MEMORANDUM

To: Files: Idahome Farms Inc.
From: Helen Harrington-Thornton ^{HAT}
Date: February 17, 1993
Subject: Background

=====

Five claims were originally filed in the Fosha vs. Dunn
Adjudication:

A43-02349
A43-02350
A43-02346F
A43-02506
A43-04230

These claims were reviewed by Adjudication Staff in 1985/86, with proposed recommendations completed (see memo describing claim file materials for Fosha vs. Dunn claims). Subsequently, Idahome Farms Inc. filed claims in the SRBA under the same numbers. (The exception being A43-02346F, which was filed in the SRBA as A43-02346C). Additionally, an expansion claim, A43-10478, was filed.

The refiling of claims in the SRBA has resulted in several changes which I have determined need additional review before final recommendations are made. Specifically, the claims filed in SRBA for A43-02349 and A43-02350 claimed different places of use than the original claims under these numbers, thereby voiding (to at least some degree) the proposed recommendations made in 1986.

I have compiled several maps and additional information to assist in the review of the above listed claims. These materials can be found in the file A43-02349. The maps include the acres claimed based on the most recent claim; the acres licensed/claimed on the original records; and a map of the proposed recommended acres based on the reviews done in 1985/86.

Additionally, landsat data from both the original review and 1987 MP acres from the computer. These are related specifically to A43-02350 and A43-04230 and this information is in file A43-02350. I did not finish this review because I question the proposed recommendation regarding the number of acres in each quarter-quarter. The SRBA claim for A43-02350 changed the POU and therefore these recommended acres should be re-reviewed prior to final recommendation.

There should be a general "Fosha vs. Dunn" file which will either be held by Don Shaff, Allen Merritt, or Loren Holmes. This file will contain the original maps, landsat data and other memos and material developed during the initial review of the claims conducted in 1985/86.

Subject: Claims Originally Filed in Fosha vs. Dunn Adjudication
=====

This claim was originally filed in the Fosha vs. Dunn Adjudication which has subsequently been consolidated with the SRBA. Claimants in Fosha vs. Dunn were not required to file a new claim in the SRBA. In some cases, however, claimants may have filed an amended claim in the SRBA.

The original claims consist of both an original white copy with the original signature and a yellow carbon. Both of these forms must be retained in the IDWR files. The original form included a green carbon which is the claimant's copy. As stated above, there may also be an amended claim.

The review of this claim initially occurred in 1985/1986 by IDWR Adjudication staff. The review process included field examination by IDWR Southern Region Staff (Loren Holmes and Allen Merritt) in 1985 and additional review by IDWR State Office staff (Don Shaff, John Noyes and Forrest Luthy). The claim review documents include:

- // ~~Final recommendation~~ - shown on zeroxed copy of claim, with recommendation shown in RED
- // Adjudication Claim Analysis Sheet (consider this a replacement for the currently used Claims Verification Report (CVR))
- // Map
- // Correspondence, Memos to File, etc.
- // Zerox of original receipts (this is because the original receipt was hand written, prior to the computer receipting). However, in most instances, a voided receipt has been created in the computer in order to update the record to the Host Master.

I have reviewed the claim at this time in order to evaluate the completeness of the original review and have it meet current standards. I have ^{NOT} created an R record, and ~~verified the recommendation when possible.~~ Generally, the review is based on information available at the time of the original review in 1985/86. Unless there is a discrepancy, additional information of more recent origin has not been added to the review process.

RE: 43-4230, 43-2346F, 43-2349, 43-2350, 43-2506

Dear Mr. Parr:

Your copies of the Claims to Water Right in the Fosha vs. Dunn case are enclosed. Although the staff in Twin Falls office did most of the investigative work and received your claims, the Adjudication Bureau here will prepare the report in the nature of a proposed finding that will be sent to the court. Please refer to the I.D. numbers when communicating with this office.

Three (3) original claims are enclosed for your review, and possibly for you to sign and submit. The reason for more claims is only one water right (one priority date) may be claimed per form. Some research may be necessary before submitting these claims because the priority dates (with one exception that is explained below) and points of diversion correspond to other water rights represented by licenses.

