Mr. Belzer informed me in response to my telephone call to R. Whiskey that the extent of water right developed in these sections is that represented on Adj Claim 43-2483. He agreed 43-4200 claims a water right that never existed. The company does not wish to claim a water right as set out on 43-4200.

Subject: Claims Originally Filed in Fosha vs. Dunn Adjudication
=====

This claim was originally filed in the Fosha vs. Dunn Adjudication which has subsequently been consolidated with the SRBA. Claimants in Fosha vs. Dunn were not required to file a new claim in the SRBA. In some cases, however, claimants may have filed an amended claim in the SRBA.

The original claims consist of both an original white copy with the original signature and a yellow carbon. Both of these form must be retained in the IDWR files. The original form included a green carbon which is the claimant's copy. As stated above, there may also be an amended claim.

The review of this claim initially occurred in 1985/1986 by IDWR Adjudication staff. The review process included field examination by IDWR Southern Region Staff (Loren Holmes and Allen Merritt) in 1985 and additional review by IDWR State Office staff (Don Shaff, John Noyes and Forrest Luthy). The claim review documents include:

- // ~~Final recommendation~~ - shown on zeroxed copy of claim, with recommendation shown in RED
- /✓ Adjudication Claim Analysis Sheet (consider this a replacement for the currently used Claims Verification Report (CVR))
- /✓ Map
- /✓ Correspondence, Memos to File, etc.
- /✓ Zerox of original receipts (this is because the original receipt was hand written, prior to the computer receipting). However, in most instances, a voided receipt has been created in the computer in order to update the record to the Host Master.

I have reviewed the claim at this time in order to evaluate the completeness of the original review and have it meet current standards. I have created an R record and verified the recommendation when possible. Generally, the review is based on information available at the time of the original review in 1985/86. Unless there is a discrepancy, additional information of more recent origin has not been added to the review process.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

INTER-OFFICE COMMUNICATION

TO: Ron Robertson

DATE: June 20, 1986

FROM: Bob Whipkey

SUBJECT:

Dear Ron:

In regards to the telephone conversation we had on June 18, 1986, about the actual number of irrigable acres in Sections 19 and 30 of the Raft River property, I have enclosed maps and water rights.

What the Department of Water Resources is interested in is a picture of what land is tillable and that which is low lying or riparian land.

If you would be so kind as to get together with Ken and make a determination I would greatly appreciate it.

Sincerely,

BOB WHIPKEY
