

Idaho Dept. of Water Resources
322 E. Front St. Boise, ID
May 4, 2007

To: 3-2000 Claim File
From: Jennifer Dean
Subject: Preparation of Recommendation & Objection Resolution

This recommendation was prepared according to standard practices. The basis of the claim was a license. Most of the elements of the water right were confirmed based on the license and the supporting licensing field exam.

The license 3-2000 did not describe the number of acres associated with the place of use. Based on the GIS review of this location only 76 acres were found. This is the result of multiple attempts to find more acres.

Another portion of the water right that was not described in the licensing exam is the period of use. The standard period of use for irrigation was recommended for both the irrigation portion and the stockwater portion of this right. The stockwater use was recommended under the domestic use described in the license. It was determined that stockwater was a better description of the nature of use than just domestic. There is no indication that the original domestic use was for anything other than stockwater.

The place of use and the point of diversion were recommended using the standard GCDB information that was available in the IDWR database. The island is divided into 4 government lots, with each lot in a different section. The quarter quarters associated with one of the lots did not fit with the typical quarter quarter layout, but because it was associated with a lot number, I just used the information in the database.

Regarding the resolution of the objection against the number of acres, without additional information identifying acres that were missed in the analysis only 76 acres should be recommended.

The period of use for stockwater was not identified in the license, but recognizing an instream stockwater use the period of use can be expanded from the irrigation season to year round.

The true legal description of the property does not need to include the quarter quarter if there is a government lot. The quarter quarter description is simply to help locate the lot. Therefore the change to the quarter quarter description is also an item that can be changed.

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s)	Adjudication Claim No(s)	Split	Water Right No(s)	Adjudication Claim No(s)	Split

2. The following **REQUIRED** information must be submitted with this form:

A. The appropriate **FILING FEE**. See instructions for fee amounts.

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

WATER RIGHT LICENSE

WATER RIGHT NO. 03-07039

Priority: November 22, 1988

Maximum Diversion Rate: 1.20 CFS
Maximum Diversion Volume: 269.1 AF

This is to certify, that EASTERN WESTERN CORP
ATTN MICHAEL MC GINLEY
1505 S E GIDEON ST
PO BOX 3228
PORTLAND OR 972083228

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 22, 1988; and has submitted Proof of Beneficial Use on December 5, 1989. An examination indicates that the works have a diversion capacity of 2.250 cfs of water from:

SNAKE RIVER

tributary to COLUMBIA RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.20 CFS	269.1 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 4(NESE), Sec. 8, Township 08N, Range 05W
PAYETTE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

			SENE 28.4	Lot 4(NESE) 8.4	Lot 4(NWSE) 1.5	59.8

Total number of acres irrigated: 59.8

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Re: Eastern Western Corporation

Dear Ms. Buffington:

I am writing to inform you of Eastern Western Corporation's change in its street address. The new street address for Eastern Western Corporation is 1426 S.E. Gideon Street, Portland, Oregon 97202. The mailing address for Eastern Western Corporation remains unchanged (P.O. Box 3228, Portland, Oregon 97208-3228).

Please update the Idaho Department of Water Resources' records for all water rights held by Eastern Western Corporation to reflect the changed street address.

Thank you for your assistance with this matter. Please contact me if you have any questions or need additional information.

Sincerely,

EASTERN WESTERN CORPORATION

RE: Snake River Basin Adjudication (SRBA)
Valley & Payette Counties
Eastern Western Corp. - #A03-02000, A65-19608,
A03-04009 & A65-19598

Dear Dana:

Thank you for sending the Valley County claim by Eastern Western Corp. with \$75.00 fees. I have enclosed a copy of this new claim (#A65-19598) for your files. I have also enclosed Receipt #C023040 for the filing fees.

We noticed at Item #9 on this claim Eastern Western is claiming domestic, one home with a priority date of June 1, 1953. However, Item #14, Remarks, shows that a trailer was added in 1989 and the well is serving two households now. If they wish the trailer use to be Decreed at this time, they may want to file a separate claim for that use, showing a priority date of 1989.

