License and Certificate of Water Right

Water License No. 22671Amount 0.9 second foot1.1 cfs for 1¹/₄ acre

Water District No. _____

Priority March 18, 1958THIS IS TO CERTIFY that NATHAN J. SHEPHERD

of Route 1, Weiser, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated March 18, 1958; that Permit No. 22671 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 0.9 second foot, was issued thereunder on December 12, 1958, showing that said works were completed on the 16th day of June, 1958; and that on the 16th day of June, 1958,

NATHAN J. SHEPHERD

of Weiser, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of Snake River

~~and the right~~, for the purpose of irrigation

, under Use Permit No. 22671 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 8 of Licenses at page 5032, on the 12th day of December, 1958;

The right hereby confirmed dates from March 18, 1958;

The Point of Diversion is located

in the SE 1/4 NW 1/4, Sec. 3, Tp. 10 N., R. 6 W., B.M. Washington County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 0.9 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
10 N.	6 W.	3	NE 1/4	5	10
			NW 1/4	10	20
			SE 1/4	20	20
			SW 1/4	10	5
			Number of Acres Actually Irrigated - - -		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

12th day of December, 1958.

MARK E. KULPState Reclamation Engineer

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: Pond: 150' x 100' x 10', Century Electric Boosters: 10hp and 25hp, 6" mainline

E. NARRATIVE/REMARKSCOMMENTS

Water right license 03-02031 covers 55 acres north of this permit's 27 acres. Water right license 67-02216 covers this permit's same 27 acres. This permit is for supplemental Snake River water. According to the owner and Al Cito, the farm manager, Snake River water has never been intentionally diverted for the 27 acres. License 67-02216 was for a 36" well. The field exam noted that the height of the water in the well was determined by the height of the Snake River. The well has since been replaced with a pond and booster pumps. The pond is ~3 to 5 af. Per a 9/24/86 memo from Brad Dingee, the owners visited the office and stated that the point of diversion for permit 03-07035 was actually a gravel pit that filled with Snake River water. Per my 7/24/98 field exam, the owner and farm manager stated that the gravel pit replaced the well and that they have not had to use their supplemental Snake River water on the 27 acres yet because the ground water pit has been sufficient. The owner said that if they ever did have to use this permit, they would just use

a portable pump (tractor driven). I feel this permit is from the same source as license 67-02216. The question is whether the pond water is defined as Snake River water or ground water. Either way, the source and the 27 acres have been licensed. Maybe both sources could be listed on license 67-02216 per the SRBA. If the pond ever failed to provide the licensed amount for the 27 acres, then applicant could use the portable pump and file a transfer to add a point of diversion if necessary. Based on the above information, I recommend this permit be disallowed.

Have conditions of permit approval been met? ☐ yes ☐ no
