IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT
OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA

Case No. 39576

Subcase No. 63-07891

AFFIDAVIT OF JERRY LEE INAMA

STATE OF IDAHO)
) ss.
County of Ada)

JERRY LEE INAMA, having been duly sworn upon oath, deposes and states as follows:

1. My name is Jerry Lee "Moe" Inama. My permanent address is P.O. Box 33, Garden Valley, Idaho 83622, though I also reside in Atlanta, Idaho, on a seasonal basis, typically from April through November of each year. I am of sound mind and majority age, and I make this affidavit based upon my own personal knowledge.

2. I currently help manage and oversee the property owned by Greene Tree, Inc. in Atlanta, Idaho, including its guest lodge and associated facilities, on a seasonal basis. I have assisted Greene Tree in this capacity since 1981. As part of my work for Greene Tree, I have become familiar with Greene Tree's various water diversions and water uses, including its withdrawals of spring water for heating purposes.

3. I first became aware of a potential error in Greene Tree's heating water rights in September of 2011. During that time, I was preparing for a meeting with representatives of the U.S. Forest Service to discuss components of Greene Tree's water conveyance system that cross federal property. As part of my preparation for that meeting, I reviewed documents related to Greene Tree's heating water rights. It was during that review that I first observed that one of Greene Tree's heating water rights identified its source as an unnamed "Spring," while the other heating water right identified its source as Chattanooga Hot Spring.

4. Chattanooga Hot Spring is depicted on the USGS quadrangle map as within the NWNWSE of Section 35, Township 6 North, Range 11 East, Boise Meridian. However, Greene Tree withdraws all of its heating water from an unnamed spring located near the Benchmark 5434 noted on the USGS quadrangle map within that same Township, Range, and Section. It appears to me that the unnamed spring is located within the SESWSE of Section 35.

5. At one time, Greene Tree did withdraw water for its heating system from Chattanooga Hot Spring. After withdrawal from the spring, this water was conveyed north and across the Middle Fork Boise River in an aboveground pipe held in place by guy-wires suspended from trees. However, sometime in the 1980s, a falling tree destroyed this suspension

system for the aboveground pipe across the river. After that incident, the spring water was conveyed to the north through a buried pipe. In order to provide enough fall to convey the water via gravity flow, it was necessary to withdraw the spring water from the unnamed spring near Benchmark 5434, which sits at a higher elevation than Chattanooga Hot Spring.

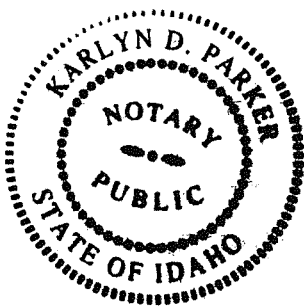

6. This history may explain why one of Greene Tree's heating water rights still identifies its source as Chattanooga Hot Spring. Unfortunately, it is impossible for me to provide further information or insight regarding the history behind this misidentified source. Previously, all major decisions regarding Greene Tree's land and water rights were made by Alva Greene, its co-founder and former president. However, Mr. Greene passed away on September 1, 2009.

Further your affiant sayeth naught.

Jerry Lee Inama 'MDE'
Jerry Lee Inama

SUBSCRIBED AND SWORN to before me this 4th day of JUNE, 2012.