Along with the new claim referenced above, you also submitted a Domestic/Stock Water claim for property in Payette County (#A65-19608) and two amended claims, #A03-04009 and A03-02000. Copies of these claims are enclosed. For the instream stockwater, please amend claim #A03-02000 to include the point of diversion with a beginning and ending point, have it signed and notarized appropriately, and return it to this office. *on Banks Island*

As I mentioned to you when I called on Wednesday, Dana, I discovered several Eastern Western Corp. claims with name/address information incorrectly data-entered. If you would like these claims modified to reflect Mr. Gideon as Current Owner and you as Attorney, please send us a letter stating same, and have the owner sign appropriately. I will modify the claims and send you copies. I have enclosed Eastern Western's claim numbers from each printed screen containing their rights. I have checked the rights needing the corrections mentioned above.

MICROFILMED

AUG 10 1992

Dana Hofstetter
February 21, 1992
Page 2

We are generally cleaning up the data base and bringing it up to data entry standards issued in January, 1990. I will be removing punctuation, unnecessary "C/O's" in front of Mr. McGinley's name, deleting the "and" in Holland and Hart and replacing it with the ampersand, etc. Do you want a copy of the claims where I've made these corrections or may I simply send you a copy of the address screen(s) (sample enclosed).

Thank you again, Dana, for your cooperation and prompt responses. Please contact us if you have any questions.

Sincerely,

Sally Frazee
Secretary, Adjudication Section

Re: Colwell – Water Right Nos. 3-2000 and 3-4009

Dear Ms. Dean:

As you know, your letter of February 22, 2006 requested a response regarding the above-referenced water rights by today, March 22, 2006. I am writing to request an additional 3 weeks to respond. Currently, we are evaluating whether to have an irrigation requirement analysis undertaken for Bank's Island. Thank you for your consideration of this request.

Sincerely,

HOFSTETTER LAW OFFICE, LLC

RESPONSE DEADLINE
MARCH 17, 2006

Re: SRBA claims 3-2000 & 3-4009

Dear Claimant:

In the process of reviewing the Snake River Basin Adjudication (SRBA) claims that were filed for the above water rights, questions regarding these claims have arisen. Although direct answers may be confused through changes of ownership, information about the current use of the system may clarify these concerns.

Because 3-2000 is based on a license, there is historical proof confirming this water right on record. Only the first two items need clarification in order to recommend 3-2000. The claim for 3-4009 is based on a statutory claim and additional proof is required in order to recommend it as claimed. Each item discussed in this letter relates to proof that must be submitted in order to recommend claim 3-4009. Without these items claim 3-4009 will be recommended to the SRBA court as disallowed.

3-2000 & 3-4009:

The first item that needs clarification for both claims is the irrigated place of use. Based on available aerial photography from 1949 to 2004, only 75 acres of the island appear to be irrigated. Both 3-2000 and 3-4009 claim 81 acres. IDWR recommendations will reflect the irrigation of 75 acres unless evidence is provided to support irrigation of additional acres. The enclosed map outlines the 75 acres that appear irrigated. If all of your irrigation is within these boundaries, there is no need for you to respond to this matter. If, however, you irrigate outside of these boundaries, please indicate on the map where additional water is used and include a statement describing the water use in these areas.

The second item that needs clarification for both claims is the point of diversion. The enclosed map shows the original point of diversion from the licensing exam for 3-2000. Information in the claim files suggests that the point of diversion may have been changed. If the pumping station is still located at its original point, there is no need to respond and we will recommend the point of diversion at this location. If the point of diversion has been moved, please indicate on the enclosed map the current point of diversion for the above water rights. We will need evidence supporting that the pumping station was moved prior to 1987. The enclosed pamphlet entitled "Evidence of Priority" suggests documents that may be submitted as evidence of a change. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit. A form is provided for your convenience.

