TIME TABLES INVOLVED IN THE SRBA AND I TOLD HIM WE HAVE BEGUN THE FIELD EXAMS FOR THE BASIN IN SUMMER OF 1994 AND WILL CONTINUE INTO SUMMER OF 1995. SUGGESTED HE GET LATE CLAIMS IN ASAP AND HE MAY NEED TO FILE EXTENSION REQUEST.
