IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

This right is a split from former right 03-2042.

**Idaho Dept. of Water Resources
322 E. Front St. Boise, ID
August 1, 2006**

To: 3-2042A, 3-2042B, & 3-4023 Claim Files

From: Jennifer Dean

Subject: Ownership

There is a discrepancy between the claims, license, and field exam information for the POU of these claims. Use the attached map as reference. Claim 3-2042A is for 8 acres in T09N, R05W, S11 NWSW. Claim 3-2042B is for 26 acres in T09N, R05W, S11 NWSW. The license for 3-2042 was issued for 35 acres in T09N, R05W, S11, with 10 acres in NESW and 25 acres in NWSW. From the field exam and tax lot information, claim 3-2042A should be for 8 acres in NWSW and perhaps SWNW and claim 3-2042B should be for 26 acres between SWNW and SENW. Using deeds for these properties the ownership was sorted through with the intent to determine where the water rights were developed. These deeds are contained in the claim file for 3-4023.

Based upon the fact that no previous owner could be found using recorded deeds for Block 7 of the Wood Spur Tract, it can be assumed that the Mathy family owned this property back to the time of the establishment of Payette County. Although in a different location, the license for 3-2042 was issued to Charles Mathy on August 27, 1964. A deed from July 2, 1969, conveys Block 7 of the Wood Spur Tract as well as a portion of Lot 3 (which is in Block 8 of the Wood Spur Tract) from Charles and Hattie Mathy to Harold E. and Evelyn P. Mader. The deed also conveys "all water, water rights, ditches, and ditch rights... particularly rights under State of Idaho Permit No. 27013." This permit was eventually numbered 3-2042. The property described in the previous deed (including the permit number) was transferred from Harold E and Evelyn P. Mader to Evelyn P. Mader on November 3, 1970. The property and water right were transferred again August 14, 1972, from Evelyn P. Mader to Elmer F. and Mary H. Kassahn. Mary Kassahn filed the SRBA claim for the northern portion (Block 7) on April 14, 1990. Gayle and Don Mateer filed the SRBA claim for the southern portion (Lot 3) on April 11, 1990.

From the chain of title that was obtained from records at the Payette County Recorder's Office, Blocks 8, 9, and 19 of the Wood Spur Tract (see map) with the exception of the 8-10 acres northwest of the road have been in the Lattig family prior to February 1, 1926. Instrument #53339, dated February 1, 1926, conveys this property from Charles P. Lattig to his wife Ethel B. Lattig. Instrument #68249, dated November 29, 1947, conveys this property from Ethel B. Lattig (a widow) to Bayard B. Lattig. I imagine that this is a son or a brother-in-law. From information provided by the claimant related to evidence of priority, Dr. Bayard Lattig was

**Idaho Dept. of Water Resources
322 E. Front St. Boise, ID
August 1, 2006**

married to Florence Lattig. Bayard Lattig died on February 21, 1951. On November 8, 1968, Florence Lattig (a widow), Charles P. Lattig (a single man), and Nedra L. Lattig Downs (a married woman) conveyed this property to Payette Industrial Corporation. Payette Industrial Corporation filed a statutory claim in 1984 and an SRBA claim in 1990.

On November 14, 1980, the Payette Industrial Corporation sold a portion of Wood Spur Tract Block 8 to Homestead Log Company. On December 3, 1980, the water users in Block 8 terminated an agreement dating back to May 24, 1919. The purpose of this agreement is to release the right-of-way that was described in the agreement from 1919. On December 16, 1980, Iowa-Des Moines National Bank mortgaged the Homestead Log Company. A warranty deed dated January 30, 1987, was found under the name Homestead Log Company. There was no legal description for this deed and based upon the deed for the Homestead Log Company dated March 15, 1988, it appears to be unrelated. The deed from March 15, 1988, conveys the entire property in Block 8 from Homestead Log Company to Lyle R. Taylor and Cynthia M. Taylor. Because the statutory and SRBA claims were filed after this property was sold from the Payette Industrial Corporation, claim 3-4023 does not cover this particular section of Block 8. It appears that another claim filed for this property would have standing based on the history of the property.