3-4009:

The two items relating specifically to claim 3-4009 are the diversion rate and historical evidence. When 3-4009 and 3-2000 are used in combination, the total diversion rate is 3.12 cfs. This diversion rate is in excess of the proven historical diversion rate as well as the IDWR standard allotment of 0.02 cfs, or one miner's inch, per acre irrigated. **If you wish to pursue diversion beyond 1.5 cfs, it must be proven that additional diversion is possible, necessary, and historically reasonable.**

February 22, 2006

HOFSTETTER LAW OFFICE

To indicate that it is *possible* we are asking that you submit the known diversion rate of the system. If the specific diversion rate is unknown, a description of the current system (including pump horse power, lift from the river, and measurements of the ditches) would allow us to make estimations related to the current diversion rate.

To show that additional diversion is *necessary* an analysis of your irrigation system is needed. Answering the enclosed Irrigation Flow Rate Questionnaire will provide the information necessary to analyze your system to determine if it merits the use of more water than would normally be recommended. A page of instructions for answering the questionnaire has been included. Please note that the Natural Resources Conservation Service (formerly known as the Soil Conservation Service) and other professionals may be of assistance in helping you understand the technical questions contained in this form.

To prove that it is *historically reasonable*, evidence supporting the claimed priority date will need to be submitted. This must show that prior to July 1, 1954 the system was capable of diverting water beyond 1.5 cfs. Again, the pamphlet "Evidence of Priority" may be helpful.

In summary, if you agree with the following, you are not required to submit any evidence:

- Only 75 acres are irrigated as described on the enclosed map
- The point of diversion is as indicated on the enclosed map
- Only 1.5 cfs are diverted from the Snake River

If you believe that your water rights should be changed from what is described above please respond with a description of the change you think should be made and evidence that can be used to support the change.

- Evidence that more than 75 acres are irrigated
- Location of current point of diversion **and** evidence to support a change if necessary
- Estimation of current diversion **or** description of current irrigation system
- Responses to the Irrigation Flow Rate Questionnaire
- Evidence supporting the July 1, 1954 priority date for the use of water beyond 1.5 cfs

PLEASE NOTE: If this evidence is not submitted, IDWR will recommend the SRBA Court decree claim 3-4009 be disallowed. IDWR will also recommend the SRBA Court limit claim 3-2000 to 75 acres and leave the point of diversion in its original location. If you decide to submit evidence, it will be to your advantage assure it is clear and convincing. It is also important to note that many of the required documents will take some time to obtain; therefore, it is in your best interest to begin immediately collecting this information.

Please submit the required evidence and information by the date shown above, referencing all documents with the corresponding claim numbers. According to convenience, you may submit the evidence as each piece is obtained or you may submit it all at once. If you should decide to return the materials in anything other than the enclosed mailer, please include the notation "ATTN SRBA Claim Number 3-4009" on the front of the mailer. If you have questions not covered by this letter or the enclosed documents, please contact this office. If you wish to call, our toll free number is 1-800-451-4129.

Sincerely,

Jennifer Dean, EIT

Re: Field Examination, Snake River Basin Adjudication Claim Number 3-2000

Dear Claimant(s):

The Notice of Claim to a Water Right (claim) identified with the number shown above your name has been filed in the Snake River Basin Adjudication (SRBA). The claim indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights.

The elements of beneficial use rights need to be verified by an examiner for the Idaho Department of Water Resources (IDWR) before the claim can be recommended to the SRBA Court. The examination of claims in your area is taking place during the summer of 2005. An examiner will be contacting you to schedule a visit your property to verify your use of the water right claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to IDWR. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership with IDWR in order to receive future mailings and to participate in the adjudication.

A copy of your water right claim is enclosed. If you have any questions, please contact this office. Our toll free number is 1-800-451-4129. It will help speed things along if you have your claim number, 3-2000, handy when you call.