Well No. 1 (SESW, Section 29) is described on 43-4230 and 43-2506/29174 (new number, old number order). This well was apparently completed September 11, 1958, but the first use was not until June, 1, 1965 according to the proof submitted by Clarence Parr on December 9, 1965. As far as using the water for the permit to develop the water right into a license (43-2506), these dates do not create a problem. This may not be true for the use right claimed on 43-4230.

Being in a critical ground water area, you are probably well aware of the permit statute that cut off any use rights as of March 25, 1963. Section 42-229, Idaho Code, does provide some leeway for water rights initiated before the effective date of the law. What that leeway will require of you, however, is submitting extensive proof as

MICROFILMED

MAR 19 1986

January 15, 1986

to development dates of the use of the well, dates of irrigating the land claimed (W1/2, S. 33) and affidavits of intent by the users and witnesses to the activities of those users. Copies of receipts for equipment, seed or the like would be helpful also.

Well No. 2 (SENW, S. 32) is described on 43-4230 and 43-2349/21540. This well was first drilled in 1957. The first records of the use of the water from this well indicate April 7, 1959, but this use is known only for the lands of 43-2349. Here again, proof would be required to show when water was used on the W1/2, S. 33.

Well No. 3 (SESE, S. 32) is also described on 43-4230 and 43-2349. This well was first drilled in the spring, 1955, and its known use is similar to Well No. 2.

Well No. 4 (SENE, S 32) is claimed on 43-4230 and 43-2346F/21512 part. The proofs for the permit indicate the use of the water on the permit lands may have coincided with the development of the wells in May, 1954.

For each of the wells, the priority date claimed corresponds to the priority date for the water license related to that well. The priority date for a water right based on a license normally is tied to the lands described on that license only. Had the intent of a water right applicant been to also irrigate the W 1/2, S. 33, those lands would have been included in the permit filing. Otherwise, the priority date for these lands are later than the licenses and dating from the first use of the water from each of the wells on this Section 33 land.

For each claim you agree to submit, please write the priority date you are claiming for that well in Item #1, sign the claim having your signature notarized and return with a \$50 filing fee for each claim to this office, or Twin Falls if you prefer. You have paid the use fee for the lands when you submitted the earlier claims.

Thank you for your assistance in this adjudication of water rights. Please contact this office if you have any questions about the proceeding.

Sincerely,

DON SHAFF
Water Rights Supervisor

That he now requests that the point of diversion be changed to a point

That the reason for desiring to make such change is as follows: This well has been
drilled since 1953 & was not included in Completion of Works of 1954 & was not equipped with a
pump at that time. Now change in point of diversion is only slightly over 1/2 mile from point
of diversion in ~~NE 1/4~~ Section 29 and 1/2 mile from point of diversion in ~~NE 1/4~~ & does
eliminate one point of diversion. This is a proven well site & will irrigate all of the
lands efficiently and will save the cost of drilling an additional well.

Application for Amendment /
POINT OF DIVERSION
Permit No. G-29174

Comes now Clarence A. Parr and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-29174. That the point of diversion is described in said Permit as being located: NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 29, T11S, R27E EM

That he now requests that the points of diversion be changed to a point located: NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 29, T11S, R27E EM

That the reason for desiring to make such change is as follows: Well for Permit G-29173 will probably produce sufficient water for both tracts. That no one will be injured by such change, and that such change will be made at Permit Holder's risk.

 POINT OF DIVERSION
 Permit No. G-29174

Comes now Clarence A. That the points of diversion are described in said Permit as being located: NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Township 11 South - Range 27 East, S.M.

That he now requests that the point of diversion be changed to a point located: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 29, Township 11 South - Range 27 East, S.M.

That the reason for desiring to make such change is as follows: This well has been drilled since 1955 & was not included in Completion of Works of 21541 & was not equipped with a pump at that time. New change in point of diversion is only slightly over 1/4 mile from point of diversion in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 29 and 1/2 mile from point of diversion in NE $\frac{1}{4}$ NW $\frac{1}{4}$ & does eliminate one point of diversion. This is a proven well site & will irrigate all of the lands efficiently and will save the cost of drilling an additional well.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.