Based upon the property ownership during the 1950's and 1960's, it appears that the license may have been issued incorrectly. The Lattig family owned all of the land that is currently irrigated by the Payette Industrial Corporation prior to 1968; therefore, a license issued to Charles Mathy should have been issued for the property where he lived and not on the property owned by the Lattigs. Based on the absence of deeds that relate to Charles Mathy obtaining property from a previous owner, it can be assumed that the Mathy family owned the northern property at the time of licensing. This indicates that the license was issued for the incorrect location and that all of the property claimed by the Payette Industrial Corporation could have been developed at the same time. Claim 3-4023 will be recommended with a priority date of June 3, 1957 for the entire place of use claimed. Claims 3-2042A and 3-2042B will be recommended with the licensed priority date of July 29, 1957 with the POU containing the acres that were found in the field exam and tax lot data.

Re: Field Examination, Snake River Basin Adjudication Claim Number 3-2042A

Dear Claimants:

The Notice of Claim to a Water Right (claim) identified with the number shown above your name has been filed in the Snake River Basin Adjudication (SRBA). An earlier letter mistakenly stated that the basis for your claim is "Beneficial Use" or "Statutory". Your claim is in actuality based upon a license.

The reason we need to conduct a field exam on your claim is primarily to verify the place of use of both pieces of the original water right. You are claiming 8 acres within the NWSW of Section 11, Township 09N, Range 05W. The other piece of water right 2-2042, associated with claim number 2-2042B, is claiming acreage in the NW quarter of the same section. The field exam for the license indicated all of the irrigated acreage was in the SW quarter, but a map in the claim file for 2-2042B (enclosed) appears to indicate some of the land associated with 2-2042A is also in the NW quarter of the section.

Idaho Statute (IC 42-1425) allows IDWR to recommend a change in place of use as an accomplished transfer if that change took place prior to the commencement of the SRBA, November 19, 1987. Changes that occurred after that date require a formal transfer application filed with the IDWR Water Allocations Bureau.

In order to clear things up on our end, we need to verify where you are using the water, and, if it is in a different location than that which was licensed, when and how the change in place of use occurred. To that end, an examiner will be contacting you to schedule a time to visit your property to verify your use of the water right claimed.

If you have questions, please contact this office. Our toll free number is 1-800-451-4129. It will help speed things along if you have your claim number, 3-2042A, handy when you call.

Sincerely,

Steve Robischon

License and Certificate of Water Right

Water License No. 27013

Amount 0.70 c.f.s.

Water District No. _____

Priority July 29, 1957

THIS IS TO CERTIFY that CHARLES MATHY
of Payette, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated July 29, 19 57 ; that Permit No. 27013
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.764 second feet, was issued thereunder on July 10, 19 62, showing that said works
were completed on the 5th day of July, 19 62 ; and that on the 10th
day of September, 1962 ,

CHARLES MATHY

of Payette, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Snake River
, a tributary of Columbia River, for the purpose of irrigation
, under Use Permit No. 27013 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
13 of Licenses at page 7969, on the 27 day of August, 19 64 ;
The right hereby confirmed dates from July 29, 19 57 ;

The Point of Diversion is located

in the NW ¼ SW ¼, Sec. 11, Tp. 9 N, R. 5 W., B. M. Payette County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.70 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
9 N.	5 W.	11	NE ¼ SW ¼	40	10
			NW ¼ SW ¼	40	25
			Total number of acres to be irrigated:		35

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

27th day of August, 19 64 .

RALPH W. THOMAS
Deputy State Reclamation Engineer.

To Appropriate the Public Waters of the State of Idaho

02-2140

APPLICATION No. 34927
 PERMIT No. 27013
 DISTRICT No.

Charles E. Mathy
 Rt. # 2,
 Payette, Idaho

1. Name of Applicant: CHARLES E. MATHY

Postoffice address: Rt. # 2, Payette

County: Payette

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

- (a) Cash on hand:
- (c) Bonds to be issued:

2. Quantity of water claimed: .764 or 38.2 miners inches cubic feet per second.

3. Source of water supply: Snake River which is a tributary of Columbia River

4. Location of point of diversion: 183 feet distant from the SW corner of Section 11, T. 9 N., R. 5 W., B.M., and is in the NE of SW of Section 11, T. 9 N., R. 5 W., B.M., County of Payette

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet distant from the corner of Section , T. , R. , B.M., in the of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 2000.00

8. Kind of works: Pump in River

9. Height of dam feet; length of dam at top feet; length of dam at bottom feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet; dimensions of flume:

Diameter of pipe 8" inches; length of conduit (pipe) 86 Ft. - Pump to ditch miles.
 Average grade per mile feet.

12. The time required for the completion of such work is Five years.

13. The time required for the complete application of the water to the proposed use is Six additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None (see remarks)

No