- Water License No. 1685 -

WHEREAS, On the twentieth day of November, A. D. 1905, John R. Banks of Payette, County of Canyon, and State of Idaho, duly made application (No. 2331) to me for a permit to use one and one-half cubic feet per second of the waters of Snake River, County of Canyon, state of Idaho, for irrigation and domestic purposes; and,

WHEREAS, On the twenty-eighth day of November, A. D. 1905, Permit No. 1685 was issued to said applicant for the diversion of said water, and providing for the completion of the works of diversion therein described on or before the twenty-eighth day of May, A. D. 1906, and for the application to beneficial use of said water on or before the twenty-eighth day of May, A. D. 1908, and,

WHEREAS, On the fifth day of March, A. D. 1906, the holder of said permit duly made proof of the completion of adequate works for the diversion of one and one-half cubic feet per second of said waters, as evidenced by my Certificate No. 1685, dated March 8, 1906, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use one and one-half cubic feet per second of water, with date of priority of November 20, 1905, and,

WHEREAS, On the fifth day of March A. D. 1906, proof was duly made of the application to beneficial use of 21/50 of one cubic foot per second of said water;

NOW, THEREFORE, By virtue of the authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to JOHN R. BANKS of Payette, Idaho, the holder and owner of said Permit No. 1685 a perpetual right, dating from November 20, 1905, to the use of 21/50 of one cubic foot per second of the waters of Snake River, in the County of Canyon, and state of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted at a point near the N. W. corner of SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of section 31, Township 9 North, Range 5 West of Boise Meridian, (unsurveyed) and conducted to and upon the Northeast Quarter (NE $\frac{1}{4}$) of Northeast quarter (NE $\frac{1}{4}$) of Section Thirty-one (31), Township Nine North, Range ~~Three~~ ^{Five}, ~~1/2~~ ⁵ west of Boise Meridian (a portion of an unsurveyed island in Snake River) for the purpose of irrigation and domestic, subject, however, to the laws of the state of Idaho applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

Witness my hand and the seal of my office, at Boise, Idaho, this eighth day of March, A. D. Nineteen Hundred and six.

PERMIT NO. 1685

Proof of Completion of Works.

DEPOSITION OF WITNESS.

Question 1. State your name, age, residence, occupation and post-office address.

Answer. John Wagner age 28 years, Laborer, Payette, Idaho

Ques. 2. Are you acquainted with John P. Banks the holder of Permit No. 1685, authorizing the diversion of $5\frac{1}{2}$ second feet of the waters of Snake River at

for irrigation purposes? How long have you known him, and where does he reside?

Ans. I have known him for ten years last past, Resides at Payette Ida.

Ques. 3. Have you read or heard read said Permit No. 1685, and are you familiar with its terms and conditions?

Ans. I have read the same and am acquainted with it.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. I am it is an Island in the Snake River opposite to Sec'n 29 and 32T. 9. N. R. 5. W. B.V. desert in character and contains about 95 acres.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. they are

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. the works consist of a four inch Centrifugal pump, a five Horse power Gasoline Engine and a ditch at the discharge of said pump with 4 ditches about 3 feet wide leading therefrom to the different parts of the Island so it can all be irrigated said ditches will carry about 100 miners inches

(Sign here.)

Dear Sir:

In respect to Permit 1685 issued to John H. Hanks. I herewith enclose plat of land showing position of pumping plant, &c. in connection therewith. the particulars of same are as follows. -

Power. - A 5 1/2 H.P. gasoline engine. with a lift from the Snake River of 12 feet into the main ditch. -

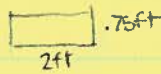

The main ditch is 2 feet wide on the bottom and 1 foot deep. - laterals are 1 foot wide on the bottom and 1 foot deep. - the grade of ditches 2.50 feet to a mile. -

The area of land under irrigation 20 acres seeded in Alfalfa. - ditches are well constructed and the engine and pump in good working order. -

Respectfully,
W. H. Root
